Thank you very much for joining us in Denver! We are pleased to welcome our AAEA members to what will no doubt be a spectacular summer meeting, and we are also very pleased to welcome our CAES and WAEA colleagues to this Joint Annual Meeting of our three venerable professional associations.

This is a very special meeting for the AAEA, as 2010 marks the 100th anniversary of the founding of the Agricultural & Applied Economics Association! In recognition of this special occasion, AAEA has organized a large variety of distinctive events to celebrate its centennial, and we hope that you will have the opportunity to enjoy many or all of them. This includes an **AAEA Welcome Reception** on Sunday evening unlike any other you have experienced in recent memory, including live music and presentation of special guests, all beginning at 8:00 pm and continuing until **midnight**!

Earlier on Sunday afternoon, beginning at 4:30 pm, Paul W. Barkley will be featured in a plenary session where he will provide highlights of AAEA’s 100-year evolution based on his new book, *A Centennial History of the AAEA*, which all members of the AAEA will receive without charge. The premiere of an AAEA-commissioned video commemorating the centennial will be included as part of Paul’s session. Our Keynote Address will precede the Welcome Reception, at 7:00 pm on Sunday evening, and will feature Marc Nerlove, who will analyze the interesting and sometimes curious relationship between the agricultural and general economics professions over time in his presentation entitled “Agricultural Economics and Economics: Convergence and Divergence”.

Appearing throughout the meeting, and hosted by Sections of the AAEA, will be follow up presentations relating to the 12 themed articles that appeared in the **Special Centennial Issue of the AJAE**. There will also be other centennial-themed paper presentations in Track Sessions of our Sections, and elsewhere in the program. Table-top displays from universities and institutions throughout the country will document century-long developments in the history of a wide collection of agricultural and applied economics-oriented programs, and a spectacular series of timeline panels highlighting every decade in the 100-year life of the AAEA will be on display for all to enjoy.

And looking well forward into the second century of AAEA’s existence, Thomas W. Hertel, our incoming AAEA President, will be presenting his Presidential Address on Monday, from 9:00 am–10:00 am, concerning “The Global Supply and Demand for Land in 2050: A Perfect Storm?”.

Concluding our Centennial Celebration, the AAEA will host, for the first time, a **Closing Reception** that will represent the official close of the meeting. It will be held on Tuesday evening, beginning at 7:00 pm, and will be centennial-themed, including among other things, a birthday cake for our 100-year-old association!

As you would expect, the meeting includes a full slate of Invited and Selected Paper sessions, Organized Symposia, and Poster presentations as well as student activities, Track Sessions, and speaker series luncheons and banquets sponsored by our various AAEA Sections. Two additional very special events include the **Fellows Address**, presented this year by Catherine L. Kling on Tuesday, from 11:30 am–12:30 pm, and entitled “Economic Incentives to Improve Water Quality in Agricultural Landscapes: Some New Variations on Old Ideas”, and the AAEA Galbraith Forum on Tuesday, from 6:00 pm–7:00 pm, presented this year by John A. List on “Using Field Experiments in Agricultural and Environmental Economics”. Please note that the Galbraith Forum is now a free event available to everyone in attendance at the meeting.

Our AAEA Business Office has done an excellent job of planning our meeting. The AAEA staff will be visible and on hand throughout the meeting in Denver, so feel free to contact them if you need assistance. I hope your experience in Denver is both professionally and personally enjoyable and enriching, and that you leave with fond and lasting memories of the Celebration of our 100-year existence as a premier association of agricultural and applied economists. And best wishes to the association for the next 100 years!

Ron Mittelhammer
AAEA President
WELCOME TO DENVER

I would like to welcome all members of the CAES to the Joint Annual Meeting in Denver. I would also like to extend that welcome to the members of the other associations that are part of this joint meeting—the AAEA and WAEA. All are welcome to attend our sessions and, given the excellent CAES program that has been put together, I expect that there will be something each of you will find interesting. I know that I and other CAES members will be sampling what the AAEA and WAEA programs have to offer. Having attended a number of these joint meetings in the past, I know they are a great way to extend networks and to rub shoulders with a wide variety of agricultural economics professionals.

It is the AAEA’s centennial this year and there will be sessions of a reflective nature—it will be a good time to think about how our profession has evolved—and is still evolving. The CAES has been engaged in a “future directions” initiative that will be discussed in Denver. I urge you all to take the time to attend the business meeting of the society and bring your thoughts about how the society can better serve your needs. I also urge you to attend the CAES Fellows Address to be given this year by Fellow Suren Kulshreshtha on “Climate Change, Prairie Agriculture, and Prairie Economy: The New Normal” and the CAES Presidential Address by our incoming President, Jim Vercammen on “Incorporating Environmental Costs and Benefits in Agricultural Support and Insurance Programs.”

Denver has a number of attractions and I hope you take some time to enjoy the city. Having said that, don’t forget the CAES Awards Banquet! It will be the social highlight of the Denver meeting and a place to greet and meet Canadian friends, old and new. It is also where the CAES honours its members’ achievements—from newer members winning Undergraduate Book Prizes and Masters Thesis awards to others who will be recognized for academic scholastic excellence and long standing contributions to the profession. Come along and help us honour their success.

I personally look forward to seeing all of you in Denver.

Bill Kerr  
CAES President

Welcome to Denver and the Joint Annual Meeting! Our objective was to create a unique program that would allow WAEA to maintain its identity from the other two professional societies (AAEA and CAES). AAEA Sections were invited to co-sponsor sessions with us and you will see that we have joint sessions with AEM, FAMPS, GSS, and TLC. The entire WAEA program will take place on Tuesday starting with the WAEA Breakfast & Awards Program. We asked each WAEA department to nominate alumni who received their graduate degree (MS, MBA, or PhD) in agricultural economics and then we invited them to be panel speakers for our six Tuesday concurrent sessions. This will be a great way for us to engage with our many alumni working in industry. We have speakers from a wide range of food economy firms who will address current policy topics affecting food and agribusiness, careers in industry, and teaching and learning in the workplace. Our industry guests have also been invited to the Industry Speaker Series & Banquet on Monday night and will be honored during the WAEA Luncheon and Recognition of Industry Alumni. Finally, we will conclude the Tuesday program with Larry Van Tassel’s Presidential Address and our business meeting. I want to especially thank the WAEA Council representatives for working with us to identify the alumni, Farm Foundation for sponsoring lunch, and vice-president, Karen Klonsky who has helped in many ways this past year in organizing this program. It takes a lot of volunteers to run WAEA and I want to thank all of them for helping plan this program.

Michael Boland  
WAEA President
MEETING INFORMATION

Registration Desk Hours
Saturday, July 24, 4:00 pm–7:00 pm
Sunday, July 25, 8:00 am–7:00 pm
Monday, July 26, 7:00 am–5:00 pm
Tuesday, July 27, 7:00 am–4:00 pm

The Registration Desk is located in the Plaza Building on the Concourse Level. If you have any questions, please feel free to visit the Registration Desk, or contact AAEA staff at (303) 352-2424.

Accessibility
In accordance with the Americans with Disabilities Act, please inform an AAEA staff member if you need special assistance. Staff members are available on site at the Registration Desk to assist you.

Guests
Guests must be registered in order to attend any and all meeting functions, including the Welcome Reception, plenary sessions, and all concurrent sessions. Guests include any interested party not professionally in the field of agricultural economics or a related discipline. Children under the age of 16 may attend the meeting for free and do not need to register as a guest.

Taping of Sessions
Session content is copyright-protected by AAEA, CAES, & WAEA. Recording of any session without the consent of AAEA, CAES, & WAEA is prohibited. Any taping done with the consent of the appropriate association is for personal use only and cannot be reproduced or distributed.

Tickets
Tickets are required for all speaker series luncheons and banquets, as well as other special events. A limited number of tickets may be available for sale on site. If available, tickets will be sold at the registration desk up until the day before the event. No tickets will be sold on the day of the event.

AAEA, CAES, & WAEA are committed to the “True Cost Pledge.” All three associations attest that the fee associated with each event is the true cost of the price to cover that event.

Association Photographer
A professional photographer will be on site at the Joint Annual Meeting taking photos which may be used in future promotional materials for AAEA, CAES, or WAEA. If you prefer that you are not included in these photos, please notify the photographer.

AAEA, CAES, & WAEA LEADERSHIP

Agricultural & Applied Economics Association Executive Board
President: Ron Mittelhammer, Washington State University
President-Elect: Thomas W. Hertel, Purdue University
Past President: Richard E. Just, University of Maryland
Directors: Bruce A. Babcock, Iowa State University; Damona G. Doye, Oklahoma State University; Barry Goodwin, North Carolina State University; Lisa A. House, University of Florida; Scott Irwin, University of Illinois at Urbana-Champaign; James M. MacDonald, USDA-Economic Research Service

American Journal of Agricultural Economics (AJAE)
Editors: Jeffrey H. Dorfman, University of Georgia; David Hennessy, Iowa State University; Erik Lichtenberg, University of Maryland; J. Edward Taylor, University of California, Davis

Applied Economic Perspectives and Policy (AEPP)
Submitted Articles Editors: Timothy Park, USDA-Economic Research Service; Tomislav Vukina, North Carolina State University
Featured Articles Editor: Ian Sheldon, The Ohio State University

Choices Magazine
Editor: Walter J. Ambruster, Farm Foundation, President Emeritus

Canadian Journal of Agricultural Economics (CJAE)
Editors: James F. Nolan, University of Saskatchewan; Elwin G. Smith, Agriculture and Agri-Food Canada; G. Cornelis van Kooten, University of Victoria; James R. Wilson, University of Quebec at Rimouski

Western Agricultural Economics Association Executive Board
President: Michael Boland, Kansas State University
President-Elect: Larry Van Tassell, University of Idaho
Past President: Penny Diebel, Oregon State University
Vice President: Karen Klonsky, University of California, Davis
Directors: Eric DeVuyst, Oklahoma State University; Christopher McIntosh, University of Idaho; Ruby Ward, Utah State University; Jonathan Yoder, Washington State University

Journal of Agricultural and Resource Economics (JARE)
Managing Editor: Gary W. Brester, Montana State University
Co-Editors: Joseph A. Atwood, Montana State University; Vincent H. Smith, Montana State University; Myles J. Watts, Montana State University

- Oklahoma State University
- Purdue University
- Texas A&M University, Department of Agricultural Economics
- Texas Tech University, Division of Personal Financial Planning
- University of Georgia
- University of Florida
An AAEA Centennial Retrospective, Featuring Paul W. Barkley and an AAEA Historical Video
Sunday, 4:30 pm–5:30 pm
Plaza Building, Concourse Level, Plaza Ballroom ABC
Paul W. Barkley will discuss the history of AAEA at the opening plenary session of the 2010 Joint Annual Meeting. This session will be supplemental to the book Barkley has written about AAEA, A Centennial History of the AAEA. Barkley, who is Professor Emeritus in the School of Economic Sciences at Washington State University and currently Courtesy Professor at Oregon State University, will outline the importance of the association as it has moved through the decades, focusing primarily on the communication that has been used both inside and outside the profession.

This session will also feature the premiere of a video produced for AAEA’s Centennial Celebration titled “Historical Highlights of the AAEA at 100 Years”. The video will also be shown after each of the AAEA plenary sessions throughout the meeting.

Keynote Address
Sunday, 7:00 pm–8:00 pm
Plaza Building, Concourse Level, Plaza Ballroom ABC
Marc Nerlove
Professor of Agricultural and Resource Economics, University of Maryland
“Agricultural Economics and Economics: Convergence and Divergence”

Marc Nerlove is Professor of Agricultural and Resource Economics at the University of Maryland. He has been an Analytical Statistician with the U.S. Agricultural Marketing Service, an Economist with Subcommittee on Antitrust and Monopoly, United States Senate, and a First Lieutenant in the United States Army. His many honors and awards include the John Bates Clark Medal of the American Economic Association, Fulbright and Guggenheim Fellowships, Fellowship and presidency of the Econometric Society, and fellow of the American Statistical Association, the American Academy of Arts and Sciences, and AAEA. He is an elected member of the U.S. National Academy of Sciences.

AAEA Presidential Address
Monday, 9:00 am–10:00 am
Plaza Building, Concourse Level, Plaza Ballroom ABC
Thomas W. Hertel
Distinguished Professor of Agricultural Economics, Purdue University
“The Global Supply and Demand for Land in 2050: A Perfect Storm”

Thomas W. Hertel is Distinguished Professor of Agricultural Economics at Purdue University, where his research focuses on the economy-wide impacts of global trade and environmental policies. Hertel is a Fellow and President-Elect of AAEA. He is also the founder and Executive Director of the Global Trade Analysis Project (GTAP) which now encompasses 7,500 researchers in 150 countries around the world. His most recent research has focused on the impacts of energy and climate policies on global land use and poverty. Previously, Hertel has conducted research on the impacts of multilateral trade agreements, including the linkages between global trade policies and poverty in developing countries.

WAEA Breakfast & Awards Program
Tuesday, 7:00 am–8:30 am
Tower Building, Majestic Level, Vail Room
Join WAEA in honoring the achievements and accomplishments of its members from the past year over breakfast. Awards for outstanding research, extension, and teaching programs will be presented. WAEA will also recognize the 2010 Distinguished Scholars.

AAEA Fellows Address
Tuesday, 11:30 am–12:30 pm
Plaza Building, Concourse Level, Plaza Ballroom ABC
Catherine L. Kling
Professor of Economics, Iowa State University
“Economic Incentives to Improve Water Quality in Agricultural Landscapes: Some New Variations on Old Ideas”

Catherine L. Kling is Professor of Economics at Iowa State University and the Center for Agricultural and Rural Development. Her research interests include non-market valuation methods, especially revealed preference approaches, and interdisciplinary analyses focusing on policy design and incentives for the provision of ecosystem services from agriculture. Kling is a Fellow of the AAEA, a member of EPA’s Science Advisory Board, President-Elect of the Association of Environmental and Resource Economists (AERE) and past board member of the AAEA. She has held editorial positions with the American Journal of Agricultural Economics, Journal of Environmental Economics and Management, and Land Economics.
How to Find a Job at the ASSA Meetings:
Navigating the Labyrinth
Tuesday, 12:45 pm–1:30 pm
Tower Building, Terrace Level, Columbine Room
This session will feature a panel discussion on how to successfully interview at ASSA in response to a significant shift of the agricultural economics job market to the ASSA Annual Meeting. We have invited several panelists with various interviewing perspectives: the university perspective, the public agency perspective, and the perspective of a student/recent hire who has successfully interviewed at ASSA. The panelists will share their insights with the audience and then will take questions from the audience.

Panelists include:
· Mary Bohman, Director, Resource & Rural Economics Division, USDA-Economic Research Service
· Jon Brandt, Professor and Department Head, North Carolina State University
· Juan Pablo Sesmero, Assistant Professor, Purdue University

Lunch will not be provided, but we invite you to bring a lunch with you. The Sheraton has a grab-n-go deli in the lobby, and there are several take-out options outside of the hotel.

CAES Presidential Address, Fellows Address, & Business Meeting
Tuesday, 1:30 pm–4:30 pm
Tower Building, Second Level, Windows Room

President Address
James Vercammen
University of British Columbia
“Incorporating Environmental Costs and Benefits in Agricultural Support and Insurance Programs”

James Vercammen joined the Food and Resource Economics Group at the University of British Columbia in 1991, shortly after obtaining a PhD in Agricultural and Resource Economics from the University of California, Berkeley. Vercammen’s research has examined a variety of industrial organization and policy issues, mostly recently applied to carbon offset and environmental markets.

Fellows Address
Suren Kulshreshtha
University of Saskatchewan
“Climate Change, Prairie Agriculture, and Prairie Economy: The New Normal”

Suren Kulshreshtha is professor in the Department of Bioresource Policy, Business, and Economics at the University of Saskatchewan. He received his training first in India and his PhD from the University of Manitoba. His current areas of interest include climate change and greenhouse gas mitigation from agriculture, among others.

WAEA Presidential Address & Business Meeting
Tuesday, 4:00 pm–5:30 pm
Tower Building, Majestic Level, Vail Room

Larry Van Tassell
University of Idaho
“Assessment and Accountability in Land Grant Universities”

Larry Van Tassell has served as the Department Head in Agricultural Economics and Rural Sociology at the University of Idaho since 1999. Larry has been actively involved in the university classroom, teaching management, production, and finance classes at both the undergraduate and graduate level. His research endeavors have included federal grazing issues, conservation management, and farm and ranch decision making. He has served the WAEA in numerous capacities, including Director and Council Member, Published Research Award Committee Chair, and Thesis Awards Committee Chair, and is the current President-Elect of WAEA.

AAEA Galbraith Forum
Tuesday, 6:00 pm–7:00 pm
Plaza Building, Concourse Level, Plaza Ballroom ABC

John A. List
Professor of Economics, University of Chicago
“Using Field Experiments in Agricultural and Environmental Economics”

John List is Professor of Economics at the University of Chicago. His published research includes theoretical and empirical inquiries into both positive and normative issues in economics, with a special focus on environmental and resource problems. His research has pioneered the use of controlled field experiments in economics, which have provided insights into the valuation of nonmarket goods and services, public good provisioning, behavioral anomalies, charitable giving, auction theory, and the role of the market in the development of rationality. In 2002–2003, he served as Senior Economist on the President’s Council of Economic Advisors for Environmental and Resource Economics.
SPEAKER SERIES EVENTS (TICKETED EVENTS)

COSBAE/CWAE Speaker Series & Luncheon
Monday, 12:00 pm–1:30 pm
Tower Building, Second Level, Windows Room
This is a ticketed event. The cost to attend is $45.

Sherece West
President/CEO, Winthrop Rockefeller Foundation
“Partnering with Philanthropy”

Extension Section Speaker Series & Luncheon
Monday, 12:00 pm–1:30 pm
Tower Building, Terrace Level, Columbine Room
This is a ticketed event. The cost to attend is $45.

Alan Barkema
Senior Vice President and Director of Research, Federal Reserve Bank of Kansas City
“What’s Next? Prospects for the Economy and Agriculture”

Industry Speaker Series & Banquet
Monday, 8:00 pm–9:30 pm
Tower Building, Second Level, Tower Court D
This is a ticketed event. The cost to attend is $70.

Chris Policinski
President and CEO, Land O’Lakes, Inc.
“The Great Productivity Story of American Agriculture”

CAES Awards Dinner & Banquet
Monday, 6:30 pm–9:30 pm
Tower Building, Second Level, Windows Room
This is a ticketed event. The cost to attend is $70.

Karen Brooks
Africa Region Agricultural Programs Manager, World Bank
“African Agriculture—What Do We Not Know? What Do We Need to Know?”

WAEA Luncheon and Recognition of Industry Alumni
Tuesday, 12:00 pm–1:30 pm
Tower Building, Majestic Level, Vail Room
This is a ticketed event. The cost to attend is $20.

### Agribusiness Economics and Management Section (AEM)

**AEM Section Business Meeting**  
Sunday, 10:00 am–11:30 am  
*Tower Building, Mezzanine Level, Colorado Room*

**Industry & International Reception**  
Monday, 7:30 pm–8:00 pm  
*Tower Building, Second Level, Tower Court Foyer*

**Industry Speaker Series & Banquet**  
Monday, 8:00 pm–9:30 pm  
*Tower Building, Second Level, Tower Court D*

**AEM Track Sessions**
- **1001** Continuing the Tradition: Employing Tested and Emerging Economic Tools in Framing Sustainability Challenges for a Global Economy
- **2015** Agribusiness Economics and Management: 100 Years of Professional Contributions (Centennial Session)
- **2045** Performance Implications of Sustainability Initiatives in Agri-food Companies
- **3003** The Nascent Bioeconomy for Industrial Markets: Green Goes from Plant Material to Spandex
- **3045** New Advances in the Cooperative Life Cycle Framework
- **3058** Current Agribusiness Policy Issues
- **3074** How Health Is Changing the Dynamics of Food Innovation
- **3100** Alerting All Entrepreneurs! Research on Ethical Awareness and Entrepreneurial Behavior

### Applied Risk Analysis Section (ARA)

**ARA Section Business Meeting**  
Sunday, 12:00 pm–1:00 pm  
*Tower Building, Mezzanine Level, Silver Room*

**ARA Section Track Sessions**
- **1011** Copulas: How to Better Model Dependent Random Variables
- **2025** Managing Risk through Livestock Disease Policy
- **3012** Risk Issues at the Interface of Extension and Research
- **3097** New Developments in Crop Insurance and Their Implications for 2010 and Beyond

### China Section

**China Section Business Meeting**  
Sunday, 1:00 pm–2:00 pm  
*Tower Building, Mezzanine Level, Spruce Room*

**China Section Track Sessions**
- **1014** Chinese Agricultural Commodity Price and Demand, and Their Implications to Trade with United States
- **3014** Green, Blue, and Brown: Assessing the State of the Economics of Forests, Water, and Grass in Rural China

### Committee on the Opportunities and Status of Blacks in Agricultural Economics (COSBAE)

**COSBAE Business Meeting**  
Sunday, 12:00 pm–1:30 pm  
*Tower Building, Mezzanine Level, Century Room*

**COSBAE Reception**  
Sunday, 5:30 pm–6:30 pm  
*Tower Building, Mezzanine Level, Spruce Room*

**COSBAE/CWAE Speaker Series & Luncheon**  
Monday, 12:00 pm–1:30 pm  
*Tower Building, Second Level, Windows Room*

**COSBAE Track Sessions**
- **2015** Examining the Effects of Trade Policies Applied to Horticultural Markets
- **2046** Agricultural Development Challenges: Lessons from Africa and the Caribbean
- **2071** Where Do Agricultural Economists Fit in the Local Food Movement?
- **3070** Emerging and Current Issues in Agricultural Biotechnology

### Committee on Women in Agricultural Economics (CWAE)

**CWAE Business Meeting**  
Sunday, 11:00 am–12:00 pm  
*Tower Building, Mezzanine Level, Gold Room*

**CWAE Reception**  
Sunday, 5:30 pm–6:30 pm  
*Tower Building, Mezzanine Level, Gold Room*

**COSBAE/CWAE Speaker Series & Luncheon**  
Monday, 12:00 pm–1:30 pm  
*Tower Building, Second Level, Windows Room*

**CWAE Track Sessions**
- **1001** Continuing the Tradition: Employing Tested and Emerging Economic Tools in Framing Sustainability Challenges for a Global Economy
- **2045** Performance Implications of Sustainability Initiatives in Agri-food Companies
- **3001** Teaching on a Tight Budget: What Do We Do with More Students and Less Resources?
- **3044** Women in Agricultural Economics: A Centennial Celebration
- **3070** Emerging and Current Issues in Agricultural Biotechnology

### Community Economics Network (CENET)

**CENET Business Meeting**  
Sunday, 10:00 am–11:30 am  
*Tower Building, Mezzanine Level, Spruce Room*

**CENET Track Sessions**
- **1002** Jobs, the Rural Economy, and Economic Recovery
- **3041** A Century of Research on Rural Development and Regional Issues (Centennial Session)
- **3071** Exploring the Interface between Local Food Systems and Community Economics
Econometrics Section

**Econometrics Section Business Meeting**
Sunday, 9:00 am–10:00 am
Plaza Building, Lobby Level, Director’s Row E

**Econometrics Section Track Sessions**
1011 Copulas: How to Better Model Dependent Random Variables
2042 Propensity Score Matching: Learning How and When to Use This Technique
3011 Fifty Years of Choice Modeling
3096 Econometric Developments in Agricultural and Resource Economics: The First 100 Years (Centennial Session)

Extension Section

**Graduate Student Extension Competition**
Sunday, 8:00 am–3:00 pm
Tower Building, Second Level, Tower Court D

**Extension Section Business Meeting**
Sunday, 1:30 pm–3:00 pm
Plaza Building, Concourse Level, Plaza Court 6

**Extension Section Reception**
Sunday, 5:30 pm–6:30 pm
Tower Building, Mezzanine Level, Century Room

**Extension Section Speaker Series & Luncheon**
Monday, 12:00 pm–1:30 pm
Tower Building, Terrace Level, Columbine Room

**Post-conference Tour: Extension Agricultural Education Tour**
Wednesday, 7:00 am–7:00 pm
Plaza Building, Lobby Level, Hotel Lobby

**Extension Section Track Sessions**
1006 USDA/Land Grant Extension Outlook Program and Role of Farm Management (Centennial Session)
2022 Washington Policy Update by Chief Economists from the House and Senate Agriculture Committees and the USDA-Farm Service Agency
2032 The Land Grant Vision of Extension’s Future
2063 Greenhouse Gas Markets and Agriculture
3012 Risk Issues at the Interface of Extension and Research
3030 Graduate Student Competition in Extension—Winners’ Presentations
3075 Extension Section Crops Outlook
3101 Livestock Outlook

Food and Agricultural Marketing Policy Section (FAMPS)

**Pre-conference Workshop: Behavioral and Experimental Economics, Food, and Health**
Saturday, 8:30 am–5:30 pm
Plaza Building, Concourse Level, Governor’s Square 14

**FAMPS Business Meeting**
Sunday, 8:00 am–10:00 am
Tower Building, Mezzanine Level, Colorado Room

**FAMPS Track Sessions**
2016 Examining the Effects of Trade Policies Applied to Horticultural Markets
2043 Centennial Overview of Food and Agricultural Marketing Policy Issues (Centennial Session)
3002 New Evidence on the Structure of Agricultural and Food Markets
3072 Policy Responses to Instability in Agricultural Markets: Retrospect and Prospect (Centennial Session)
3085 Policy Issues Affecting Food and Agribusinesses
3088 Climate Change Legislation: Food Sector Impacts

Food Safety and Nutrition Section (FSN)

**Pre-conference Workshop: Behavioral and Experimental Economics, Food, and Health**
Saturday, 8:30 am–5:30 pm
Plaza Building, Concourse Level, Governor’s Square 14

**FSN Section Business Meeting**
Tuesday, 7:00 am–8:30 am
Tower Building, Second Level, Windows Room

**FSN Section Track Sessions**
1003 Evaluation—Measuring the Impact of Food Safety and Nutrition Policy
2001 Healthy Food or Healthy People? How Do Food and Nutrition Assistance Programs Contribute to the Health of Low Income Americans?
2061 The Second Century of Food and Consumer Economics: What Will Be Remembered in 2110? (Centennial Session)
3015 Behavioral Economics Research Approaches: Innovative Applications in Nutrition and Food Safety
3074 How Health Is Changing the Dynamics of Food Innovation
3098 Promoting Food Choice and Health for Children: Political, Economic, and Behavioral Aspects
AAEA SECTION EVENTS & ACTIVITIES

Graduate Student Section (GSS)

Graduate Student Extension Competition
Sunday, 8:00 am–3:00 pm
Tower Building, Second Level, Tower Court D

GSS Case Study Competition
Sunday, 8:00 am–3:30 pm
Tower Building, Second Level, Tower Court A, B, and C

Monday, 1:30 pm–4:00 pm (Finals)
Plaza Building, Lobby Level, Director’s Row E and F

GSS Business Meeting
Sunday, 12:00 pm–1:00 pm
Tower Building, Mezzanine Level, Colorado Room

GSS Reception
Sunday, 5:30 pm–6:30 pm
Tower Building, Mezzanine Level, Denver Room

3087 Climate Change and Agriculture: Impacts, Adaptation, and Mitigation

National Association of Agricultural Economics Administrators (NAAEA)

NAAEA Business Meeting
Sunday, 10:00 am–12:00 pm
Tower Building, Mezzanine Level, Silver Room

Senior Section

Senior Section Business Meeting
Monday, 7:30 am–8:30 am
Tower Building, Second Level, Windows Room

Senior Section Track Sessions
1005 What Is Next for NAFTA: Unresolved Issues
1006 USDA/Land Grant Extension Outlook Program and Role of Farm Management (Centennial Session)
2003 Ever Changing AAEA Research Challenges (Centennial Session)
2032 The Land Grant Vision of Extension’s Future
2063 Greenhouse Gas Markets and Agriculture
3086 Outstanding Intellectual Contributions by Agricultural Economists
AAEA SECTION EVENTS & ACTIVITIES

Teaching, Learning, and Communications Section (TLC)

Pre-conference Workshop: 2010 Teaching Academy—The Use of Simulations to Stimulate Student Learning and Engagement
Saturday, 10:00 am–5:00 pm
Plaza Building, Concourse Level, Governor’s Square 10

TLC Section Business Meeting
Sunday, 12:00 pm–1:00 pm
Plaza Building, Lobby Level, Director’s Row E

TLC Section Track Sessions
2060 Teaching Tips from Top Teachers: 2009 AAEA Award Recipients
3001 Teaching on a Tight Budget: What Do We Do with More Students and Less Resources?
3059 Teaching and Learning in the Work Place
3060 New Curricular Initiatives: The Case of Undergraduate Programs in Resource/Environmental Economics

Undergraduate Student Section (SS-AAEA)

Undergraduate Paper Competition
Sunday, 8:00 am–12:00 pm
Plaza Building, Concourse Level, Plaza Court 6

SS-AAEA Academic Bowl
Sunday, 12:30 pm–1:30 pm (Orientation); 2:00 pm–5:00 pm
Plaza Building, Lobby Level, Director’s Row H, I, and J
Monday, 7:00 am–4:00 pm; 5:30 pm–6:00 pm (Finals)
Plaza Building, Concourse Level, Plaza Ballroom ABC

Undergraduate Recruitment Fair
Sunday, 2:00 pm–5:00 pm
Monday, 7:00 am–4:00 pm
Plaza Building, Lobby Level, Director’s Row Foyer

SS-AAEA Business Meeting
Monday, 8:00 pm–9:00 pm
Plaza Building, Concourse Level, Plaza Court 5

SS-AAEA Mixer
Monday, 9:00 pm–11:00 pm
Plaza Building, Concourse Level, Plaza Court 5

AAEA CENTENNIAL CELEBRATION

An AAEA Centennial Retrospective, Featuring Paul W. Barkley and an AAEA Historical Video
Sunday, 4:30 pm–5:30 pm
Plaza Building, Concourse Level, Plaza Ballroom ABC

Welcome Reception
Sunday, 8:00 pm–12:00 am
Tower Building, Second Level, Grand Ballroom I & I

Closing Reception
Tuesday, 7:00 pm–8:30 pm
Plaza Building, Concourse Level, Plaza Ballroom Foyer

On display throughout the meeting
AAEA Historical Timeline Panels
Plaza Building, Concourse Level, Plaza Ballroom Foyer

Tabletop Displays from AAEA Centennial Patrons
Plaza Building, Concourse Level, Plaza Ballroom Foyer

AAEA Concurrent Sessions Based on Articles from the Special Centennial Issue of AJAE

1006 USDA/Land Grant Extension Outlook Program and Role of Farm Management

ECONOMIC
DEVELOPMENT
AND
CULTURAL
CHANGE

Edited by John Strauss

For nearly 60 years, EDCC has published studies using modern theoretical and empirical approaches that examine both determinants and effects of various dimensions of economic development and cultural change.

A must-read for economists studying development economics or economics of the household, as well as social science researchers focusing on developing countries.

### Agribusiness Economics & Management

**Monday, 3:00 pm–4:00 pm**

| M18 | Labor and Technology Change in the Nursery Industry  
Vera Bitsch, Michigan State University; Steven Buccola, Oregon State University |
|-----|------------------------------------------------------------------|
| M19 | A Study of Iran’s Comparative Advantage in Saffron  
Reza Najjarzadeh, Michael Reed, Sayed Saghaian, Majid Aghaei, and Mahdieh Rezaghakizadeh, University of Kentucky |
| M20 | A Transportation Alliance of Environmental Horticulture Producers in Georgia: Issues and Feasibility  
F.E. Stegelin, University of Georgia |
| M21 | Economic Analysis of Increased Levels of Intramuscular Fat in Pork: Producer and Industry Opportunities  
James B. Kliebenstein and Maro Ibarburu, Iowa State University |
| M22 | Economic Impact of the Alabama Green Industry 2003 to 2008: Grower Optimism in a Changing Economy  
Deacue Fields III and Kennesha Reynolds-Allie, Auburn University |
| M23 | How Do Agribusiness Companies Select Their Innovation Projects?  
Maud Roucan-Kane, Benjamin Gramig, Michael Boehlke, and Allan Gray, Purdue University |
| M24 | Syngenta and Sustainability: Implications for Corporate Strategy  
Amber Rankin and Michael Boehlke, Purdue University |
| M25 | Responding to Animal Advocacy: The Case of PETA and Boycott Australian Wool  
Hamish Gow, Massey University; Ross Bowmar, Michigan State University |
| M27 | Sources of Firm Performance Differences in the U.S. Food Economy: Exploring Specific Industry, Corporate, and Business Segment Effects on Agribusiness Firm Profitability  
Fabio Chaddad and Mario P. Mondelli, University of Missouri |
| M29 | Livelihood Disruption and Venture Creation: Entrepreneurship as Technology Adoption, The Case of Tobacco Farmers in Kentucky  
Sivalai Vararuth Khantachavana and David R. Just, Cornell University |

**Tuesday, 3:00 pm–4:00 pm**

| T1 | Expanding the Shepherd’s Grain Brand: The Crossroads of Economics and Sustainability  
Aaron Johnson, University of Idaho |

### Agricultural Finance & Farm Management

**Monday, 3:00 pm–4:00 pm**

| M1 | Rating the Financial Health of U.S. Production Agriculture Using Synthetic Credit Rating Methods  
Christine Wilson, Kansas State University; Mitch Morehart, USDA-Economic Research Service; Allen Featherstone, Kansas State University; Charlie Hallahan, Kenneth Erickson, and James Harris, USDA-Economic Research Service |
| M2 | Beef Cow-Calf Producer Registration in the National Animal Identification System  
William McBride and Kenneth Mathews, USDA-Economic Research Service |
| M3 | Economic Analysis of Johne’s Disease Control Strategies in Dairy Herds  
Jaesung Cho, Loren Tauer, Ynte Schukken, Rebecca Smith, Zhao Lu, and Yrjo Grohn, Cornell University |
| M4 | A Gaussian Two-factor Maximal Model on Agricultural Commodity Markets  
Na Jin, Sergio Lence, Chad Hart, and Dermot J. Hayes, Iowa State University |
| M5 | Foreign Workers and the Organic Farms’ Demand for Seasonal Unskilled Labor  
Ya Wu, Cesar L. Escalante, and Carrie Neely, University of Georgia |
| M6 | Will Carbon Find a Home on the Range? A Monte Carlo Simulation  
John Ritten, Christopher Bastian, and Benjamín Rashford, University of Wyoming |
| M7 | Crop Price Volatility Impacts on Farmers’ Cropping Patterns: A Dynamic Optimal Crop Rotation Model  
Ruohong Cai, Cheng Qiu, and Michael Wetzstein, University of Georgia |
| M8 | Risk Rating of FSA’s Guaranteed Loan Portfolio  
Charles Dodson, USDA-Farm Service Agency |
| M10 | Producer Technology Use and the Value of Autonomy: The Case of rbST  
Nicole J. Olynk, Purdue University; Christopher A. Wolf and Glynn Tonsor, Kansas State University |
| M11 | Pricing Commodity Options in a Jump-diffusion Model with Markov Switching GARCH Processes  
Feng Wu and Zhengfei Guan, Michigan State University |
| M12 | Actuarial Implications of Structural Changes in El Niño-Southern Oscillation Index Dynamics  
Shu-Ling Chen, National Tsing Hua University |
| M13 | Analyzing and Predicting Farm Financial Stress: A Categorical Logit Approach  
Kenneth Erickson, USDA-Economic Research Service; Ashok Mishra, Louisiana State University; James Harris and Charlie Hallahan, USDA-Economic Research Service |

World Food Price after the WTO Foundation: Deterministic and Non-deterministic Factors Xiaohua Yu and Stefan Meyer, Georg-August-Universität Göttingen

Environmental & Nonmarket Valuation

Monday, 3:00 pm–4:00 pm

Willingness-to-Pay for Emission Reductions with E85 Kimberly Jensen, Adrienne Marra, Christopher Clark, and Burton English, University of Tennessee

Did the Great Recession Reduce Visitor Spending and Willingness-to-Pay for Nature-Based Recreation? Evidence from 2006 and 2009 John B. Loomis and Catherine Keske, Colorado State University

High Individual WTP for High Mountain Recreation in a CVM Model: Language Matters! Greta Lohman, Catherine Keske, and John B. Loomis, Colorado State University

Valuation of Agricultural Weather Information Networks Jeffrey D. Mullen and Mohammed al Hassan, University of Georgia

Willingness-to-Pay for Water Availability in Northwest Arkansas Robyn L. Dennis and Jennie Popp, University of Arkansas

Stated Choice Methods for Ecosystem Valuation Using Internet Surveys: An Application Involving Coral Reef Restoration in Hawaii David J. Chapman, Stratus Consulting; Richard Bishop, University of Wisconsin; Eric Horsch, Stratus Consulting

Benefit Estimation of Water Quality Improvements in Bagmati River Using Choice Modeling Hari Katuwal, University of New Mexico

Is the Bias-efficiency Estimation Trade-offs in Double Bounded Dichotomous Choice Less Pronounced Using Visitor Survey Data? David J. Gebben and John B. Loomis, Colorado State University

Risk, Insurance, and the Provision of Public Goods under Uncertainty Stephen S. Aultman and Jay B. Coggins, University of Minnesota

A Bioeconomic Approach to Capturing Both the Economic Value and Economic Contribution of Fish Stocking in Colorado Waters Daniel Deisenroth, Colorado State University

Risk Belief, Producer Demand, and Valuation of Improved Irrigation: Results from Field Experiments in Mt. Kilimanjaro Francis Muumba and David S. Kraybill, The Ohio State University

Experimental Economics

Monday, 3:00 pm–4:00 pm

On the Use of Multi-unit Auctions in Measuring Consumers’ Willingness-to-Pay for Food Products Faical Akaichi and Rodolfo M. Nayga Jr., University of Arkansas; Jose Gil, Centre de Recerca en Economia d’Evolució Agraria

Conservation Auctions and Compliance: Theory and Evidence from Laboratory Experiments Kentaro Kawasaki, Policy Research Institute, Ministry of Agriculture, Forestry and Fisheries; Takeshi Fujie, Shiga University; Kentaro Koito, Rakuno Gakuen University; Nonkazu Inoue, Shimane University; Hiroki Sasaki, Organisation for Economic Co-operation and Development

Consistency of Willingness-to-Pay and Preferences in Auction Experiments Na He and John Bernard, University of Delaware

Using Economics Experiments to Understand Patent Licensing Behavior Rita Abdelnour and Amalia Yiannaka, University of Nebraska

Making a Market for Miscanthus: Can New Contract Designs Solve the Biofuel Investment Hold-up Problem? Steven Wu, Stephanie Rosch, Corinne Alexander, Wallace Tyner, and Joshua Yoder, Purdue University

Tuesday, 3:00 pm–4:00 pm

Consumers’ Willingness-to-Pay for Animal Welfare Attributes in Dairy Products: Evidence from Experimental Auctions Levan Elbakidze, University of Idaho; Rodolfo M. Nayga Jr., University of Arkansas; Hao Li, University of Idaho

Food & Agricultural Marketing

Monday, 3:00 pm–4:00 pm

The Role of Trust, Risk Aversion, and Local Dealers in Online Markets for Used Farm Equipment Brian E. Roe, Marvin Batte, and Florian Diekmann, The Ohio State University

Public and Private Preferences for Policies Related to Meat and Milk from Clones Kathleen R. Brooks and Jayson Lusk, Oklahoma State University

Factors Influencing Restaurant Managers’ Willingness to Feature Locally Produced Meat Rick Whitacre, Aslihan Spaulding, and Emmanuel Foday, Illinois State University

AAEA, CAES, & WAEA Joint Annual Meeting
Denver, CO • July 25–27, 2010

27
Willingness-to-Pay for Organic vs. Conventional Orange Juice
Lisa House, Zhifeng Gao, and Danielle Thomas, University of Florida

The Impact of Retail Promotion on the Purchase of Private Label Products: The Case of U.S. Processed Cheese
Yasser Bouhlal and Oral Capps Jr., Texas A&M University

Walmart, Private Labels, and Supermarket Milk Pricing
Rebecca Cleary and Jean-Paul Chavas, University of Wisconsin

Determinants of Meats Purchase Behavior by Ethnic Groups
Carlos I. Garcia-Jiménez and Ashok Mishra, Louisiana State University

Do the Poor Pay More for Healthy Food? An Empirical Economic Analysis
Patrick Lee Hatzenbuehler and Jeffrey Gillespie, Louisiana State University

Factors Influencing Contract Use and Contract Terms in Organic Markets
Jason Franken, Michael Sykuta, and Peter Klein, University of Missouri

Agglomeration Economies and Firm Growth in New York Food and Beverage Manufacturing Sector
Jeffrey S. Hall, Cornell University

Evolving Market Performance in Brazilian Futures Contracts Using Relative Efficiency
Fabio Mattos, University of Manitoba; Philip Garcia, University of Illinois at Urbana-Champaign; Fabiana S. P. Urso, BM&FBOVESPA, Securities, Commodities and Futures Exchange

Consumers’ Willingness-to-Pay for Coffee Differentiation: A Comparison of Fair Trade, Organic, and Cause-related Marketing Coffees—and a Mix Thereof
Nina Langen, Carola Grebitus, and Monika Hartmann, University of Bonn

Discrete Choice Models: Which One Performs Better?
R. Karina Gallardo, Washington State University; Jae Bong Chang, Oklahoma State University

Animal Cloning and Consumer Perceptions
Sean Fox and Shonda Anderson, Kansas State University

The Direct and Indirect Effect of Credence Attributes on U.S. Consumers’ Attitudes toward Beef Steak
Domenico Dentoni, University of Adelaide; Glynn Tonsor, Kansas State University; Roger Calantone and Christopher Peterson, Michigan State University

An Ounce of Prevention: The Impact of Economics and Demographics on the Demand for Vitamin Supplements
Sven Anders, University of Alberta; Christiane Schroeter, California Polytechnic State University, San Luis Obispo; Bradley Rickard, Cornell University

Assessing the Impact of Carbonated Soft Drink Marketing Practices on U.S. Consumers
Charles R. Rhodes, University of Connecticut

An Empirical Investigation of the Linkages between Government Payments and Leasing Arrangements
Feng Qiu, Barry Goodwin, and Jean-Philippe Gervais, North Carolina State University

Direct Payments, Farm Survival, and Strategic Farm Creation: The Case of Large-scale Agricultural Structures in East Germany
Patrick Zier and Martin Petrick, Leibniz-Institute of Agricultural Development in Central and Eastern Europe

Fruit and Vegetable Planting Restrictions: A Farm Level Approach
Mesbah Motamed, Barry Krissoff, Edwin Young, and Chenguia You, USDA-Economic Research Service

Do Direct Payments Distort Agricultural Production? A County Level Analysis
Erik O’Donoghue, USDA-Economic Research Service

Is Investment in Agricultural Research a Good Substitute for Price Support in U.S. Cotton?
Suwen Pan and Chenggang Wang, Texas Tech University

U.S. Farm Subsidies and the Biofuel Industry
Jude Bayham, Washington State University; Stephen Devadoss, University of Idaho

Food Aid and Agricultural Cargo Preference
Elizabeth R. Bageant, Christopher B. Barrett, and Erin C. Lentz, Cornell University

Livestock Disease Indemnity Design When Biosafety Externalities Exist
Tong Wang, Iowa State University

Retail Dairy Prices Fluctuate with the Farm Value of Milk
Hayden Stewart and Donald Blayney, USDA-Economic Research Service

SURE Impact? An Empirical Investigation of Moral Hazard Behavior
Anton Bekkerman, Montana State University

Structural Change of European Dairy Farms
Andrea Zimmermann and Thomas Heckelei, University of Bonn

# AAEA POSTERS

## Institutional Economics

**M129** Social Network Capital and Academic Careers: The Case of a College of Agriculture  
*Paul Wilson, Umberto Medicamento, Tauhidur Rahman, and Gary Thompson, University of Arizona*

## International Development

**M130** Business Dynamics and Informal Contracts: Experimental Evidence from the Cowpea Street Food Sector in West Africa  
*Miriam Otoo, Joan Fulton, and Steven Wu, Purdue University; Germaine Ibro, Institut National de la Recherche Agronomique*

**M131** Can Financial Development Cause Productive Inefficiency?  
*Viktor Khazhyn, University of Nebraska*

**M132** Conflict and Poverty: Cause, Effect, and Prediction  
*Shahrir Kibriya, Texas A&M University*

**M133** Correlation between Access to Capitals and Income in the Bolivian Altiplano  
*Nathaniel Jensen and Corinne Valdivia, University of Missouri*

**M134** Drivers of Household Participation in Rural Non-farm Labor Markets in the Post-war Rwanda  
*Patrick Hitayezu, Julius J. Okello, and Christopher O. Gor, University of Nairobi*

**M135** Food Supply and Demand in North Korea: An Econometric Analysis  
*Youngjae Lee, P. Lynn Kennedy, and Brian Hibun, Louisiana State University*

**M136** Incentives for Academic Achievement: An Experimental Study  
*Dhiraj Sharma, The Ohio State University*

**M137** Loan Allocation within Group Lending: New Evidence from Self-help Group Program in South India  
*Jun Goto, University of Tokyo*

**M138** Political Reservation and Women’s Empowerment: Evidence from Local Governments in Rural India  
*Fang Xia and Songqin Jin, Michigan State University; Klaus Deininger, World Bank; Hari Nagarajan, National Council of Applied Economic Research*

**M139** Resource Allocation and Farm Income in Southern Vietnam  
*Joshua R. Dewbre, American University*

**M140** Small Grains for Poverty Alleviation: Analyzing the Role of Fonio in Food Security in Mali  
*Jeremy Foltz, University of Wisconsin*

**M141** The Spillover Effects of the Global Financial Crisis on Latin America  
*Dwi Susanto, Flynn Adcock, C. Parr Rosson, Rafael Costa, and Shad Thevenaz, Texas A&M University*

**M142** Does the Use in ICT-based Market Information Services Improve the Welfare of Developing Country Smallholder Farmers’ Households? Evidence from Kenya  
*Julius J. Okello, University of Nairobi; Ruth M. Okello, Michigan State University*

**M143** Firm Strategy, Exports, and Foreign Direct Investment: An Examination of the Economic Performance of U.S. Manufacturing Firms  
*Pablo Antonio Garcia and P. Lynn Kennedy, Louisiana State University*

**M144** Natural Resource Dependence in Rural Mexico  
*Alejandro Lopez-Feldman, CID*

**M146** Improving Agricultural Irrigation on the Balkhab River, Afghanistan  
*Carson Jon Reeling, John Lee, Peter Mitchell, and Ghulam Hazrat Halimi, Purdue University*

**M147** Technical Efficiency in Bangladesh Rice Production: A Threshold Stochastic Frontier Approach  
*Kenji Adachi, University of Minnesota; Carlo del Ninno, World Bank; Donald Liu, University of Minnesota*

**M148** Structural Change in the Colombian Coffee Sector: 1990–2005  
*Mariana Saenz, University of Nebraska*

**M149** How Does Subsidizing Fertilizer Affect Income and Well-being? The Case of Malawi  
*Jacob Ricker-Gilbert and Thom Jayne, Michigan State University*

**M151** Malaria and National Income: Examining a Two Way Causal Relationship  
*Saurabh C. Datta and Jeffrey J. Reimer, Oregon State University*

**M155** Eliciting Nigerian Farmers’ Preferences on Specific Timing and Channel for Cereals and Legume Seeds Delivery—An Empirical Estimation of Willingness-to-Pay through Mixed Preference Models  
*Hiroyuki Takeshima and Sheu Salau, International Food Policy Research Institute; Latha Nagarajan, Rutgers University*

**M156** Consumer Willingness-to-Pay for Organic Food in Africa: The Case of Malawi  
*Zhifeng Gao and Fiskani Nkana, University of Florida*

**M157** Market Participation and Marketing Performance: A Case Study of Bolivian Potato Farmers  
*Catherine Larochelle and Jeffrey Alwang, Virginia Tech*

**M158** Impact of Risk and Time Preferences on Responses to Forest Tenure Land Reform: Empirical Evidence from Fujian, China
Karen A. Sullivan and Emi Uchida, University of Rhode Island; Jintao Xu, Peking University

**International Trade**

Monday, 3:00 pm–4:00 pm

M152 Impact of Market Access Reforms on the Canadian Dairy Industry
Anastasie Hacault, University of Manitoba; James Rude, University of Alberta; Jared Carlberg, University of Manitoba

T21 Disconnections in U.S. and EU Agricultural Trade Policy
Linda Young and Kathleen Hansen, Montana State University

T22 Impact of Efficient Refuge Policies for Bt Cotton in India on World Cotton Trade
Rohit Singla, Phillip Johnson, and Sukant Misra, Texas Tech University

T23 The Effect of Export Assistance Program Usage on Establishing Export Markets
Nathan Och and Gregory McKee, North Dakota State University

T24 The Effects of NAFTA and U.S. Farm Policies on Illegal Immigration and Agricultural Trade
Jeff Luckstead, Washington State University; Stephen Devadoss, University of Idaho

T25 How China’s Palm Oil Imports Impact Its Soybean and Soybean Oil Imports
Wei Chen, Shanghai University of Finance and Economics; Andrew Muhammad, USDA-Economic Research Service

T26 Implications of Immigration Policies for the U.S. Farm Sector and Workforce
Stephen Devadoss, University of Idaho; Jeff Luckstead, Washington State University

T28 Impacts of Free Trade Agreements on the Colombian Beef Sector
Miguel Gomez, Cornell University; Julieta Frank, University of Manitoba; Tatiana Parra, Universidad Javeriana

T29 Competition in Japanese Genetically Modified Soybean Import Market
Koichi Yamaura and Tian Xia, Kansas State University

T31 Trade Costs and the Gains from Trade in Crop Agriculture
Jeffrey J. Reimer and Man Li, Oregon State University

T32 Determinants of Bilateral Food Related Disputes
Christian Götz and Thomas Heckelei, University of Bonn

T33 U.S. Potential Biofuel Trade: A Worldwide Country-pair Analysis

Osei-Agyeman Yeboah, North Carolina A&T State University; Saleem Shaik, North Dakota State University; Obed Quaicoe, North Carolina A&T State University

T34 Nonlinear Models of Exchange Rate Pass-through in International Forest Product Markets
Gulcan Onel, North Carolina State University; Jeffrey Prestemon, U.S. Forest Service; Matthew Holt, University of Alabama; Barry Goodwin, North Carolina State University

T35 Potential Demand for a New Value-added Cowpea Product as Measured by the Willingness-to-Pay for Cowpea Flour in West Africa
Miriam Otoo and Joan Fulton, Purdue University; Germaine Ibro, Institut National de la Recherche Agronomique

T36 A Comparison of the Cost of Production of Sugarcane Ethanol in Brazil Relative to Corn Ethanol in the United States
Christine Lasco and Madhu Khanna, University of Illinois at Urbana-Champaign

**Natural Resource Economics**

Tuesday, 3:00 pm–4:00 pm

T37 Factors Influencing Consumer Likelihood of Purchasing a Flexible-fuel or Hybrid Automobile
Xiaogu Li, Christopher Clark, Kimberly Jensen, Burton English, and Steven Yen, University of Tennessee

T38 An Economic Analysis of Carbon Sequestration Potential and the Impact of Climate Change Legislation on Agriculture in the Northern Plains
Yong Jiang, Center for Agricultural Policy and Trade Studies

T39 Are Fishers Loss Averse? Evidence from the Gulf of Mexico Shrimp Fishery
Tao Ran, Walter Keithly, and Richard F. Kazmierczak Jr., Louisiana State University

T40 Measuring Foregone Direct Benefits of Irrigation Water Transfers: The Effect of Model Specification
Susanne Scheierling, World Bank; Robert A. Young, Colorado State University

T41 An Implementable Index of Sustainability
Juan P. Sesmero and Lilyan Fulginiti, University of Nebraska

T42 Assessing Responses of Global Crude Oil Production and Price to U.S. Ethanol Production: A Structural Vector Autoregression Approach
Lihong McPhail, Iowa State University

T43 Optimal Control of Brucellosis in Bison in the Yellowstone National Park Area
Fang Xie and Richard D. Horan, Michigan State University
T44  Optimal Nitrogen Applications of Swine Effluent, Beef Manure, and Anhydrous Ammonia: A Stochastic Dynamic Model of Irrigated Corn in the Oklahoma Panhandle
Seong Park, Texas AgriLife Research; Richard Woodward, Texas A&M University; Arthur Stoecker and Jeffory Hattey, Oklahoma State University;

T45  Land Use Implications of the Changes in Energy Prices
Lyubov Kurkalova and Stephen M. Randall, North Carolina A&T State University; Silvia Secchi, Southern Illinois University

T46  Is There Evidence That Legislative Ambition Matches Development? Evaluating the Factors Influencing Wind Energy Development
Ryan Blake Williams, Texas Tech University; H. Allen Klaiber, Pennsylvania State University; Eric J. Belasco, Texas Tech University

T47  Factors Influencing the Green House Gas Footprint of U.S. Dairy Farms
Jennie Popp, Greg Thoma, Rick Ulrich, Wayne Kellogg, Z. Clayton-Niederman, and Robert Pilgrim, University of Arkansas

T48  The Benefits and Costs of Alternative Policies for the Management of Pierce’s Disease: A Case Study of Pierce’s Disease and the Blue-Green Sharpshooter in the Napa Valley
Kate B. Fuller, Julian Alston, and James Sanchirico, University of California, Davis

T49  Biological, Technological, and Economic Relationships between Predator and Prey
David Roberts, North Dakota State University

T50  Evaluation of Best Management Practices under Net Cost Risk
Hector German Rodríguez, Jennie Popp, and Edward Gbur, University of Arkansas; Indrajeet Chaubey, Purdue University

T51  Agricultural Water Security and Instream Flows for Endangered Salmonids in Coastal California’s Watersheds
Mariano Mezzatesta and David Newburn, Texas A&M University; Nicholas Brozovic, University of Illinois at Urbana-Champaign

T52  Optimum Land Allocation for Species Protection and Military Training on DoD Installations
Sahan Dissanayake and Hayri Oral, University of Illinois at Urbana-Champaign; James D. Westervelt, ERDC-Construction Engineering Research Laboratory

T53  Forget the Hoe: Managing Invasive Plant Species with Dynamic Programming
Michael Verdone and W. Marshall Frasier, Colorado State University

T54  The Economic Impact of Drought on the Whitewater Rafting Industry in Colorado
Karina Schoengold and Prabhakar Shrestha, University of Nebraska

T55  A Dynamic Programming Model for Optimizing the Timing of Replacement of Sows
Jarkko K. Niemi, Marja-Lisa Sevón-Aimonen, Kirsi Partanen, and Kyosti Pietola, Agrifood Research Finland

T56  Agricultural Production Decisions and the Welfare Effects of Changes in the Level and Timing of Snowmelt in the Western United States
Kelly Cobourn and Sian Mooney, Boise State University

T57  Ammonia Emission BMP’s for Livestock Feeding: Identifying Benefits and Barriers to Adoption
James Pritchett, Carolyn H. Davidson, Stephen Koontz, and Jessica Davis, Colorado State University

T58  Economic and Environmental Impacts of Cellulosic Feedstock Production in Minnesota
Jin-Young Moon, Jeffrey Apland, David Mulla, and Solomon Folle, University of Minnesota

T59  Economic Potential for Intensively-managed, Lightweight Stocker Cattle Grazing
Job D. Springer, Ryan Reuter, James K. Rogers, and Jon T. Biermacher, Samuel Roberts Noble Foundation

T60  Estimating a Farm Group Model and Input Allocations Using Accountancy Data
Alexander Gocht, Johann Heinrich von Thünen-Institute; Thomas Heckelei, University of Bonn

T61  Estimating Impact of the Uruguay Round on the Rice Production in South Korea
Seong-Hoon Cho and Tun-Hsiang Yu, University of Tennessee; Yong-Taek Kim, Korea Rural Economic Institute

T62  Estimating the Impacts of Storage Dry Matter Losses on Switchgrass Production
James Larson, Daniel Mooney, Burton English, and Donald D. Tyler, University of Tennessee

T63  Farmers’ Willingness to Grow Cover Crops: Examining the Economic Factors of Adoption in Alabama
Jason Bergtold and Jason Fewell, Kansas State University; Patricia Duffy, Auburn University

T64  Induced-innovation and Invasive Species Management
C. S. Kim and Glenn Schaible, USDA-Economic Research Service; Jan Lewandrowski, USDA-Office of the Chief Economist
### AA EA POSTERS

**T67** Mitigating Land Use Changes from Biofuel Expansion: An Assessment of Biofuel Feedstock Yield Potential in APEC Economies  
Amani Elobeid, Iowa State University; Simla Tokgoz, International Food Policy Research Institute; Tun-Hsiang Yu, University of Tennessee

**T68** Saffron Supply Response: A Panel Data Approach  
M.A. Falahi, Sayed Saghaian, and Michael Reed, University of Kentucky

**T69** State of the ARMS Crop Production Practices  
Robert M. Ebel, USDA-Economic Research Service

### Productivity Analysis & Emerging Technologies

**Tuesday, 3:00 pm–4:00 pm**

**T70** Evaluating the Production and Price Impacts of Biotechnology Application in Crop Markets  
Graham Brookes, PG Economics; Tun-Hsiang Yu, University of Tennessee; Simla Tokgoz, International Food Policy Research Institute; Amani Elobeid, Iowa State University

**T71** Have Biotech Seeds Increased Maize Yields?  
Zheng Xu, David Hennessy, and GianCarlo Moschini, Iowa State University

**T72** Do Theoretical Restrictions Matter for the Translog Stochastic Production Function? Evidence from Kansas Farm Sector  
Amin Mugera, University of Western Australia; Michael Langemeier and Allen Featherstone, Kansas State University

**T73** Productivity Divergence across Kansas Farms  
Elizabeth Yeager and Michael Langemeier, Kansas State University

**T74** Intensive vs. Extensive Dairy Production Systems in the United States and the EU: Determining the Competitive Edge  
Johannes Sauer, University of Manchester; Richard Nehring, USDA-Economic Research Service; Jeffrey Gillespie, Louisiana State University; Donald Blayney, USDA-Economic Research Service; J. Stephen Clark, Nova Scotia Agricultural College; Charlie Hallahan, USDA-Economic Research Service

**T75** Is the Share of Agricultural Maintenance Research Rising?  
John Adam Sparger, Virginia Tech

**T76** Technological Change and Productivity Analysis in Nebraska  
Dereje B. Megeressa, University of Nebraska

**T77** Efficiency, Productivity Growth, and Competitiveness: A Note  
Oleg Nivievsykiy, Bernhard Brümmer, and Stephan von Cramon-Taubadel, Georg-August-Universität Göttingen

**T79** Efficiency of the Innovation Industry: The Food Industry in Canada  
Vahid Omidvar, University of Nebraska

**T80** The Distribution of Benefits from the Adoption of Bt Cotton in Pakistan: Ex-Ante Analysis  
Hina Nazli, Rakhal Sarker, and Karl Meilke, University of Guelph; David Orden, International Food Policy Research Institute

**T81** Agricultural Productivity Growth in the Caucasian Countries  
Marianna Khachataryan, University of Nebraska

**T82** Is There a Slowdown in Agricultural Productivity Growth in South America?  
Federico J. Trindade, University of Nebraska

**T83** GM vs. Non-GM: A Survival Analysis of Hybrid Seed Corn in the United States  
Xingliang Ma and Guanming Shi, University of Wisconsin

**T84** Agricultural Productivity and Climate Change in Sub-Saharan Africa  
Aziza Kibonge, University of Nebraska

### Research Methods, Econometrics, & Statistics

**Tuesday, 3:00 pm–4:00 pm**

**T85** Examining the Reliability of Logistic Regression Estimation Software  
Lijia Mo, Kansas State University

**T86** A Comparison of Methods for Imposing Curvature on the Normalized Quadratic Indirect Profit Function  
Allen Featherstone and Linda D. Burbidge, Kansas State University

**T87** Are Crop Yield Distributions Negatively Skewed? A Bayesian Examination  
Xiaodong Du, David Hennessy, and Cindy L. Yu, Iowa State University

**T88** Improving Forecast Performance with Reduced Parameter, Large Order AR Models  
Octavio Ramirez and Jeffrey Dorfman, University of Georgia

**T89** Is the NEPAD Comprehensive Africa Agriculture Development Programme (CAADP) Supported by Evidence of Agricultural Externalities?  
John Ulimwengu, International Food Policy Research Institute

**T90** Should Surveys Be Conducted Online or on Paper: A Comparison  
Wuyang Hu, University of Kentucky; Marvin Batte and Stanley Ernst, The Ohio State University; Timothy Woods, University of Kentucky

**T91** Technical Change vs. Efficiency Change: Performance of Food Industries Over Time  
Christophe Bontemps, Céline Nauges, Michel Simioni, and Vincent Requillart, Toulouse School of Economics

**T92** The Cost of Increasing Adoption of Beneficial Nutrient-management Practices  
Dayton Lambert, University of Tennessee; Michael Livingston, Richard Nehring, Ronald Sands, and Seth Wechsler, USDA-Economic Research Service

    Kurt Klein, Tatiana Cook, and Danny LeRoy, University of Lethbridge
Sunday, July 25, 2010
3:00 PM-4:30 PM

1001 Continuing the Tradition: Employing Tested and Emerging Economic Tools in Framing Sustainability Challenges for a Global Economy
Plaza Building, Concourse Level, Plaza Court 1
AEM Section and CWAIE Track Session
The two papers in this session contribute to celebrating the association’s scholarship and leadership in defining, analyzing, and providing solutions to complex socio-economic problems affecting the agri-food sector over the past century. They also identify emerging economic theories and tools that can enhance the association’s continuous facilitation of challenging problems involving multiple stakeholders engaged in complex and global challenges, such as climate change and sustainability.
Organizer: Vincent Amanor-Boadu, Kansas State University
Moderator: Conrad Lyford, Texas Tech University
Discussant: Gregory Baker, Santa Clara University; David Sparling, University of Western Ontario
Presentations:
The Search for Congruent Objectives in Multi-stakeholder Sustainability Initiatives
Vincent Amanor-Boadu, Kansas State University; R. Ross, Michigan State University
The Governance of Multi-stakeholder Initiatives: A New Institutional Economics Approach
Fabio Chaddad, Michael Sykuta, and Paula Moura, University of Missouri

1002 Jobs, the Rural Economy, and Economic Recovery
Plaza Building, Concourse Level, Plaza Court 2
CENET Track Session
We examine two interrelated issues: trends in the rural economy and labor markets, and the effects of specific public policies aimed at job creation and economic development. A description of trends in rural labor markets will place the current recession in the context of recessions since the 1980s. An analysis of the declining manufacturing industry, a large rural employer in the past, will indicate what future manufacturing may have in rural communities. Analyses of public policy interventions, specifically the Delta Regional Authority and the American Recovery and Reinvestment Act, will describe what economic conditions occur when these policies are implemented.
Organizer: Alexander W. Marre, USDA-Economic Research Service
Moderator: Daniel Monchuk, University of Southern Mississippi
Discussant: David Shideler, Oklahoma State University; Mark Partridge, The Ohio State University
Presentations:
Multi-sector Transition in Local Economies: A Regional Adjustment Model
Jason Brown, USDA-Economic Research Service; Dayton Lambert, University of Tennessee
Impacts of Regional Approaches to Rural Development: Initial Evidence on the Delta Regional Authority
John L. Pender and Richard Reeder, USDA-Economic Research Service
Spatial Variation and Labor Market Effects of the Recession and the American Recovery and Reinvestment Act
Alexander W. Marre and John L. Pender, USDA-Economic Research Service; Daniel Monchuk, University of Southern Mississippi

1003 Evaluation—Measuring the Impact of Food Safety and Nutrition Policy
Plaza Building, Concourse Level, Plaza Court 3
FSN Section Track Session
This session takes stock of what we “know” about what works in influencing food safety and nutrition and provides a forum to share information on what is being done on evaluation of new and existing policy initiatives. Participants from federal and state governments will share their experiences in program evaluation and discuss common themes in defining objectives and measuring outcomes. The role of economics in the process will be highlighted in the presentations.
Organizer: Victoria Salin, Texas A&M University
Moderator: Victoria Salin, Texas A&M University
Presentations:
GAO’s Approach to Evaluating Federal Programs in Food Safety
Lisa Shames, Alfredo Gomez and, David Bennett, U.S. Government Accountability Office
Evaluation of School Nutrition Policy
Philip Gleason, Mathematica Policy Research
Using a Balanced Scorecard to Evaluate a State Food Quality and Safety Program
Timothy Herman, Office of the Texas State Chemist; Peggy Wantwadi, Texas A&M University
Program Evaluation Components of the United Kingdom Food Standards Agency’s 5-Year Strategic Plan
Derrick Jones, U.K. Food Standards Agency

1004 Deep Water Horizon Oil Spill: Perspectives on Research and Extension Needs
Plaza Building, Concourse Level, Plaza Court 4
AAEA Organized Symposium
The magnitude of the Deep Water Horizon Oil Spill is yet to be determined, but the Cooperative Extension Service and departmental and Gulf States marine economists have mobilized to assist in understanding the disaster. Extension groups are offering business claims assistance and financial counseling, and resource economists are working on various aspects of the problem. Large damages are expected for commercial seafood and fishery, recreational fishing, coastal households, parish governments, schools, businesses, and tourism. Presenters will introduce the audience to current issues in research and extension, and provide a perspective from past research experiences.
Organizer: Ron Mittelhammer, Washington State University; Lisa House, University of Florida
Moderator: Gail Cramer, Louisiana State University
Presentations:
Introduction: Overview of the Catastrophe
Gail Cramer, Louisiana State University
Research Needs and Disaster Resiliency, Impacts on Local Communities
J. Matthew Fannin, Louisiana State University
Extension Needs and a Marine Economist’s Perspective
Charles Adams, University of Florida
Lessons Learned from Research on the Valdez Oil Spill
Alan Randall, The Ohio State University
Senior Section Track Session/CAES Organized Symposium

The original NAFTA agreement is now fully implemented. However, a number of issues remain that require special attention if the free trade objectives of NAFTA are to be realized. The purpose of this organized symposium is to provide a three-country perspective on three key issues: 1) bioenergy and climate change policy; 2) sanitary and phytosanitary issues; and 3) NAFTA’s structural issues. Each of the issues will be introduced by an economist from Canada, Mexico, or the United States. Following this introduction, reactions will be given by an economist from each of the other countries.

Organizer: Ronald Knutson, Texas A&M University; Karl Meilke, University of Guelph
Moderator: Ronald Knutson, Texas A&M University
Discussant: Pablo Sherwell, SAGARPA; Glenn Fox, University of Guelph; Mechel Paggi, California State University, Fresno; Ronald Knutson, Texas A&M University; Karl Meilke, University of Guelph

Presentations:
An Overview of U.S. Bioenergy and Climate Change Policy
Joe Outlaw, Texas A&M University
An Overview of the Remaining Sanitary and Phytosanitary Issues
Jared Carlberg, University of Manitoba
Resolving NAFTA’s Structural Issues
Steven Zahniser, USDA-Economic Research Service

Extension Section and Senior Section Track Session

In the early years, state farm management specialists and county extension agents were assisted by the USDA in delivering outlook information to farmers. Later, other land grant extension specialists became involved including those in policy and marketing. Reasons for the program’s success and implications for the future will be explored. An assessment will be made of the 32-year history of the Extension Section’s Annual Outlook Survey providing empirical information for risk management. In support of the outlook program, there will be a review of the history of farm management research.

Moderator: James Hilker, Michigan State University

Presentations:
History of the USDA/Land Grant Extension Outlook Program
Jake Ferris, Michigan State University
Evaluation of 32 Years of Extension Section’s Annual Outlook Survey
Ronald Plain, University of Missouri
Current Issues and Prospects for the Outlook Program
James Hilker, Michigan State University
History of Farm Management Research
Jean-Paul Chavas, University of Wisconsin

AAEA Organized Symposium

Agricultural and applied economists have made significant contributions to the development of economic statistics over the past century, which have been used in economic research, policy making, and implementing government programs. The first paper highlights some of the most important contributions during the last century, and describes future areas where applied economists can be expected to contribute. The second presents statistical profile of the academic side of the agricultural economics profession indicating how the profession is configured at present, how AAEA membership has changed over the last 10-15 years, and demographic projections of academic employment over the next five–ten years.

Moderator: Thomas Marsh, Washington State University

Presentations:
Economic Statistics for Agriculture and Rural Areas: Building On a Century of Progress
Mary Ahearn, USDA-Economic Research Service
Agricultural Economics: A Profile and Projections for the Future
Gregory Perry, Oregon State University

EAAE Organized Symposium

Three papers will be presented in this symposium to set the stage for the discussion and for providing insights into new research questions and methods for analyzing the issues raised above. The first paper highlights risk exposure issues. The second paper builds on this and stresses the impact of climate change. The third paper focuses on risk management from a policy perspective. The discussion is going to be stimulated by Barry Barnett. Monika Hartmann, the president of the EAAE, will moderate the session.

Moderator: Monika Hartmann, University of Bonn
Discussant: Barry Barnett, Mississippi State University

Presentations:
Changing Risk Exposure in EU Agriculture
Miranda PM Meuwissen, Wageningen University
Insurance and Climate Change within the EU and the CAP
Maria Bielza, Universidad Politecnica de Madrid
Risk Management in European Agriculture
Carina Folkeson, General for Agriculture and Rural Development European Commission
AAEA Organized Symposium

China, a fast-growing and already large economy with an aging and urbanizing population, is a critically important player in world agricultural commodity markets. Analysis of Chinese or even world markets depend on our understanding of its food demand, but the applicability of past studies conducted using old data to current or future problems might be jeopardized by rapid changes in income and demographics. Preliminary research assesses the usefulness of historical studies of Chinese demand taking these factors into account. Our session is relevant for analysis of agricultural markets and policies of China and for understanding global commodity markets.

Organizer: Wyatt Thompson, University of Missouri
Moderator: Wyatt Thompson, University of Missouri

Presentations:
- Trends in Chinese Food Demand
  Fred Gale, USDA-Economic Research Service
- Evolution of China’s Demands with Rising Income and Changing Demographics
  David Aber, Pennsylvania State University
- Towards a Demand Function Incorporating Population Structure
  Funing Zhong, Nanjing Agricultural University
- Engel Analysis of Food Demand in China
  Kuo Huang, USDA-Economic Research Service

AAEA Invited Paper Session

This session contributes to emerging aspects of the barriers-to-trade debate that have not been previously addressed in the agricultural economics literature. Specifically, speakers will address four policy questions related to food import alerts and refusals:

1) Evidence: How does the FDA monitor and oversee regulatory concerns (e.g. food safety) of imported agri-food products? How frequently do import alerts and refusals occur in the data? 2) Quantification: How can we quantify the impact of food import refusals on international trade patterns? and 3) Trade Patterns: How and to what extent do import refusals in the United States and EU “deflect” trade to third country markets?

Organizer: Sven Anders, University of Alberta
Moderator: Julie Caswell, University of Massachusetts Amherst
Discussant: David Orden, International Food Policy Research Institute

Presentations:
- Does off-Farm Income Influence Farmland Values? Spatial Quantile Analysis
  Ashok Mishra, Louisiana State University; Saleem Shaik, North Dakota State University; Charles Moss, University of Florida
- The Implicit Value of Irrigation through Parcel Level Hedonic Price Modeling
  Steven Shultz, University of Nebraska at Omaha
- The Effects of Scenic and Environmental Amenities on Agricultural Land Values
  Don McLeod, University of Wyoming

ARA Section and Econometrics Section Track Session

The session will explain copulas and their potential use in agricultural economics research. Copulas provide a theoretically based way to model dependence among multiple random variables with marginal densities of general form. The target audience of the session is anyone who wants to learn about copulas.

Organizer: B. Wade Brorsen, Oklahoma State University; Dmitry Vedenov, Texas A&M University
Moderator: Gabriel Power, Texas A&M University

Presentations:
- Introduction to Copulas
  B. Wade Brorsen, Oklahoma State University
- Practical Aspects of Working with Copulas: Modeling, Estimation, and Programming
  Dmitry Vedenov, Texas A&M University
- Modeling Dependence Using Copulas: Applications to Insurance
  Barry Goodwin, North Carolina State University
1013 Applied Economic Perspectives and Policy: Lessons Learned in the First Year and a Forecast for the Future
Christopher B. Barrett, Cornell University
Development Economics: Some Non-Random Reflections

AAEA Organized Symposium
AAEA is giving attendees an update on and review of AAEA’s new journal Applied Economic Perspectives and Policy (AEPP) in this session. This session was created specifically for those interested in publishing in the new journal and will give members the opportunity to interact with a representative from Oxford University Press, as well as the editors of AEPP.

Discussant: Jason Shogren, University of Wyoming

Presentations:
Overview of the First Year and a Forecast for the Future: Applied Economic Perspectives and Policy
Spiro Stefanou, Pennsylvania State University
Review of AEPP Submitted Articles
Tomislav Vukina, North Carolina State University
Review of AEPP Featured Articles
Ian Sheldon, The Ohio State University
Featured Article Presentation: Power and Pitfalls of Experiments in Development Economics: Some Non-Random Reflections
Christopher B. Barrett, Cornell University

1014 Chinese Agricultural Commodity Price and Demand, and Their Implications to Trade with United States
China Section Track Session
China is an emerging market for U.S. agricultural commodities. This market is growing fast in oil and protein types of food and feed. The United States has been a net supplier of soybeans, pork, and dairy products in Chinese market. Chinese consumer preference and price are important factors that affect the size of U.S. exports. This session will have four papers, all of which are focused on demand, price, and trade issues of commodities that the United States has a comparative advantage in producing.

Moderator: Hong Wang, Purdue University
Discussant: Wuyang Hu, University of Kentucky; James Hansen, USDA-Economic Research Service; Mary Marchant, Virginia Tech

Presentations:
Willingness-to-Pay for Traceable Pork, Milk, and Edible Oil in Nanjing, China
Thomas Wahl, North Dakota State University
Measuring Heterogeneity in Consumer Preferences for Select Food Safety Attributes in China
Hong Wang, Purdue University
China’s Soybean Imports—Price Impacts Using a Production System Approach
Wei Chen, Shanghai University of Finance and Economics
Decomposing Trade: The Case of China in Global Markets
Francis Tuan, USDA-Economic Research Service

Monday, July 26, 2010
10:15 AM-11:45 AM

2001 Healthy Food or Healthy People? How Do Food and Nutrition Assistance Programs Contribute to the Health of Low Income Americans?
FSN Section Track Session
The connection between food and nutrition assistance programs and the health characteristics of participants will be highlighted in this session. There are two pathways to consider between these programs and health, both of which the session addresses. First, individuals with poor health status and different levels of health knowledge may be more likely to select into food assistance programs. Second, participation in the program may confer health benefits (or health costs) on the participants.

Organizer: Chad Meyerhoefer, Lehigh University

Presentations:
Nutritional Labeling Usage and Nutrition Intake Portfolio of Participants in Supplemental Nutrition Assistance (SNAP)
Wen You and Ge Zhang, Virginia Tech
Do Food Stamps Contribute to Obesity in Low-income Women?
Maoyong Fan, Ball State University
Partially Identifying the Effect of the Free School Lunch Program on Child Health Using the Monotone Instrumental Variable Assumption
Craig Gundersen, University of Illinois at Urbana-Champaign; John Pepper, University of Virginia; Brent Kreider, Iowa State University
The Effect of Chronic Illness on Participation in the Supplemental Nutrition Assistance and Medicaid Programs
Chad Meyerhoefer and Yuriy Pylypchuk, Lehigh University

2002 U.S. Agricultural Trade
AAEA Selected Paper Session
The four presentations in this session focus on different issues related to U.S. agricultural trade. The first presentation investigates how regional trade agreements have affected U.S. trade flows. In the second presentation, the authors analyze the trade and welfare implications of expanding quotas and reducing over-quota tariff rates applicable on U.S. raw sugar cane imports. Then, the third presentation investigates empirically the political economy of restrictions imposed by the U.S. on the imports of Canadian softwood. The last presentation examines the effects of exchange rate fluctuations on U.S. agricultural exports and imports.

Moderator: William Amponsah, Georgia Southern University

Presentations:
The New Wave of Regionalism: Does Outsider Status Affect the Competitiveness of U.S. Agricultural Exports?
Jason Grant, Virginia Tech; Thomas Vollrath, USDA-Economic Research Service
Trade Liberalization in the Context of TRQs: An Application to the U.S. Raw Sugar Sector
Birgit Meade, USDA-Economic Research Service; Jason Grant, Virginia Tech; Anita Regmi, USDA-Economic Research Service
Political Pressure: An Examination of U.S. Senators in Restricting Canadian Softwood Lumber Imports
Joseph Godwin and Daowei Zhang, Auburn University
How Sensitive Is U.S. Agricultural Trade to the Bilateral Exchange Rate? Evidence from Bulk and Consumer-oriented Products
Jungho Baek, University of Alaska; Won Koo, North Dakota State University
**2003**

**Senior Section Track Session**

This session is based on the lead article that appeared in the Special Centennial Issue of the *AJAE*. The session will describe how the research agenda of agricultural and applied economists changed over the past century and note the major factors that lead to the increasing breadth and depth of the research agenda over time. The final section of the presentation describes a broad set of economic, social and public policy issues arising from some of the current conditions facing society that will provide major challenges for agricultural and applied economists for many years to come.

**Organizer:** Vernon Eidman, University of Minnesota  
**Moderator:** Vernon Eidman, University of Minnesota  
**Discussant:** Sandra Batie, Michigan State University; Kenneth Farrell, University of California

**Presentations:**

- The Major Factors Influencing the Research Agenda for the Past Century  
  Alex McCalla, University of California, Davis
- What Does the Past and Present Research Agenda Suggest for the Future?  
  Emery Castle, Oregon State University

---

**2004**

**IBES Track Session**

Transaction costs are not usually included in policy evaluation. Incorporating them may change the optimal amount of pollution control, the optimal resource allocation, or the choice of policy instrument. This may be especially true for nonpoint source pollution. To be included in policy evaluation, these costs must be measured. Presenters will discuss their experiences with primary data collection to estimate the transaction costs associated with environmental water transfers, agric-environmental schemes in the EU, and carbon credit trading. Presentations will focus on the advantages and disadvantages of their methods, insights obtained through transaction cost measurement, and selected results.

**Organizer:** Laura McCann, University of Missouri  
**Moderator:** Laura McCann, University of Missouri

**Presentations:**

  Dustin Garrick, University of Arizona; Bruce Aylward, Ecosystem Economics, LLC
- Measuring Private and Public Transaction Costs Involved in the Design and Implementation of Agri-environmental Schemes in the EU  
  Evy Mettepenningen and Guido Van Huylenbroeck, Ghent University
- Measuring Transaction Costs and Land-based Climate Change Mitigation Policy in Developing Countries  
  Daniel V. Ortega and Andrew Keeler, The Ohio State University

---

**2005**

**Farm Diversification and Farm Management**

**AAEA Selected Paper Session**

The papers in this session analyze farm diversification between farm and non-farm income and assets, diversification of farm production risks, and technology adoption.

**Moderator:** Ashok Mishra, Louisiana State University

**Presentations:**

- Can Education Be a Barrier to Technology Adoption?  
  Hiroki Uematsu and Ashok Mishra, Louisiana State University
- Determinants of Farm Household Income Diversification in the United States: Evidence from Farm-level Data  
  Ashok Mishra, Louisiana State University; Kenneth Erickson and Charlie Hallahan, USDA-Economic Research Service; Hiroki Uematsu, Louisiana State University
- Multi-period Diversification of Farm Production Risks: A Stochastic Programming Approach  
  Ryan Larsen, David Leatham, and Dmitry Vedenov, Texas A&M University
- Off-farm Income and Risky Investments in Farm and Non-farm Assets: A Double-hurdle Approach  
  James Harris, USDA-Economic Research Service; Steven Blank, University of California, Davis; Kenneth Erickson and Charlie Hallahan, USDA-Economic Research Service

---

**2006**

**Vertical Relationships, Contracts, and Business Growth**

**AAEA Selected Paper Session**

Contracts and vertical relationships play major roles in the production, processing and distribution of agricultural commodities. This session focuses on these factors for fed cattle and hogs and also examines the problems of market failure and the impact of carbon emissions on agribusiness firms.

**Moderator:** Michael Boland, Kansas State University

**Presentations:**

- Production Contracts and Farm Business Growth and Survival  
  Nigel Key, USDA-Economic Research Service
- Evaluation of CO2 Emissions by Kansas Agribusiness Retailers  
  Dominga E. Canales Medina and Michael Boland, Kansas State University
- Traceability in the U.S. Food Supply: An Application of Transaction Cost Analysis  
  Chao-Shih Wang and Jesus Bravo, Arizona State University
Moderator: Brian E. Roe, The Ohio State University

Presentations:
- Obesity and Hyperbolic Discounting: An Experimental Analysis
  Timothy Richards, Arizona State University; Stephen Hamilton, California Polytechnic State University, San Luis Obispo; Geoffrey Pofahl, Arizona State University

Consumer Willingness to Search in the Gasoline Retail Market: Explaining Asymmetric Search
Carolina Castilla and Timothy Haab, The Ohio State University

Is Agricultural Policy Decoupling against Human Nature?
Mariah D. Ehmkle, Amy M. Nagler, Dale Menkhaus, and Christopher Bastian, University of Wyoming; Edwin Young, USDA-Economic Research Service

Bivariate Ordered Probit Analysis of Public Attitudes toward Multifunctional Agriculture in the United States
Wanki Moon, Southern Illinois University; Jae Bong Chang, Oklahoma State University

Comparison of Valuation Methods in Resource Management
Plaza Building, Concourse Level, Plaza Court 8

AAEA Selected Paper Session

This session addresses contemporary valuation methods. By adopting a comparative perspective, the papers in this session speak to the advantages and disadvantages of alternative valuation methods. Collectively, the papers examine a range of goods and services, offering an interesting foundation for broader discussions of valuation methods in resource management.

Moderator: Gregory Poe, Cornell University

Presentations:
- Comparison of Approaches to Estimating Demand for Payment for Environmental Services
  Monthien Satimamon and Frank Lupi, Michigan State University

A Comparison of Methodologies for Valuing a Reduction in Health Effects from Wildfire Smoke
Leslie A. Richardson and John B. Loomis, Colorado State University; Patricia Champ, U.S. Forest Service

Estimating the Value of Groundwater in Irrigation
Shahnila Islam and Nicholas Brozovic, University of Illinois at Urbana-Champaign

Advances in Nonmarket Valuation
Plaza Building, Concourse Level, Governor’s Square 9

AERE Session

Considers both conceptual and empirical topics of concern in the area of nonmarket valuation. Fundamental issues are considered regarding the choice of functional-form specification and the treatment of preference uncertainty. Papers also investigate the use of sales versus appraised land values for hedonic estimates of farmland and alternative ways of presenting ecological information in stated-preference surveys.

Moderator: Joseph Herriges, Iowa State University

Discussant: Babatunde Abidoye, Iowa State University; Robert Johnston, Clark University; Subhra Bhattacharjee, Iowa State University

Presentations:
- Model Uncertainty and Recreation Demand
  Babatunde Abidoye and Joseph Herriges, Iowa State University

Capturing Preference Uncertainty Using Elicited Choice Probabilities
Subhra Bhattacharjee, Joseph Herriges, and Catherine King, Iowa State University

Hedonic Valuation of Farmland Using Sale Prices vs. Appraised Values
Shan Ma and Scott Swinton, Michigan State University

Indices of Biotic Integrity in Stated Preference Valuation of Aquatic Ecosystem Services
Robert Johnston and Eric Schultz, Clark University; Kathleen Segerson and Elena Besedin, University of Connecticut

Climate Change and Agriculture
Plaza Building, Concourse Level, Governor’s Square 10

IAAE and IFPRI Organized Symposium

Climate change will have fundamental impact on global agriculture and food security. Agriculture is not only part of the problem as agriculture and deforestation accounts for more than one-third of greenhouse gas emissions, but it could also be part of the solution. This symposium will bring scholars who have worked on the subject to debate how to design policies, strategies, and investment plans to adapt agriculture to the climate change and to use agriculture to mitigate the effect.

Moderator: Keijiro Otsuka, National Graduate Institute for Policy Studies

Discussant: Shenggen Fan, International Food Policy Research Institute

Presentations:
- Climate Change and Agriculture: Global Impacts and Costs of Adaptation
  Gerald Nelson, International Food Policy Research Institute

Climate Change and Development Strategy in Africa
Channing Arndt, University of Copenhagen

Climate Change, Water and Agriculture in China
Jikun Huang, Center for Chinese Agricultural Policy
Panelists will discuss vertical aspects of vertical coordination in the evolving high quality U.S. beef industry. Focus will include cow herd production management and genetics, calf market price incentives, costs of producing high quality beef, and retail marketing of high quality beef and premium brands. Together this complete vertical supply chain discussion will provide a comprehensive assessment of how the U.S. beef industry can compete in the competitive global protein complex.

Organizer: Julie A. Hogeland, USDA-Rural Development
Moderator: Julie A. Hogeland, USDA-Rural Development

Presentations:
- Comparison of Efforts to Establish Local and Regional Food Systems
- Dawn Thilmany McFadden, Colorado State University
- Developing Marketing Strategies and Knowledge for Hispanic Farmers in the Upper Midwest
- Lourdes Martinez and Suzanne Thornsbury, Michigan State University
- What Makes Collective Marketing Successful in Local Food Systems
- Jennifer Keeling-Bond, Colorado State University

AAEA Invited Paper Session

This session is designed to highlight developments in state of the art experimental methodologies for consumer value elicitation with an overarching focus on empirical tests of the correspondence between theoretical incentive compatibility properties and actual consumer behavior in experiments. In addition to presenting new evidence on the relationship between experimental design, consumer behavior, and valuation biases, session attendees will be provided information in three primary regards: 1) new approaches to eliciting consumers’ homegrown values; 2) previously unaddressed biases that consequentially affect the level and interpretation of value estimates, and 3) recommendations for “best practices” in future empirical studies.

Organizer: Gregory Colson, University of Georgia
Moderator: Rodolfo M. Nayga Jr., University of Arkansas
Discussant: Jay Corrigan, Kenyon College; Matthew Rousu, Susquehanna University

Presentations:
- Are Experimental Auctions Demand Revealing When Goods Have Both Private and Common Value?
- Jay Corrigan, Kenyon College; Matthew Rousu, Susquehanna University
- The Role of Training in Experimental Auctions
- Andreas C. Drichoutis, University of Ioannina; Rodolfo M. Nayga Jr., University of Arkansas; Panagiotis Lazaridis, Agricultural University of Athens
- Social Desirability in Traditional and Inferred Valuation Experiments
- Jayson Lusk, Oklahoma State University
AEM Section Track Session
This session will focus on “Agribusiness Economics and Management,” one of the articles that appeared in the Special Centennial Issue of the *AJAE*. Using an informal panel format without a moderator, the paper’s authors will ask each other about nine significant areas of contribution to agribusiness scholarship by members of our profession. The discussion will emphasize what the authors learned in preparing the paper and what that learning means for agribusiness scholars and scholarship. A significant portion of the session will be reserved for questions and comments from the audience.

Panelist: Michael Boehlje, Purdue University; Michael Cook, University of Missouri; Steven Sonka, University of Illinois at Urbana-Champaign
Discussant: Robert P. King, University of Minnesota

COSBAE and FAMPS Track Session
International markets for agricultural products are often subject to a range of trade barriers, and horticultural products are no exception. Outside of WTO research regarding U.S. apples non-tariff barriers, there has been little empirical work examining the effects of horticultural trade policies. Understanding the implications of sanitary and phytosanitary (SPS) trade barriers applied to horticultural markets is an area that remains understudied yet important given the volume of horticultural products traded internationally. This session focuses on the economic implications of horticultural trade barriers, SPS issues/measures applied to horticultural products, and explores new techniques for evaluating the impacts of SPS regulations.

Organizer: Bradley Rickard, Cornell University
Moderator: Blondel A. Brinkman, USDA-Animal and Plant Health Inspection Service

Presentations:
Policy Issues for Horticultural Product Markets: Where We Were, Where We Are Now, and What Is Ahead
Mechel Paggi, California State University, Fresno
Are SPS Always Barriers to Trade? The Interaction Effect between Increased Consumer Confidence and Increased Costs
Lan Liu, University of Minnesota
Revenue and Welfare Effects of Sanitary and Phytosanitary Barriers to Trade on Apples
Lia Nogueira, University of Illinois at Urbana-Champaign
The Impact of Tariffs and Phytosanitary Barriers on International Trade Patterns of Fresh Fruit Products
Bradley Rickard, Cornell University

Biofuel Policy
AAEA Selected Paper Session
Biofuel policy has important implications for food and energy markets and land use. This session examines the welfare and market impacts of biofuel policy domestically and internationally.

Moderator: Harry de Gorter, Cornell University

Presentations:
Meeting the Mandate for Biofuels: Implications for Land Use and Food and Fuel Prices
Xiaoguang Chen, Haixiao Huang, Madhu Khanna, and Hayri Onal, University of Illinois at Urbana-Champaign
Welfare Impacts of Alternative Biofuel and Energy Policies
Jingbo Cui, Harvey Lapan, and GianCarlo Moschini, Iowa State University; Joseph Cooper, USDA-Economic Research Service
The French Biodiesel Production: An Assessment of the Impacts and Interaction Effects of Policy Instruments
Virginie Doumax, Paul Cezanne University
Dileep K. Birur and Robert H. Beach, RTI International; Thomas W. Hertel, Purdue University; Bruce McCarl, Texas A&M University
**2019 Rural Development Policy Session**  
_Tower Building, Mezzanine Level, Colorado Room_

**AAEA Selected Paper Session**  
Program evaluation is extremely important as many rural administrations face the stresses of the current economic downturn with the expectation of maintaining current public service levels. The papers in this session provide research advances on defining and evaluating rural development policies.

**Moderator:** Steven Deller, University of Wisconsin  

**Presentations:**  
- Impacts of Regional Approaches to Rural Development: Initial Evidence on the Delta Regional Authority  
  John L. Pender and Richard Reeder, USDA-Economic Research Service  
- Service Delivery in Rural Municipalities: Privatize, Cooperate, or Go It Alone?  
  John Halstead, University of New Hampshire; Steven Deller, University of Wisconsin; Robert Mohr, University of New Hampshire  
- Analyzing Differences in Rural Hospital Efficiency: A Data Envelopment Analysis Approach  
  I. Cristian Nedelea, J. Matthew Fannin, and James Barnes, Louisiana State University

---

**2020 Crop Insurance**  
_Tower Building, Mezzanine Level, Denver Room_

**AAEA Selected Paper Session**  
This session includes analysis of demand for insurance, acreage response to insurance, and producer welfare benefits. It also provides new data on insurance agents. This session should be of particular interest to members of the Applied Risk Analysis Section.

**Moderator:** Craig M. Smith, Kansas State University  

**Presentations:**  
- Demand for Crop Insurance by Organic Corn and Soybean Farmers in Three Major Producing States  
  Ariel Singerman, Chad Hart, and Sergio Lence, Iowa State University  
- U.S. Cotton Acreage Response Due to Subsidized Crop Insurance  
  Russell Transtad, University of Arizona; Romilee Bool, International Rice Research Institute  
- Yield Guarantee Determination and the Producer Welfare Benefits of Crop Insurance  
  Shyam Adhikari, Thomas Knight, and Eric J. Belasco, Texas Tech University  
- Insurance Contracts and the Role of the Selling Agent: Empirical Evidence from Federal Crop Insurance  
  Hayley Chouinard, Washington State University; Cory Walters, University of Kentucky; Philip Wandschneider, Washington State University

---

**2021 Agricultural Productivity, Technology Adoption, and Markets**  
_Tower Building, Mezzanine Level, Gold Room_

**AAEA Selected Paper Session**  
Since productivity and efficiency gains are the ultimate source of economic growth, technology adoption has long been a central theme in development economics. With agri-food markets becoming more integrated and dynamic in developing countries, rural producers often have new options for how they market what they produce, and the choice of marketing channel has itself become a technology adoption decision. This session includes papers that assess the impacts and dynamics of technology adoption at both the production and marketing stages.

**Moderator:** Travis Lybbert, University of California, Davis

**Presentations:**  
- Looking Beyond the Plot: The Nutritional Impact of Fertilizer Policy  
  Paulo Santos and Marissa Ward, University of Sydney  
- Hazard Model Use in Agricultural Technology Adoption and Abandonment: An Application to Rice in Madagascar  
  J. S. Butler, University of Kentucky; Christine Moser, Western Michigan University  
- Farmer Participation in Supermarket Channels, Production Technology, and Technical Efficiency: The Case of Vegetables in Kenya  
  Elizaphan J. O. Rao, Bernhard Brümmer, and Matin Qaim, Georg-August-Universität Göttingen  
- Using Best-Worst Scaling to Determine Market Channel Choice by Small Farmers in Indonesia  
  Wendy J. Umerberger and Randy Stringer, University of Adelaide; Simone C. Mueller, University of South Australia

---

**2022 Washington Policy Update by Chief Economists from the House and Senate Agriculture Committees and the USDA-Farm Service Agency**  
_Tower Building, Mezzanine Level, Silver Room_

**Extension Section Track Session**  
Congress and the Obama Administration deal with a broad range of policy issues-from long-standing, agriculture-specific issues such as commodity, conservation, and trade programs, to newer, cross-cutting issues such as energy and climate change. The presenters will provide their perspectives on policy issues affecting agriculture based on their work for congress and the administration. They also will seek comments and insights on issues from session attendees.

**Organizer:** Steven Klose, Texas A&M University  
**Moderator:** Steven Klose, Texas A&M University

**Presentations:**  
- The House Majority Perspective  
  Craig Jagger, House Agriculture Committee  
- The Senate Majority Perspective  
  Stephanie Mercier, Senate Agriculture Committee  
- The Senate Minority Perspective  
  Hayden Milberg, Senate Agriculture Committee  
- The USDA-FSA Perspective  
  Joy Harwood, USDA-Farm Service Agency
**2023**  
**Demand for Fruits and Fresh Vegetables**  
*Tower Building, Mezzanine Level, Spruce Room*

**AAEA Selected Paper Session**  
This session includes four studies on demand for fruits and fresh vegetables.  
**Moderator:** Peyton Ferrier, USDA-Economic Research Service  
**Presentations:**  
- Do Consumers Pay for Being Healthy Conscious?—An Analysis of Price Discrimination on Healthier Food Product  
  *Congnan Zhan, North Carolina State University*  
- De Gustibus Asparagus: Availability, Habits, and Welfare from Vegetable Imports  
  *Peyton Ferrier, USDA-Economic Research Service; Chen Zhen, RTI International*  
- Consumers Apple Variety Choices Based on National Household-level Data  
  *Qiujie Zheng, Vicki McCracken, and Mykel Taylor, Washington State University*  
- A Source-differentiated Analysis of Tropical Fresh Fruit Imports  
  *Kilungu Nzaku, Jack E. Houston Jr., and Esendugue Greg Fonsah, University of Georgia*

**2024**  
**Efficiency, Ethanol, and Trade-offs between Energy and Environmental Goods**  
*Tower Building, Terrace Level, Terrace Room*

**AAEA Selected Paper Session**  
The papers in this session analyze the economics and efficiency of ethanol production and the trade-off between energy use or energy production and environmental goods.  
**Moderator:** Juan P. Sesmero, University of Nebraska  
**Presentations:**  
- Economic and Marketing Efficiencies among Corn Ethanol Plants  
  *Juan P. Sesmero, Richard Perrin, and Lilyan Fulginiti, University of Nebraska*  
- Switchgrass to Ethanol: A Field to Fuel Approach  
  *Francis M. Epplin and Mohua Haque, Oklahoma State University*  
- Environmental Bonding for Land Reclamation  
  *Matthew Andersen, Yoshiyuki Igarashi, and Roger Coupal, University of Wyoming*  
  *Zhengfei Guan, Michigan State University*

**2025**  
**Managing Risk through Livestock Disease Policy**  
*Tower Building, Terrace Level, Capitol Room*

**ARA Section Track Session**  
Disease prevention and control is largely a risk management exercise. Farmers are concerned with minimizing risk of disease and associated losses while policy makers wish to prevent or stamp out disease. Current economic incentives associated with disease prevention and disease control work at cross-purposes. Compensation policy to ensure rapid detection and reporting of livestock diseases negatively impact disease prevention by suppressing investments in disease biosecurity measures.  
**Organizer:** Benjamin Gramig, Purdue University; Stephen Ott, USDA-Animal and Plant Health Inspection Service  
**Moderator:** Diana Mitchell, USDA-Animal and Plant Health Inspection Service  
**Presentations:**  
- Overview of APHIS Livestock Compensation Policy  
  *Stephen Ott, USDA-Animal and Plant Health Inspection Service*  
- Government Indemnification and Livestock Disease Risk: A Focus on Industry Integration  
  *Andrew Muhammad, USDA-Economic Research Service*  
- Implementing Incentive Appropriate Livestock Disease Indemnity Payments  
  *Christopher A. Wolf, Michigan State University*

**2026**  
**Agricultural Finance and Farm Management**  
*Tower Building, Second Level, Tower Court A*

**CAES Selected Presentation Session**  
This session theoretically and empirically explores how farmers manage agricultural production and association risk.  
**Moderator:** Calum Turvey, Cornell University  
**Presentations:**  
- Dynamic Optimization of Area Revenue Insurance and Consumption Smoothing  
  *Shanshan Lin, Jeffrey D. Mullen, and Michael Wetzstein, University of Georgia*  
- Farm Managers’ Adoption of Management Tactics and Their Self-perceived Management Skills: Survey Results from New York Agribusinesses  
  *Pei Xu, Morrisville State College*  
- The Effect of Dried Distillers Grains with Solubles on Swine Ration Choice and Environmental Quality  
  *Stewart R. Skinner, Alfons Weersink, and Kees de Lange, University of Guelph*  
- An Empirical Test of Cattle Production Alternatives in Ontario  
  *Anatoliy Oginsky and Al Mussell, George Morris Centre*
**2027** Nonmarket Valuation of Ecological Goods and Food Attributes  
*CAES Selected Presentation Session*  
This session uses nonmarket valuation approaches to assess the value of ecological goods and food attributes.  
**Moderator:** Ellen Goddard, University of Alberta  
**Presentations:**  
- Value Determination of Ecological Goods and Consequentiality in Choice Experiments  
  *Maurice Doyon and Frederic Roy-Vigneault, Université Laval; Daniel Rondeau, University of Victoria; Christian Vossler, University of Tennessee*  
- Values of Ecological Goods and Services for Policy Development in Saskatchewan  
  *Vitor Dias and Ken Belcher, University of Saskatchewan*  
- Consumer Valuation of Food Attributes: A Comparison of Willingness-to-Pay Estimates from Choice Modeling and Contingency Valuation Methods  
  *René Roy and Paul J. Thomassín, McGill University*  
- Comparing Alternative Approaches to Explaining Consumer Willingness-to-Pay Preferences for Specialty Eggs Using Consumer Attitudinal Data  
  *Jing Zhang, University of Saskatchewan; Ellen Goddard, University of Alberta*

**2028** Food Safety  
*CAES Selected Presentation Session*  
This session examines how consumers and firms respond to food safety issues.  
**Moderator:** Gale E. West, Université Laval  
**Presentations:**  
- Measuring the Impact of Food Safety Recalls on Firms: An Event Study Analysis of the 2008 Listeriosis Recall in Canada  
  *Robin L. Smart, John Cranfield, and Getu Hailu, University of Guelph*  
- The Roles of Generalized Trust and Trust in the Food System on Consumers’ Food Choices  
  *Yulian Ding, Michele Veeman, and Wiktor Adamowicz, University of Alberta*  
- Consumer Reaction to Microbial Based Food Recalls: Analysis of the 2008 Listeria Contamination Recall of Ready-to-Eat Meats in Canada  
  *John Cranfield and Spencer Henson, University of Guelph; Oliver Masakure, Wilfrid Laurier University*  
- Canadian Consumer Concerns about Food Safety Issues and Confidence in Food Products: Comparison of Beef and Pork  
  *Violet Muringai and Ellen Goddard, University of Alberta*

**2029** Food and Agricultural Policy Analysis  
*CAES Selected Presentation Session*  
This session examines the role of the economist in policy making and the theoretical and empirical implications of contemporary policies designed to support the agricultural sector.  
**Moderator:** Rakhal Sarker, University of Guelph  
**Presentations:**  
- Are Coupled and Decoupled Levels of Agricultural Support Coupled?  
  *Nadia Gagnon, Agriculture and Agri-Food Canada; Bruno Larue, Université Laval*  
- Efficiency, Equity, and Complexity: An Examination of How Agricultural Economists Evaluate Agricultural Policy in Canada  
  *David Sparling and Brandon Schaufele, University of Western Ontario*  
- Time Inconsistent Commercialization Competitions  
  *James Vercammen and Anna Zubchenko, University of British Columbia*

**2030** Navigating Article Writing and the Publishing Process  
*GSS Track Session*  
For graduate students looking to publish their research, the process of getting from conceptual idea to published article can be a daunting challenge. The editors of the *AJAE* will offer advice on how to craft a well-written article and then how to maneuver the submission process and understanding the review feedback. There will be time for questions about the journal and other related topics.  
**Organizer:** Alicia English, Purdue University  
**Moderator:** Alicia English, Purdue University  
**Panelists:** J. Taylor, University of California, Davis; Jeffrey Dorfman, University of Georgia; Erik Lichtenberg, University of Maryland; David Hennessy, Iowa State University

**Monday, July 26, 2010**

**1:30 PM-3:00 PM**

**2031** How to Give a Presentation: Research, Extension, and Teaching  
*GSS Track Session*  
This session will discuss how to give a good presentation and how to gear it towards specific audiences. The importance of good presentation etiquette is something that is not often taught or required in graduate school, however it is important to giving a good presentation.  
**Organizer:** Shannon Sand, Oklahoma State University  
**Moderator:** Shannon Sand, Oklahoma State University  
**Presentations:**  
- How to Give a Presentation: Research  
  *B. Wade Brous, Oklahoma State University*  
- How to Give a Presentation: Extension  
  *Shannon Ferrell, Oklahoma State University*  
- How to Give a Presentation: Teaching  
  *Michael Wetzstein, University of Georgia*
CONCURRENT SESSIONS, MONDAY 1:30 PM-3:00 PM

2032  The Land Grant Vision of Extension’s Future
Extension Section and Senior Section Track Session
This session will provide insight into the changing local-state-federal and grant/contract funding base for extension. The current trends in agricultural and rural populations combined with the recent pressures on federal and state budgets have had substantial impacts on extension funding across the country. Presenters will comment on the challenges they face in making the case for extension and what extension economists can do to enhance funding for their programs. They will also comment on the implications of the 2009 Strategic Opportunities for Cooperative Extension Report for the future direction of extension education.

Organizer: Mark Waller, Texas A&M University; Matthew Stockton, University of Nebraska
Moderator: Matthew Stockton, University of Nebraska
Discussant: Henry Bahn, USDA-National Institute of Food and Agriculture
Presentations:
Future Directions for Extension: A Texas Perspective
Edward Smith, Texas AgriLife Extension Service
Future Directions for Extension: An Indiana Perspective
James Mintert, Purdue University
Future Directions for Extension: An Oregon Perspective
William Boggess, Oregon State University
Future Directions for Extension: A Nebraska Perspective
Elbert Dickey, University of Nebraska

2033  The Contribution of Agricultural Economists to the Understanding of International Trade
International Section Track Session
This session is based on an article that appeared in the Special Centennial Issue of the AJAE. The paper covers contributions of the profession to trade theory, to the understanding of world markets and prices, to the impact of exchange rates on trade, to empirical modeling of trade flows, to calculations of the costs of protection and trade distortions, and to the understanding of institutional developments in the area of trade. The session presents some aspects of the paper and lead in to a discussion as to what new issues the profession is likely to face in the coming decade.

Organizer: Alex McCalla, University of California, Davis
Moderator: Lenis Saweda Liverpool, International Food Policy Research Institute
Presentations:
The Effect of Continuing Education Participation on Agricultural Worker Outcomes
Anita Alves Pena, Colorado State University
Does “Convenience Agriculture” Affect Off-farm Labor Allocation Decisions?
Hiroki Uematsu, Ashok Mishra, and Sachin Chintawar, Louisiana State University
Does Participation in 4-H Improve Schooling Outcomes? Evidence from Florida
Alfonso Flores-Lagunes and Troy Timko, University of Florida
Do Large Firms with More Technologies Pay More
Li Yu and Yongjie Ji, Iowa State University

2034  The Feasibility and Economics of Biofuels
AAEA Selected Paper Session
This session examines the feasibility of biomass harvesting and its conversion into biofuels or electricity. The papers analyze the economics of using poultry litter, sugar beets, crop residue, and corn stover as biomass.

Organizer: Cole Gustafson, North Dakota State University
Moderator: Cole Gustafson, North Dakota State University
Presentations:
The Economic Feasibility of Energy Sugar Beet Biofuel Production in Central North Dakota
Thein Maung and Cole Gustafson, North Dakota State University
The Economics of Selling Crop Residue Biomass for Cellulosic Ethanol Production at the Farm Level
Daniel M. O’Brien, Kansas State University
Use of Poultry Litter and Other Biomass in Electricity Production and Its Implication for Economic Development
Krishna Paudel, Louisiana State University; Doleswar Bhandari, University of New Mexico; Keshav Bhattarai, University of Central Missouri

2035  Agricultural Labor
AAEA Selected Paper Session
Decisions regarding on-farm and off-farm labor supply depend on numerous factors. This session looks at these issues with respect to the effects of education and the effects of the structure of agricultural firms.

Organizer: Lenis Saweda Liverpool, International Food Policy Research Institute
Moderator: Lenis Saweda Liverpool, International Food Policy Research Institute
Presentations:
Trade Theory and Agricultural Trade Research: A Two-way Street
Andrew Schmitz, University of Florida
Trade Analysis for Development Policy: The Lessons from Cross-country Studies
Kym Anderson, University of Adelaide
Trade Policy and the WTO: The Reluctant Incorporation of Agriculture
Timothy Josling, Stanford University; Stefan Tangermann, Georg-August-Universität Göttingen

AAEA, CAES, & WAEA Joint Annual Meeting
Denver, CO • July 25–27, 2010
CONCURRENT SESSIONS, MONDAY 1:30 PM-3:00 PM

2036 Experiments, Information, and Choice
Plaza Building, Concourse Level, Plaza Court 6
AAEA Selected Paper Session
This session features environmental economics applications of experimental methods. The papers employ diverse experimental approaches to address behavioral, policy, and market issues. Topics addressed include water demand, pesticide use, environmental quality, and ecosystem restoration.
Moderator: Robert Johnston, Clark University
Presentations:
Estimating the Price Elasticity of Demand for Water with Quasi-experimental Methods
H. Allen Klaiber, Pennsylvania State University; V. Kerry Smith and Michael Kaminsky, Arizona State University; Aaron Strong, University of Wyoming
Culpability and Willingness-to-Pay for Environmental Quality
Gregory Poe, Cornell University
The Effect of Label Information on Farmers’ Pesticide Choice
Tomas Hasing, Carlos Carpio, and David B. Willis, Clemson University; Olha Sydorovich and Michele Marra, North Carolina State University
Generating Revenues from WTP for Ecosystem Restoration: An Auction Experiment on Public Goods
Elizabeth C. Smith and Stephen Swallow, University of Rhode Island

2037 Marketing and Consumer Preference for Sustainable Agricultural Products
Plaza Building, Concourse Level, Plaza Court 7
AAEA Selected Paper Session
This session presents the marketing potential of sustainable agricultural products and the agricultural products include biodegradable containers, local products, and organic products. This session has important policy implications for sustainable agriculture.
Moderator: Chengyan Yue, University of Minnesota
Presentations:
Are Consumers Willing to Pay More for Biodegradable Containers Than for Plastic Ones? Evidence from Hypothetical Conjoint Analysis and Non-hypothetical Experimental Auctions
Chengyan Yue, University of Minnesota; Charlie Hall, Texas A&M University
Assessing Consumers’ Willingness-to-Pay for Different Units of Organic Milk: Evidence from Multi-unit Auctions
Faical Akaichi, University of Arkansas; Jose Gil, Centre de Recerca en Economia i Desenvolupament Agroalimentari; Rodolfo M. Navga Jr., University of Arkansas
Do Local Production, Organic Certification, Nutritional Claims, and Product Branding Pay in Consumer Food Choices?
Marvin Batte, The Ohio State University; Wuyang Hu and Timothy Woods, University of Kentucky; Stanley Ernst, The Ohio State University
Local and Organic: Substitutes or Complements? An In-store Evaluation of Labels for Apples
Marco Costanigro, Gretchen Nurse, Dawn Thilmany McFadden, and Stephan Kroll, Colorado State University

2038 Research Methods and Data Issues—Fitting the Procedure to the Process
Plaza Building, Concourse Level, Plaza Court 8
AAEA Selected Paper Session
This session is comprised of papers that attempt to address or expose inherent issues in observational and time-series data. Papers in this session utilize or propose Econometric methods appropriate to the underlying data generating process under examination. Topics covered range from co-integration testing in small samples, a method to address often omitted spatial interactions, estimation when data possess a non-random selection problem, and quantile regression estimates of farm efficiency.
Moderator: Charles Towe, University of Maryland
Presentations:
Applying Regression Quantiles to Farm Efficiency Estimation
Elisavet I. Nitsi and Eleni A. Kaditi, Centre for Planning and Economic Research
Co-integration Analysis of Commodity Prices: Much Ado about the Wrong Thing?
Mindy L. Mallory, University of Illinois at Urbana-Champaign; Sergio Lence, Iowa State University
Estimating Travel Cost Model: Spatial Approach
SeungGyu Kim, University of Tennessee; James M. Bowker, U.S. Forest Service; Seong-Hoon Cho, University of Tennessee; Donald B.K. English, U.S. Forest Service; C. Megan Starbuck, New Mexico State University
Testing the Effect of Neighboring Open Space on Development Using Propensity Score Matching
Charles Towe, University of Maryland

2039 Conservation and Ecosystem Services
Plaza Building, Concourse Level, Governor’s Square 9
AERE Session
The complexity of ecosystem science presents consumers and planners with an unfamiliar yet important suite of nonmarket goods. This session includes theoretical and empirical research on the economics of conservation. The first paper examines how providing ecological information influences willingness-to-pay for ecological restoration. The second paper empirically analyzes the effectiveness of payments for ecosystem services to prevent deforestation and contrasts payments with traditional regulation. The third paper furthers the literature on reserve site selection by modeling the endogeneity of land prices in a dynamic setting. The last paper addresses interpretations of optimal stopping problems in resource economics.
Moderator: David Finnoff, University of Wyoming
Discussant: Kathy Baylis and Sahan Dissanayake, University of Illinois at Urbana-Champaign; Yohei Mitani, University of Colorado; Graham Davis, Colorado School of Mines
Presentations:
The Effects of Ecological Information Provision On Preferences for Ecosystem Restoration
Yohei Mitani, University of Colorado
The Role of Payment for Environmental Services vs. Regulation in Preventing Deforestation: A Case Study of the Monarch Butterfly Conservation Fund
Kathy Baylis, Jordi Honey-Roses, and Isabel Ramirez-Ramirez, University of Illinois at Urbana-Champaign
Does Ignoring Dynamic Price Effects in Reserve Design Models Lead to Suboptimal Reserves? A Two-Period Linear Integer Site Selection Model
Sahan Dissanayake and Hayri Onal, University of Illinois at Urbana-Champaign
The Economics of Optimal Stopping
Graham Davis and Robert Cairns, Colorado School of Mines
### AERE Session
This session addresses both theoretical and applied issues in environmental economics. The first paper theoretically models trade in waste between the developed and developing world. The second paper uses a cross-section of firms to estimate what characteristics increased the probability to participate in a voluntary electricity demand management program. The fourth paper uses a panel data set to establish the relationship between ozone exposure and livestock mortality rates, which is required to set the optimal secondary standard for ozone.

**Moderator:** Sean B. Cash, University of Wisconsin

**Discussant:** Takehiro Usui, Soka University; Shunsuke Managi, Tohoku University; J. Mark Leonard, University of Nebraska at Omaha; Nicholas Muller, Middlebury University

**Presentations:**
- Estimating the Sustainability of Unit-Based Pricing Using Panel Data: Household Waste Reduction and Promotion of Sorting Recyclables
  - Takehiro Usui, Soka University
- Determinants of Trade in Recyclable Wastes Between Developing and Developed Countries
  - Shunsuke Managi, Tohoku University; Keisaku Higashida, Kwansei Gakuin University
- Business Participation in Electricity Demand Management Programs
  - J. Mark Leonard and Christopher Decker, University of Nebraska at Omaha
- The Impact of Ozone Air Pollution On Livestock Mortality in the United States
  - Nicholas Muller, Middlebury University

### AAEA Organized Symposium
The purpose of this session is to present and discuss uses, strengths, and limitations of household-based scanner data for addressing economic research questions related to nutrition and food safety. Presentations will address whether Nielsen Homescan households have diet and health attitudes similar to the general population, analyze the effects of food safety information on purchases of meat and poultry, examine the effects of food prices on food choices and diet-related health outcomes, and determine the effects of sugar-sweetened beverage taxes on consumption and tax revenue. Discussion will focus on lessons learned and potential future uses of the data.

**Organizer:** Chen Zhen and Mary Muth, RTI International

**Moderator:** Jayson Lusk, Oklahoma State University

**Presentations:**
- A Comparison of Attitudes towards Diet and Health Between Homescan Households and Respondents to Government Surveys
  - Mary Muth, Shawn Karns, Peter Siegel, and Chen Zhen, RTI International; Ephraim Leibtag, USDA-Economic Research Service
- An Ex-Ante Analysis of Sugar-Sweetened Beverage Taxes
  - Chen Zhen, RTI International; Michael Wohlgenant, North Carolina State University; Shawn Karns, RTI International; Phillip Kaufman, USDA-Economic Research Service
- Food Safety Information Impacts On within-Species Purchase Decisions
  - Mykel Taylor, Washington State University; Daniel Phaneuf and Nicholas Piggott, North Carolina State University
- Food Prices and Food Choices
  - Lisa Mancino, Jessica E. Todd, and Ephraim Leibtag, USDA-Economic Research Service

### Econometrics Section Track Session
This session will teach attendees the basics of applying propensity score matching to help produce valid econometric estimates from data sets arising from non-controlled experiments. Presenters will cover the basics of how the technique works, how it has worked in real applications, comparisons to other adjustment techniques, and the general pros and cons of the method.

**Organizer:** Jeffrey Dorfman, University of Georgia

**Moderator:** Jeffrey Dorfman, University of Georgia

**Presentations:**
- Propensity Score Matching: Getting Started
  - Barrett Kirwan, University of Maryland
- Propensity Score Matching: Experience with Land Use Applications
  - Loretta Lynch, University of Maryland
- Propensity Score Matching: Experience in Development Economics
  - David R. Just, Cornell University
The Renewable Fuel Standard requires rising volumes of biofuel use, with cellulose biofuels to account for a growing share. We identify 1) the challenges of increasing biofuel use beyond apparent limits to demand expansion; 2) the supply potential of cellulosic feedstocks from various sources; and 3) how compliance mechanisms will deliver signals about economic fundamentals. In each case, we focus first on the biofuel mandates and their subsequent effects on agricultural markets. Janet Perry will present a review and update of agricultural policies in grains and livestock.

Organizer: Christiane Schroeter, California Polytechnic State University, San Luis Obispo
Moderator: Christiane Schroeter, California Polytechnic State University, San Luis Obispo
Presentations:
Overview and Working Outline: Evolution of the Economics of Agricultural Policy
Daniel Sumner, University of California, Davis
Ag Economists at the Ramparts: Speculation and Commodity Futures Markets
Scott Irwin, University of Illinois at Urbana-Champaign
Does Knowing the Price Matter? A Review of Grain and Livestock Price Reporting
Janet Perry, USDA-Economic Research Service

Although sustainability has been identified as the key driver of innovation, many food and agribusiness companies investing in sustainability initiatives are doing so out of coercion from their supply chain partners (uneven supply chain power distribution), out of fear of missing some market opportunity (regret minimization), or out of a belief that it will increase performance (strategic investment theory). The two papers in this session provide insights into the motivating factors driving sustainability decisions and the relationship between those decisions and organizational performance. The session promises to provoke quality dialog among participants about sustainability economics under uncertainty of outcomes.

Organizer: Vincent Amanor-Boadu, Kansas State University
Moderator: Conrad Lyford, Texas Tech University
Discussant: Conrad Lyford, Texas Tech University; Aaron Johnson, University of Idaho
Presentations:
On the Distribution of Net Benefits from Sustainability Initiatives in Agri-Food Supply Chains
Vincent Amanor-Boadu, Kansas State University; R. Ross, Michigan State University; Kara Ross, Kansas State University
CEOs and the Sustainability Initiatives of Publicly-traded Agribusiness Firms
Joshua Detre, Louisiana State University; Michael Gunderson, University of Florida

AEEA Invited Paper Session
This session will focus on the agricultural sector and associated development policy challenges facing Africa and the Caribbean regions stemming from both recent internal and external shocks. Although the agricultural sector is very important to the economies of the two regions, most governments in both regions have failed to undertake the necessary levels of investment in the sector. Therefore, many countries in both regions are facing challenges in achieving Millennium Development Goal (MDG) targets in food security and poverty alleviation.

Organizer: William Amponsah, Georgia Southern University
Moderator: William Amponsah, Georgia Southern University
Discussant: Andrew Muhammad, USDA-Economic Research Service
Presentations:
African Agricultural Sector Development Challenges and Policies
William Amponsah, Georgia Southern University
Dealing with the Challenge of Climate Change on Aggregate Agricultural Output—Lessons from the Caribbean
Carlisle Pemberton, University of the West Indies
Development of the Biofuels Industry in South Africa: Policy Choices and Trade-offs
Arthur Mabiso, Michigan State University
CONCURRENT SESSIONS, MONDAY 1:30 PM-3:00 PM

2047 Risk and Uncertainty
Tower Building, Terrace Level, Beverly Room
AAEA Selected Paper Session
The papers in this session examine producer decisions in the face of risk and uncertainty. These decisions include profit seeking behavior, yield-based production strategies, reactions to climatic variability, and adoption of environmentally oriented production practices.
Moderator: Scott Swinton, Michigan State University
Presentations:
Why Farmers Opt Not to Enroll in Payment-for-Environmental-Services Programs
Shan Ma, Scott Swinton, and Frank Lupi, Michigan State University; Maria Christina Jolejole, University of Illinois at Urbana-Champaign
Climate Change, Risk, and Grain Production in China
Rainer Wilhelm Holst, Xiaohua Yu, and Carola Grün, Georg-August-Universität Göttingen
Yield and Area Elasticities: A Cost Function Approach with Uncertainty
Juan Francisco Rosas and Dermot J. Hayes, Iowa State University
A Profitability and Risk Analysis of Organic and High-input Cropping Systems in Southwestern Minnesota
Timothy A. Delbridge, University of Minnesota

2048 Rural Labor and Land Markets
Tower Building, Mezzanine Level, Century Room
AAEA Selected Paper Session
The papers in this session will examine two inter-twined issues: dynamics in the rural labor and land markets as well as the effects of different public policies aimed at improving economic conditions in rural America.
Moderator: Carmen Carrión-Flores, University of Florida
Presentations:
Local Effects of Hog Production on Farm and Non-farm Economic Outcomes
Thomas Hertz and Stacy Sneeringer, USDA-Economic Research Service
The Impact of Urban Growth and Sprawl on Peri-urban Farm Production
Benoît A. Delbecq and Raymond Florax, Purdue University
Human Capital Formation in Rural America: Differences between Rural and Urban High School Dropouts
Jeffrey Jordan and Genti Kostandini, University of Georgia; Elton Mykerezi, University of Minnesota

2049 Economic Value of Invasive Species Management: Proactive Management and Extreme Policies
Tower Building, Mezzanine Level, Colorado Room
AAEA Selected Paper Session
The papers in this session use bioeconomic models to evaluate prevention versus control of invasive species under uncertainty, risk, learning, and new technology. The papers evaluate the net benefits of proactive versus reactive management, early warning, and extreme policies. Policy implications are emphasized.
Moderator: Marisa Zansler, USDA-Animal and Plant Health Inspection Service
Presentations:
Proactive or Reactive? Optimal Management of an Invasive Forest Pest in a Spatial Framework
Craig Bond, Colorado State University; Patricia Champ, U.S. Forest Service; James Meldrum, University of Colorado
Valuing Monitoring Networks for Invasive Species: The Case of Soybean Rust
Stephen S. Aultman, Terrance Hurley, and Frances Homans, University of Minnesota; Robert Haight, U.S. Forest Service
Mimako Kobayashi, Kimberly Rollins, and Dilek Uz, University of Nevada at Reno

2050 Public Policy, Health, and Food
Tower Building, Mezzanine Level, Denver Room
AAEA Selected Paper Session
Public health concerns are a driving interest in a variety of policies aimed at reducing chronic disease through changing diets. The policy interventions can be direct (tax food) or indirect (influence food availability through agricultural policy). In this session, the links between three different types of food policy and market outcomes are examined. Whether these policies can improve public health is addressed.
Moderator: Helen Jensen, Iowa State University
Presentations:
The Dynamics of Food Stamp Program Participation: A Lagged Dependent Variable Approach
Sibel Atasoy, Bradford Mills, and Christopher Parmeter, Virginia Tech
Taxing Sweets: Sweetener Input Tax or Final Consumption Tax?
Zhen Miao, John Beghin, and Helen Jensen, Iowa State University
The Effects of Farm Commodity and Retail Food Policies on Obesity and Economic Welfare in the United States
Abigail Okrent and Julian Alston, University of California, Davis
Empirical Poverty Analysis
Tower Building, Mezzanine Level, Gold Room

AAEA Selected Paper Session
Different conceptual and empirical perspectives on poverty often offer complementary insights into the daily dilemmas of the poor. In this session, a collection of empirical poverty analyses, each from a different setting and with a different focus, will explore current applied economic perspectives on poverty.

Moderator: Paulo Santos, University of Sydney

Presentations:
- Child Undernutrition, Household Poverty, and National Income in Developing Countries
  Steven Block, Tufts University; William Masters, Purdue University; Priya Bhagowalia, TERI University
- Gender and Poverty Impacts of India’s National Rural Employment Guarantee Scheme: Evidence from Andhra Pradesh
  Klaus Deininger, World Bank; Yanyan Liu, International Food Policy Research Institute
- Rural Non-farm Employment and Agricultural Modernization and Diversification in Guatemala
  Ricardo Hernandez, Zhengfei Guan, and Thomas Reardon, Michigan State University
- Traps and Thresholds in Mobility in the Pastoralist Livelihood in Northern Kenya
  Russell Toth, Cornell University

Labeling and Geographic Indications
Tower Building, Mezzanine Level, Silver Room

AAEA Selected Paper Session
This session includes timely topics addressing newly emerging issues related to GMO’s, country of origin, trademarks, and alternative labels and their implications for efficiency.

Moderator: David Schweikhardt, Michigan State University

Presentations:
- Are Consumers Indeed Misled? Congruency in Consumers’ Attitudes toward Wine Labeling Information vs. Revealed Preferences from a Choice Experiment
  Simone C. Mueller, University of South Australia; Wendy J. Umberger, University of Adelaide
- Quality Certification by Geographical Indications, Trademarks, and Firm Reputation
  Luisa Menapace and GianCarlo Moschini, Iowa State University
- Country of Origin Labeling with Horizontal Differentiation and Country-specific Random Shocks
  Alexander Saak, International Food Policy Research Institute
- Estimates of the Welfare Impact of Intragenic and Transgenic GM Labeling Policies
  Gregory Colson, University of Georgia; Wallace Huffman, Iowa State University; Matthew Rousu, Susquehanna University

Product Differentiation
Tower Building, Mezzanine Level, Spruce Room

AAEA Selected Paper Session
This session highlights contributions related to product differentiation in food markets and in the seed industry.

Moderator: Tian Xia, Kansas State University

Presentations:
- Are Consumers Indeed Misled? Congruency in Consumers’ Attitudes toward Wine Labeling Information vs. Revealed Preferences from a Choice Experiment
  Simone C. Mueller, University of South Australia; Wendy J. Umberger, University of Adelaide
- Quality Certification by Geographical Indications, Trademarks, and Firm Reputation
  Luisa Menapace and GianCarlo Moschini, Iowa State University
- Country of Origin Labeling with Horizontal Differentiation and Country-specific Random Shocks
  Alexander Saak, International Food Policy Research Institute
- Estimates of the Welfare Impact of Intragenic and Transgenic GM Labeling Policies
  Gregory Colson, University of Georgia; Wallace Huffman, Iowa State University; Matthew Rousu, Susquehanna University

Crop Insurance
Tower Building, Terrace Level, Terrace Room

AAEA Selected Paper Session
The papers in this session examine current issues related to crop insurance research, which include the impact of new programs such as ACRE and SURE; an evaluation of the efficiency of yield models; and the development of a multi-year insurance product.

Moderator: Nicholas Paulson, University of Illinois at Urbana-Champaign

Presentations:
- Sure Thing: The Economics of Permanent vs. Ad Hoc Disaster Assistance
  Joseph Cooper, USDA-Economic Research Service; David Zilberman and Thomas Sproul, University of California, Berkeley
- The Impact of the Average Crop Revenue Election on Farmers’ Risk Management and on Government Expenditure
  Yunguang Chen, Hong Wang, and George Patrick, Purdue University
- Efficiency Evaluation of Alternative Yield Models for Crop Insurance Rating Applications
  Christopher Lanoue, Bruce Sherrick, Gary Schnitkey, and Nicholas Paulson, University of Illinois at Urbana-Champaign; Joshua Woodard, Texas A&M University
- The Design of Multi-year Crop Insurance Contracts
  Ying-Erh Chen and Barry Goodwin, North Carolina State University
CONCURRENT SESSIONS, MONDAY 1:30 PM-3:00 PM

2055 Nutrition and Food Safety
   Tower Building, Second Level, Tower Court A
   CAES Selected Presentation Session
   This session focuses on economic issues related to food consumption and human health.
   Moderator: Richard Gray, University of Saskatchewan
   Presentations:
   Does the Dietician Keep the Doctor Away? Obesity, Diet, and Health in Canada
   Brandon Schaafele and David Sparling, University of Western Ontario
   Demand for Nutrients in Chain Restaurants in Canada
   Jeewani R. Fernando and Ellen Goddard, University of Alberta
   Economic Analysis of Individuals’ Propensity to Undertake Dietary Behaviors Associated with Selecting Diets Low in Fat
   Kumuduni Kulasekera, John Cranfield, and Spencer Henson, University of Guelph
   Influences of Labeling Policy and Media Coverage on the Demand for Butter and Margarine
   Chung-Tung Lin, U.S. Food and Drug Administration; Jong-Ying Lee, University of Florida

2056 Dynamics of Farm Household Income and Investments in Cooperatives
   Tower Building, Second Level, Tower Court B
   CAES Selected Presentation Session
   This session examines the structure of farm household income and the factors that influence their decisions to diversify income and patronize agricultural cooperatives.
   Moderator: Wayne Thompson, Saskatchewan Canola Growers Association
   Presentations:
   Examining the Dynamics of Household Income of Farm Families in Canada
   Kenneth Poon and Alfons Weersink, University of Guelph
   The Influence of Market Barriers and Farm Income Risk on Non-farm Income Diversification
   Edward Olale and Hina Nazli, University of Guelph
   Retained Patronage Refunds, Increasing Returns to Scale, and Member Patronage in Cooperatives
   Florentina N. Uzea and Murray Fulton, University of Saskatchewan
   Horizon and Free Rider Problems in Cooperative Organizations
   Konstantinos Giannakas, University of Nebraska; Murray Fulton, University of Saskatchewan

2057 Water Resource Management
   Tower Building, Second Level, Tower Court C
   CAES Selected Presentation Session
   This session investigates problematic issues related to non-private-ly owned water resources.
   Moderator: Tasneem Virani, University of Guelph
   Presentations:
   Surface Water Allocation in Alberta: Implications of the Economic Calculation Debate
   Danny LeRoy, University of Lethbridge
   Implementing Proportional Water Sharing as a Water Allocation Rule
   Lixia He, University of Tennessee; Theodore Horbulyk, University of Calgary; Md. Kamar Ali, Danny LeRoy, and Kurt Klein, University of Lethbridge
   Examining the Relationship between Government Management of State Land and Efforts to Restore the Ecological Integrity of Coastal Lands in Sri Lanka after the Tsunami 2004: Evidence of an Anticommons Problem?
   Chatura Pulasinghage and Brady Deaton, University of Guelph
   Establishing Indicators of Efficient Water Use for Southern Alberta Irrigation Districts
   Robert Bewer, Md. Kamar Ali, and Kurt Klein, University of Lethbridge; Suren Kulshreshtha, University of Saskatchewan

2058 Farm-level Models for Policy Development
   Tower Building, Second Level, Tower Court D
   CAES Organized Symposium
   Agriculture and Agri-Food Canada (AAFC) recognizes the importance of monitoring and assessing its current programs and policies to ensure that these contribute to overall objectives of Canada’s agriculture policy framework (Growing Forward), and identifying emerging trends, to help design new policies and programs. This session will highlight some of the economic tools and methods used by both AAFC and academics to construct a more complete picture of the Canadian Agriculture sector and contribute to agricultural policy development in Canada, including econometric modeling, micro-simulation, and agent-based modeling techniques.
   Organizer: Nathan Niu, Agriculture and Agri-Food Canada
   Moderator: David Culver, Agriculture and Agri-Food Canada
   Discussant: Bruno Larue, Université Laval; Richard Schoney, University of Saskatchewan
   Presentations:
   The Influence of Urban Proximity On Capital Investment Decisions On Farms in Canada
   Arden Esqueda, Forecasting and Program Analysis
   Identifying the Weak Links in a Modern Supply Chain: An Agent-Based Simulation Model of the Western Canadian Grain Handling System
   Russell Lawrence and James Nolan, University of Saskatchewan
   The Canadian Agriculture Dynamic Micro-Simulation Model (CADMS)
   Nathan Niu, Agriculture and Agri-Food Canada; Adam Arsenault, Forecasting and Program Analysis
2059  How to Survive Graduate School
    *Plaza Building, Concourse Level, Plaza Court 1*

**GSS Track Session**

The focus of this track session is to give students the chance to hear about the experiences that newer graduates have had and how they dealt with the problems associated with being a graduate student (i.e. picking an advisor, prelims, finishing their dissertation/thesis, time management, etc.).

**Moderator:** Per Bylund, University of Missouri

**Panelist:** R. Karina Galardi, Washington State University; Jesse Tack, Mississippi State University; Pedro Alviola IV, University of Arkansas

2060  Teaching Tips from Top Teachers: 2009 AAEA Award Recipients
    *Plaza Building, Concourse Level, Plaza Court 2*

**TLC Section Track Session**

This session offers the opportunity for AAEA Teaching Award recipients to share teaching tips and have a dialogue with AAEA members. The goal is to share ideas on what successful teachers are doing in and out of the classroom to facilitate learning. The emphasis is on winning strategies that have worked for them; the approaches, techniques, and/or teaching styles they consider to be instrumental to their success in the classroom. While they may utilize specific subject-matter examples to illustrate their points, the emphasis will be on pedagogical approaches to improving education in our profession.

**Moderator:** Allen Wysocki, University of Florida

**Panelist:** Michael Boland, Kansas State University; Kenneth Foster, Purdue University; James Sterns, University of Florida

2061  The Second Century of Food and Consumer Economics: What Will Be Remembered in 2110?
    *Plaza Building, Concourse Level, Plaza Court 3*

**FSN Section Track Session**

In honor of the AAEA Centennial, this session will look to the future of food and consumer economics. In the past century, agricultural economists’ empirical work in this field has informed the development of household production theory, hedonic price theory, definitions of poverty thresholds, complete demand systems, and survey and experimental techniques to elicit preferences. How will current policy and research questions, together with new data and methods, shape our contributions in the next century? Within three important theme areas—demand analysis, food assistance impacts, and consumer response to information and quality—we will discuss how the field might evolve.

**Organizer:** Laurian Unnevehr, USDA-Economic Research Service

**Moderator:** Mary Muth, RTI International

**Presentations:**

- The First 100 Years of Food and Consumer Economics: What Did We Achieve?
  *Laurian Unnevehr, USDA-Economic Research Service*

- Traditional Demand Analysis: Still Relevant in the 21st Century?
  *James Eales, Purdue University*

- Food Assistance and Poverty: Is Food Still the Most Important Necessity?
  *Helen Jensen, Iowa State University*

- Information and Quality: What Do Those Darn Consumers Want?
  *Jayson Lusk, Oklahoma State University; Jill McCluskey, Washington State University*

2062  Food Consumption Trends in Urban China, Implications for International Agricultural Markets
    *Plaza Building, Concourse Level, Plaza Court 4*

**International Section Track Session**

Food consumption in China has experienced dramatic changes over the last several decades as a result of strong income growth and urbanization. These changes include: increasing consumption of fruit and livestock products and fewer food grains; choosing food on the basis of quality, safety, and other factors in addition to price; increasing demand for food away from home; and increasing demand for non-traditional products, such as dairy products and wine. This session will present information on these changes in food consumption patterns and trends in China, and the underlying social and economic determinants.

**Organizer:** Thomas Wahl, North Dakota State University; Junfei Bai, Washington State University

**Moderator:** Thomas Wahl, North Dakota State University

**Panelist:** Travis A. Smith, USDA-Economic Research Service; Junfei Bai, Washington State University; Thomas Wahl, North Dakota State University; Jill McCluskey, Washington State University

**Discussant:** James Seale, University of Florida; Jikun Huang, Center for Chinese Agricultural Policy

2063  Greenhouse Gas Markets and Agriculture
    *Plaza Building, Concourse Level, Plaza Court 5*

**Extension Section and Senior Section Track Session**

This session will broadly address the likely involvement of agriculture in Greenhouse Gas (GHG) markets and the impact of proposed cap-and-trade legislation, or EPA regulation, on agriculture. Individual presentations will address the potential for agriculture to be involved in GHG markets, possible offset design criteria and regulatory provisions that will affect agriculture’s involvement in GHG markets, and the results of economic studies on the impact of GHG regulations. This session is designed to promote discussion among economists educating producers on how to plan for and participate in any emerging GHG markets or regulations.

**Organizer:** Raymond Massey, University of Missouri; David Miller, AgraGate Climate Credits Corporation

**Moderator:** Matthew Roberts, The Ohio State University

**Presentations:**

- Is Agriculture a Source of Greenhouse Gas Emissions or Offsets?
  *Raymond Massey, University of Missouri*

- Agriculture and Carbon Markets: Lessons Learned
  *David Miller, AgraGate Climate Credits Corporation*

- How Does Agriculture Fare Under Cap and Trade Proposals?
  *Joe Outlaw, Texas A&M University*
AAEA Selected Paper Session

This session includes presentations on the relative effectiveness of market-based policy instruments for invasive insect control, the risk factors for invasive species introduction through trade, and the effect of integrated pest management practices adoption on pesticide use.

**Moderator:** Michael Livingston, USDA-Economic Research Service

**Presentations:**
- Market-based Instruments for the Optimal Control of Invasive Insect Species
  - Timothy Richards, Arizona State University; Russell Tronstad, University of Arizona
- Pesticide Use and IPM Adoption: Does IPM Reduce Pesticide Use in the United States?
  - Jason Maupin and George Norton, Virginia Tech
- Risk Factors for Invasive Species Introductions in Commodity Trade: Theory and Evidence
  - Erik Lichtenberg and Lars Olson, University of Maryland

**2065 Financial Performance of Institutions and Households**

**AAEA Selected Paper Session**

The presenters in this session will compare and contrast the costs of providing credit by alternative lending institutions, and discuss impacts of credit constraints on productivity in rural China. Differences in the financial performance among beginning farmers will be discussed, as will trade-offs between maintaining sufficient capital reserves and providing reasonable returns to members of the Farm Credit System lending association.

**Moderator:** Cesar L. Escalante, University of Georgia

**Presentations:**
- The Relative Cost Efficiencies of Commercial Banks, Rural Financial Institutions, and Microfinance Institutions in China
  - Ya Wu, Cesar L. Escalante, and Lewell F. Gunter, University of Georgia
- Effects of Credit Constraint on Productivity and Rural Household Income in China
  - Fengxia Dong and Jing Lu, Iowa State University; Allen Featherstone, Kansas State University
- An Analysis of the Financial Performance of Beginning Farmers
  - Ani Katchova, University of Kentucky
- Patronage Refunds of Farm Credit System Associations: A Logistic Model
  - Tianwei Zhang and Mindy L. Mallory, University of Illinois at Urbana-Champaign

**2066 Farmland Valuation Issues**

**AAEA Selected Paper Session**

The papers in this session explore economic issues related to farmland management and protection decisions. Topics addressed include farmland valuation, technology adoption, and pollution management.

**Moderator:** Loretta Lynch, University of Maryland

**Presentations:**
- Valuing Farmland Protection with Choice Experiments That Incorporate Preference Heterogeneity: Does Policy Guidance Depend on the Econometric Fine Print?
  - Robert Johnston, Clark University; John C. Bergstrom, University of Georgia
- Estimating the Implicit Value of Crop Stubble as a Barrier to Technology Adoption in Morocco
  - Nicholas Magnan and Douglas Larson, University of California, Davis
- Incorporating Scenic Quality and Cultural Heritage into Farmland Valuation: Results from an Enhanced LESA Model
  - Leah Mathews, University of North Carolina at Asheville; Art Rex, Appalachian State University
- Integrated Watershed Economic Model for Non-point Source Pollution Management in Upper Big Walnut Creek Watershed, OH
  - Sujithkumar Surendran Nair and Brent L. Sohngen, The Ohio State University; Kevin W. King and Norman R. Fausey, USDA-Agricultural Research Service; Jonathan D. Witter and Douglas Southgate, The Ohio State University

**2067 Advances in Renewable Resource Economics and Management**

**AERE Session**

This session illustrates current trends in renewable resource economics including the spatial dimensions of resources, the possibility of self-governance, and the links between renewable and non-renewable resources.

**Moderator:** Craig Bond, Colorado State University

**Discussant:** Yusuke Kuwayama, University of Illinois at Urbana-Champaign; Hirotsugu Uchida, University of Rhode Island; Min Wang, Iowa State University

**Presentations:**
- The Regulation of a Spatial and Dynamic Externality: Tradable Ground-Water Permits for the Protection of Instream Flows
  - Yusuke Kuwayama and Nicholas Brozovic, University of Illinois at Urbana-Champaign
- Does Self Management in Fisheries Enhance Profitability? Examination of Korea’s Coastal Fisheries
  - Hirotsugu Uchida, Eni Uchida, Jung-Sam Lee, Jeong-Gon Ryu, and Dae-Young Kim, University of Rhode Island
- Impacts of Renewable Resource R&D: the Role of Capacity Constraints
  - Min Wang, Iowa State University; Jinhua Zhao, Michigan State University
CONCURRENT SESSIONS, MONDAY 4:00 PM-5:30 PM

2068 Agricultural and Applied Economics Research: What Makes It Relevant for Policy Advice?
Plaza Building, Concourse Level, Governor’s Square 10

AAEA Organized Symposium
Each panelist will present a few major points to highlight his/her insights into the factors that make some agricultural and applied economics research relevant—or sometimes irrelevant—for policy advice. They will draw on their experience over many years, either as suppliers of research that has actually been used in policy advice or as users of research in developing policy advice. While the panelists naturally want to be diplomatic in presenting their main points, they will be encouraged to articulate themselves more provocatively in order to nurture a lively discussion among themselves and to engage with the audience.

Organizer: Lars Brink, Agriculture and Agri-Food Canada
Moderator: Robert Thompson, University of Illinois at Urbana-Champaign
Panelist: Otto Doering III, Purdue University; Bruce McCarl, Texas A&M University; Douglas Hedley, Consultant; Susan Offutt, U.S. Government Accountability Office
Discussant: Kurt Klein, University of Lethbridge

2069 Integrating Health, Nutrition, and Food Systems: Rethinking Malnutrition Reduction
Plaza Building, Concourse Level, Governor’s Square 11

AAEA Organized Symposium
Research on the subjects of disease treatment and eradication, malnutrition reduction, and agricultural productivity in Africa demonstrates deep and important discipline traditions when addressing these challenges. Often intervention models follow a particular discipline tradition, but do not reflect the underlying system linking health, nutrition, and the food system. Intervention outcomes as measured by efficacy or effectiveness may be suboptimal as a result. This session will accomplish three objectives: 1) present three papers on the underlying system; 2) provide policy direction emerging from the consequences of system integration; and 3) hear from a discussant guiding scholars in this area.

Discussant: William Masters, Purdue University

Presentations:
Food Assistance and Health Outcomes: Theory and Practice within a Clinic Setting
Paul McNamara, University of Illinois at Urbana-Champaign
Enhancing Nutrient Flows to Support Health Intervention: A Foodshed Approach
Peter Goldsmith and Alex Winter-Nelson, University of Illinois at Urbana-Champaign
Addressing Inadequate Nutrient Intakes: A Cross-Country Comparison
Craig Gundersen and Mary Arends-Kuening, University of Illinois at Urbana-Champaign

2070 Genetically Modified Food and Global Welfare—I
Plaza Building, Concourse Level, Governor’s Square 12

AAEA Organized Symposium
An edited book, Genetically Modified Food and Global Welfare consisting of commissioned chapters, is currently being put together by Giancarlo Moschini, Colin Carter, and Ian Sheldon. Due to the fact that this project is still in its early stages, the objective of this symposium is to bring together several of the book’s authors in order to generate and facilitate an informal discussion of the status of research in this area. Authors of chapters on analytical perspectives, empirical findings, and regulatory issues will give a very brief synopsis of the early drafts of their chapters, followed by informal discussion.

Organizer: GianCarlo Moschini, Iowa State University; Ian Sheldon, The Ohio State University; Colin Carter, University of California, Davis

Presentations:
Current and Potential Implications of Agricultural Biotechnology for Developing Countries
Terri Raney, Food and Agriculture Organization of the United Nations
Biotech and Biofuels
David Zilberman, University of California, Berkeley
Implications of Emerging Applications of Biotechnology to Agriculture
Robert Herdt, Cornell University
The Pricing of Genetically Modified Corn in the United States
Jean-Paul Chavas, University of Wisconsin

2071 Where Do Agricultural Economists Fit in the Local Food Movement?
Plaza Building, Concourse Level, Governor’s Square 14

COSBAE Track Session
The local foods campaign has received significant press and encouragement from the popular press and general public. Given the attention it has received, the food industry has been increasingly trying to capitalize on this movement. However, there are still several questions that remain to be answered regarding the overall sustainability of local foods. The purpose of this session is to identify potential obstacles and provide plausible solutions for overcoming them and to strengthen farmers seeking to capitalize on local foods.

Moderator: Deacue Fields III, Auburn University

Presentations:
Policy Perspectives on the Local Food Issues
Henry Bahn, USDA-National Institute of Food and Agriculture
Economics of Food Deserts in Urban Centers
Dave Weatherspoon, Michigan State University
Opportunities and Challenges for Small Farmers Seeking to Fill the Local Food Demand
Duncan M. Chembezi, Alabama A&M University
Opportunities in Local Food Systems
Maria Marshall, Purdue University
### CONCURRENT SESSIONS, MONDAY 4:00 PM-5:30 PM

**2072 Consumer-driven Changes in Food Marketing Channels: Organics and Sustainable Food Systems in the United States**
Plaza Building, Concourse Level, Governor's Square 15

**AAEA Invited Paper Session**
A recent surge in consumers’ interest towards sustainable life styles and products has kindled emergence and expansion of differentiated food systems. The organic food system in particular has marked notable growth over the last decade, bringing about considerable changes in its marketing channels. This session presents three research papers on emerging trends of importance to the U.S. food and agricultural system with a focus on the retailer, processor, and consumer behavior that may signal how the market for organic and other so-called sustainable food products will evolve in future years.

**Organizer:** Hikaru Hanawa Peterson, Kansas State University  
**Discussant:** Marvin Batte, The Ohio State University; Kitty Smith, USDA-Economic Research Service

**Presentations:**
- The Consumer Role in Organic and Sustainable Food Markets: What Traits and Assurances Do They Value?  
  Yuko Onozuka, University of Stavanger; Gretchen Nurse and Dawn Thilmany McFadden, Colorado State University
- Consumer Preferences for Product Origin and Scale of Supply Chain Operations: The Case of Processed Organic Foods  
  Hikaru Hanawa Peterson and Xianghong Li, Kansas State University
- Strategic Behavior of Food Retailers: Private Label Organic Products  
  Edward C. Jaenicke, Pennsylvania State University; Carolyn Dimitri, USDA-Economic Research Service

**2073 Moving Beyond Self-interest in Economic Choice: Further Tests of Social Capital and Dual Interests Theory**
Plaza Building, Concourse Level, Governor’s Square 16

**IBES Track Session**
Economic models often assume that rational economic agents allocate resources to maximize their own consumption of physical goods and services. Moreover, in most economic models, the identity of participants in an economic exchange does not affect the outcome. This session provides evidence supporting the contention that other motives besides selfishness influence the terms and levels of trade. The relative importance of selfishness versus other motives are compared using data collected from both survey based research and several experiments. The results are framed using both social capital and dual interests theory; the two theories are also contrasted and compared.

**Organizer:** Lindon Robison, Michigan State University; Gary Lynne, University of Nebraska  
**Moderator:** David R. Just, Cornell University  
**Discussant:** Philip Wandschneider, Washington State University

**Presentations:**
- An Empirical Test of the Relative Importance of Selfishness of Preferences  
  Lindon Robison, Michigan State University; Marcelo Siles, Northern Michigan University
- Conservation, Recycling, and Carbon Offsets Market Behavior: Tests of Dual Interests Theory  
  Marianna Khachaturyan and Gary Lynne, University of Nebraska

**2074 Econometric Examinations of Agricultural Productivity and Technological Change**
Tower Building, Terrace Level, Beverly Room

**AAEA Selected Paper Session**
These papers use econometric methods to examine the effect of government policies, technology adoption, and climate on agricultural productivity and technological change in a variety of countries.

**Moderator:** Madhu Khanna, University of Illinois at Urbana-Champaign

**Presentations:**
- Uncovering Productivity Growth in the Disaggregate: Indonesia’s Dueling Agricultural Sub-sectors  
  Nicholas Rada, USDA-Economic Research Service; Steven Buccola, Oregon State University; Keith Foglie, USDA-Economic Research Service
- Subsidies, Production Structure, and Technical Change—A Cross-country Comparison  
  Johannes Sauer, University of Manchester; Laure Latruffe, Institut National de la Recherche Agronomique; Nigel Key, USDA-Economic Research Service
- An Econometric Analysis of U.S. Crop Yields and Cropland Acre-age: Implications for the Impact of Climate Change  
  Haixiao Huang and Madhu Khanna, University of Illinois at Urbana-Champaign
- Agricultural R&D Lags from a Dual Perspective  
  Matthew Andersen and Xiaojia Yao, University of Wyoming

**2075 Economics of Biofuels**
Tower Building, Mezzanine Level, Century Room

**AAEA Selected Paper Session**
The production of biofuels has had many impacts on agriculture, including commodity prices and agribusiness stock prices. This session focuses on these factors and also looks at the economics of processing ethanol from sugarcane and the economics of producing renewable energy from agricultural waste.

**Moderator:** Jayson Beckman, USDA-Economic Research Service

**Presentations:**
- The Impact of Biofuel Policy on Agribusiness Stock Prices  
  Fatma Sine Tepe, University of Houston; Xiaodong Du and David Hennessy, Iowa State University
- Commodity Price Volatility in the Biofuel Era: An Examination of the Linkage between Energy and Agricultural Markets  
  Jayson Beckman, USDA-Economic Research Service; Thomas W. Hertel and Roman Keeney, Purdue University
- Economic Aspects of Renewable Energy Generation from Agricultural Waste on South Plains of Texas  
  Xiaolan Liu and Michael Farmer, Texas Tech University
- The Economics of Processing Ethanol at Sugarcane Mills: A Simulation Approach  
  Paul M. Darby, Tyler Mark, and Michael Salassi, Louisiana State University
CONCURRENT SESSIONS, MONDAY 4:00 PM-5:30 PM

2076  Econometric/Research Methods in Consumer Demand and Health Analysis
       Tower Building, Mezzanine Level, Colorado Room

AAEA Selected Paper Session
This session explores issues and methods relevant to food and health policy research. Topics include: econometric techniques utilizing microdata from food purchases, which accommodate the censored nature of these data; and the potential misuses of BMI as a measure of obesity and the use of hypothetical surveys as a proxy for real world behavior with an application to food purchases.

Moderator: Carlos Carpio, Clemson University

Presentations:
An Evaluation of the Soda Tax Using Multivariate Nonparametric Regression Models for Censored Data
Eric J. Belasco, Texas Tech University; Sujit Ghosh, North Carolina State University; Benaiissa Chidmi, Texas Tech University
Consumers’ Attitudes toward Origin Labels for Food Products: A Comparison of Hypothetical Survey Responses and Actual Shopping Behavior
Carola Grebitus, University of Bonn; Gregory Colson, University of Georgia; Luisa Menapace, Iowa State University; Maike Bruhn, University of Kiel
Quantifying Obesity in America: The Price of Using the Body Mass Index in Research and Public Health Policy
Julian Alston, Aaron Smith, and Joanna Parks, University of California, Davis
A Bayesian MCMC Approach to Censored System of Food Expenditures
Panagiotis Kasteridis and Steven Yen, University of Tennessee

2077  Commercial Fisheries Management
       Tower Building, Mezzanine Level, Denver Room

AAEA Selected Paper Session
This session explores the effects of climate change, the American Fisheries Act, slot limits, and nuisance species on fleet-level decision making and fishery dynamics. Methods include discrete choice models of location and supply decisions, and bioeconomic models of single and multi-species fisheries.

Moderator: Tina Willson, University of Wyoming

Presentations:
Modeling the Impacts of Climate Change on Fleet Behavior in the Bering Sea Pollock Fishery
Lisa Pfeiffer and Alan Haynie, NOAA Fisheries
The Potential Role of Management Regulations in Controlling Consumer Exposure to Contaminated Fishery Products
Tina Willson, University of Wyoming; Richard F. Kazmierczak Jr., Louisiana State University
Optimal Multi-species Harvesting in the Presence of a Nuisance Species
Stephen Kasperski, National Marine Fisheries Service

2078  Climate Change Impacts on International Agriculture
       Tower Building, Mezzanine Level, Gold Room

AAEA Selected Paper Session
This session examines responses to climate change in developing countries.

Moderator: David S. Kraybill, The Ohio State University

Presentations:
Adapting to Climate Extremes in East Africa through Trade
Syud Ahmed, World Bank; Noah S. Diffenbaugh, Stanford University; Thomas W. Hertel, Purdue University; David B. Lobell, Stanford University; William Martin, World Bank; Wolfram Schlenker, Columbia University
Agricultural Productivity and Anticipated Climatic Change in Sub-Saharan Africa: A Spatial Sample Selection Model
Patrick Ward and Raymond Florax, Purdue University; Alfonso Flores-Lagunes, University of Florida
Weather Vulnerability, Climate Change, and Food Security in Mt. Kilimanjaro
Francis Muamba and David S. Kraybill, The Ohio State University
Adaptation to Climate Change in a Rural Economy with Missing Markets
David S. Kraybill, The Ohio State University

2079  The Gravity of Technical Trade Barriers
       Tower Building, Mezzanine Level, Silver Room

AAEA Selected Paper Session
These four presentations measure the effects on trade flows of technical trade barriers. Gravity-equation approaches are often used to assess the impacts of technical trade barriers. In gravity models, trade flows are explained by distance, income (GDP), language, and other factors affecting trade such as tariffs or technical trade barriers. One challenge in estimating the effects of technical trade barriers is that there are often no metric available. Although all four of these presentations use gravity-equation approaches, they employ different methods to identify the effects of technical trade barriers.

Moderator: Sebastien Pouliot, Iowa State University

Presentations:
Aflatoxin Redux: Does European Aflatoxin Regulation Hurt Groundnut Exporters from Africa?
Bo Xiong and John Beghin, Iowa State University
It Happened All at Once: Switching Regressions, Gravity Models, and Food Safety
Norbert Wilson and Victoria Bray, Auburn University
ISO 14000 Standards: Voluntary Environmental Governance as a Trade Facilitation Strategy?
Kathryn Boys, Clemson University; Jason Grant, Virginia Tech
From "May Contain" to "Does Contain": The Price and Trade Effects of Strict Information Requirements for GM Soybeans and Maize under the Cartagena Protocol on Biosafety
Guillaume Gruere, Laetitia Leroy, and Antoine Bouet, International Food Policy Research Institute
Research presented includes the testing of a number of different consumer behavioral responses to food safety incidents. Experiments, surveys, and household time series analysis are used to examine cognitive dissonance in consumer response, evolution of food safety responses over time, spillover effects of perceived food risks on perceptions of other risks and across products, and perceptions of food risks that participants believe they can control and that generate the most worry.

**Moderator:** Alessandro Bonanno, Pennsylvania State University

**Presentations:**
- Cognitive Dissonance under Food-borne Risk
  - Ying Cao, David R. Just, and Brian Wansink, Cornell University
- Determinants of Survival of Spanish Consumers Facing the BSE Crisis
  - Jose Gil, Amr Radwan, and Teresa Serra, Centre de Recerca en Economia i Desenvolupament Agroalimentari
- Consumer Food Safety Perceptions: Spillovers across Products, Species, and Specific Risks
  - Glynn Tonsor, Kansas State University
- Using Best-Worst Scaling to Investigate Perceptions of Control and Concern over Food and Non-food Risks
  - Seda Erdem and Dan Rigby, University of Manchester

---

**2081 Institutional Analysis of Natural Resource and Renewable Fuels**

**Tower Building, Terrace Level, Terrace Room**

**AAEA Selected Paper Session**

The papers in this session analyze the institutions governing and influencing the organization and management of natural resources and the production of renewable fuels. Papers range from the management of common pool natural resources to supply contracting for cellulosic biofuel inputs, to regional differences in the development of bio-electricity.

**Moderator:** Michael Sykuta, University of Missouri

**Presentations:**
- Measuring the Compliance Cost of Nutrient Management Regulations for Ontario Dairy Farms
  - Kenneth Poon, University of Guelph
- Bioeconomic Modeling of Wetlands and Waterfowl in Western Canada: Accounting for Amenity Values
  - G. Cornelis Van Kooten, Patrick Withey, and Linda Wong, University of Victoria
- Cost-effectiveness of BMP Adoption: A Case Study Approach
  - Al Mussell and Claudia Schmidt, George Morris Centre
- Tree-base Intercropping in Eastern North America
  - Imran Toor, McGill University; Elwin G. Smith, Agriculture and Agri-Food Canada; Joann Whalen and Anwar Naseem, McGill University
- The Development of the Brazilian Bio-Electricity Market: A Comparative Institutional Analysis of Regional Differences
  - Guilherme Signorini, Michigan State University; Hamish Gow, Massey University; Christopher Peterson, Michigan State University

---

**2082 Milk Production and Marketing in Ontario**

**Tower Building, Second Level, Tower Court A**

**CAES Selected Presentation Session**

This session addresses contemporary concerns regarding the production and marketing of milk in Ontario.

**Moderator:** Brandon Schaufele, University of Western Ontario

**Presentations:**
- An Analysis of the Effect of Milk Compositional Standard on the Economic Efficiency of Ontario Dairy Farms
  - Shashini Ratnasena and Getu Hailu, University of Guelph
- A Demand System for Major Dairy Products in Ontario
  - Rakhal Sarker, University of Guelph; Heather Cassidy, Ministry of Agriculture, Food and Rural Affairs
- Are There Agglomeration Effects in Dairy Production? An Empirical Examination of Ontario’s Dairy Sector
  - Getu Hailu and Brady Deaton, University of Guelph
- Ontario Milk Quota Values: The Impacts of Attempts to Halt Their Growth
  - Alex Cairns, Nick Bennett, and Karl Meilke, University of Guelph

---

**2083 Natural Resource and Environmental Policy Analysis**

**Tower Building, Second Level, Tower Court B**

**CAES Selected Presentation Session**

This session examines how decisions involving the production and use of natural capital and of various co-products created through agricultural activities are affected by policy change.

**Moderator:** Brady Deaton, University of Guelph

**Presentations:**
- Measuring the Compliance Cost of Nutrient Management Regulations for Ontario Dairy Farms
  - Kenneth Poon, University of Guelph
- Bioeconomic Modeling of Wetlands and Waterfowl in Western Canada: Accounting for Amenity Values
  - G. Cornelis Van Kooten, Patrick Withey, and Linda Wong, University of Victoria
- Cost-effectiveness of BMP Adoption: A Case Study Approach
  - Al Mussell and Claudia Schmidt, George Morris Centre
- Tree-base Intercropping in Eastern North America
  - Imran Toor, McGill University; Elwin G. Smith, Agriculture and Agri-Food Canada; Joann Whalen and Anwar Naseem, McGill University
CONCURRENT SESSIONS, MONDAY 4:00 PM-5:30 PM

2084  Niche Marketing and Evolving Consumer Preferences
Tower Building, Second Level, Tower Court C

CAES Selected Presentation Session
This session empirically assesses the economic impacts of commodity specific marketing, and consumer perceptions and attitudes towards niche and local food markets.

Moderator: Paul J. Thomassin, McGill University
Presentations:
Advertising of Fruits and Vegetables: Understanding the Effects of Commodity-specific and Broad-based Promotion Programs Using Experimental Economics
Bradley Rickard, Jura Liaukonyte, and Harry Kaiser, Cornell University; Timothy Richards, Arizona State University
Farm Survival on the Urban Fringe—The Economic Impacts of Niche and Direct Marketing Strategies
Alison J. Eagle, Duke University; G. Cornelis Van Kooten, Robin Tunnicliffe, and Martha McMahon, University of Victoria
The Effect of Attitudinal and Socio-demographic Factors on the Likelihood of Buying Locally-produced Food
John Cranfield, Spencer Henson, and Jose Blandon, University of Guelph
Fair Trade Coffee: Marketing and Consumer Willingness-to-Pay in China
Wuyang Hu, University of Kentucky; Yulian Ding, University of Alberta

2085  Current Issues in Canadian Agri-food Trade, Sponsored by CATPRN
Tower Building, Second Level, Tower Court D

CAES Organized Symposium
For Canadian agriculture and agri-food industries that are not closely integrated with global markets, specifically supply-managed industries, new multilateral and bilateral trade agreements could have significant effects on the distribution of welfare throughout the supply chains. This symposium will showcase the contributions of the Canadian Agricultural Trade Policy and Competitiveness Research Network (CATPRN) in examining these issues of market integration and access and provide a forum to discuss some of the international trade-related issues facing the Canadian agriculture and agri-food sector. Four papers, each based on projects that have received funding from the CATPRN, will be presented and discussed.

Organizer: Ryan Cardwell, University of Manitoba
Moderator: Ryan Cardwell, University of Manitoba
Presentations:
Detecting mCOOL Impacts on U.S.-Canada Bilateral Hog Trade Flows
James Rude, University of Alberta; Jean-Philippe Gervais, North Carolina State University
Canada-EU Free Trade Agreement: Will Agriculture Be an Issue?
William A. Kerr, University of Saskatchewan; Crina Viju, Carleton University
Trade Liberalization and Canada’s Chicken Industry: Welfare Effects under Alternative Modeling Strategies
Juanita Rafajlovic, Agriculture and Agri-Food Canada; Ryan Cardwell, University of Manitoba
The Korea-Canada FTA: Conflict over Beef
Richard Barichello, University of British Columbia

Tuesday, July 27, 2010
8:00 AM-9:30 AM

3001  Teaching on a Tight Budget: What Do We Do with More Students and Less Resources?
Plaza Building, Concourse Level, Plaza Court 1

CWAE and TLC Section Track Session
"Doing more with less" has become a challenge across most departments in recent years. With larger and more classes to teach, no or fewer TAs, and an increasing need to manage our academic portfolios productively, many professors are now trying to determine how best to design classes so that students do not lose the opportunity to learn. Relevant questions include: Do we change assessment strategies? Teaching strategies? Delivery strategies and technologies used? This track session will offer the opportunity to hear the experiences and insights of highly regarded teachers in our profession and to discuss innovative teaching techniques.

Organizer: James Sterns, University of Florida; Paul Wilson, University of Arizona
Moderator: Paul Wilson, University of Arizona
Presentations:
Doing More with Less
Bruce Beattie, University of Arizona
Teaching Cases in Large Classrooms
Lisa House, University of Florida
Preserving Classroom Learning in Large Classes
Frank J. Dooley, Purdue University

3002  New Evidence on the Structure of Agricultural and Food Markets
Plaza Building, Concourse Level, Plaza Court 2

FAMPS Track Session
In the wake of renewed interest in the nature of competition in U.S. agricultural and food markets on the part of U.S. Departments of Justice and Agriculture, this session provides a format for the most recent empirical evidence on the structure of agricultural markets. Emphasis will be on new findings based on recent changes in market structure and institutions as well as new empirical methods.

Organizer: Joseph V. Balagtas, Purdue University
Moderator: Joseph V. Balagtas, Purdue University
Presentations:
Joseph V. Balagtas and Metin Cakir, Purdue University
Price Analysis of the U.S. Biotech Seed Market
Kyle Stiegert, Guanming Shi, and Jean-Paul Chavas, University of Wisconsin
Are Food Prices Always Lower at Wal-Mart?
Ephraim Leibtag and Catherine Barker, USDA-Economic Research Service
Breakfast of Champions: Pricing Relationships in Milk and Cereal
Timothy Richards and Geoffrey Pofahl, Arizona State University
CONCURRENT SESSIONS, TUESDAY 8:00 AM-9:30 AM

**3003** | The Nascent Bioeconomy for Industrial Markets: Green Goes from Plant Material to Spandex  
**AEM Section Track Session**  
The explosion of biotechnology has created opportunities for innovation in plant materials, allowing agriculture to provide inputs into numerous industrial markets and in pharmaceuticals and medicine. The market share for bio-based inputs has been increasing and future growth opportunities are positive as governments, business, and consumers push for renewables. The papers included in this session assess the industrial supply chain economic and management challenges confronting this nascent industry. They assess the industry’s drivers, evaluate complementary assets as a new product development bridge to supply chains, and examine the implications of renewable inputs for firm-level decision-making throughout the supply chain.  
Organizer: Michael Boehlje, Purdue University  
Moderator: Christopher Peterson, Michigan State University  
Discussant: Christopher Peterson, Michigan State University  
**Presentations:**  
The Bioeconomy in Agri-food and Industrial Supply Chains  
Michael Boehlje and Maud Roucan-Kane, Purdue University  
The Role of Renewable Polymers in the Bioeconomy: Analysis of Interactive Sectors and Complementary Assets  
Thomas Sporleder, The Ohio State University; Peter Goldsmith, University of Illinois at Urbana-Champaign  
Managing Innovation in the Bioeconomy  
Allan Gray, Purdue University

**3004** | Price Analysis and Carbon Management  
**AAEA Selected Paper Session**  
The first two papers examine price analysis issues related to volatilities in corn futures and the speculative behavior of ethanol production. The other two papers examine farm management issues affecting carbon sequestration and footprint.  
Moderator: Kuo-Liang Chang, South Dakota State University  
**Presentations:**  
Carbon Footprint: A New Farm Management Consideration in the Southern High Plains  
Justin Weinheimer, Phillip Johnson, Nithya Rajan, and Stephen Maas, Texas Tech University  
Forecasting Volatilities of Corn Futures in Distant Horizons  
Feng Wu and Zhengfei Guan, Michigan State University  
Testing for Speculative Behavior in U.S. Corn Ethanol Production  
Subbu Kumarappan, Michigan State University; Cole Gustafson, North Dakota State University  
An Economic Analysis of No-till Crop Rotations and Effects on Carbon Sequestration and Long Term Sustainability of Agriculture  
Larry L. Janssen and Justin Harer, South Dakota State University

**3005** | Inferring WTP from Demand Estimates  
**AAEA Selected Paper Session**  
This session collects four studies on using demand estimates to infer people’s willingness-to-pay for various things.  
Moderator: David Ward, University of Tennessee  
**Presentations:**  
Factors Influencing Willingness-to-Pay for the Energy Star Label  
David Ward, Christopher Clark, Kimberly Jensen, and Steven Yen, University of Tennessee  
Conjoint Analysis of Consumer Willingness-to-Pay for Ethanol Blend Fuels  
Francisco Aguilar and Wyatt Thompson, University of Missouri  
Value of Beef Steak Branding: Hedonic Analysis of Retail Scanner Data  
Lee Schultz, and Ted Schroeder, Kate White, Kansas State University

**3006** | Retail Strategies  
**AAEA Selected Paper Session**  
This session includes proposed contributions related to retail strategy.  
Moderator: Sven Anders, University of Alberta  
**Presentations:**  
The Impact of Wal-Mart Supercenters on Supermarkets’ Profit Margins  
Xiaou Liu, Shandong University; Rigoberto Lopez, University of Connecticut  
National Brand and Private Label Pricing and Promotional Strategy  
Richard Volpe, University of California, Davis  
Slotting Allowances and Product Variety in Supermarket Retailing  
Stephen Hamilton, California Polytechnic State University, San Luis Obispo; Robert Innes, University of Arizona  
Dynamic Informative Advertising of New Experience Goods  
Alexander Saak, International Food Policy Research Institute

**3007** | Food, Health, and Households  
**AAEA Selected Paper Session**  
Health outcomes are based in part on complicated household decisions regarding food purchases and time allocations. This session looks at these issues with evidence from Afghanistan, Nigeria, Russia, and the United Kingdom.  
Moderator: Sean B. Cash, University of Wisconsin  
**Presentations:**  
Obesity and Labor Market Outcomes During the Transition in Russia  
Sona Huffman, Iowa State University; Marian Rizov, Middlesex University  
Price Shocks, Food Security, and Coping Mechanisms: Household Evidence from Afghanistan  
Anna D’Souza, USDA-Economic Research Service; Dean Jolliffe, World Bank  
A Penny Saved: Prices over the Paycheck Cycle  
Timothy Beatty, University of York  
Disentangling the Relationship between Food Insecurity and Family Structure: The Roles of Social Networks/Social Capital in Nigeria  
Oluyemisi Kuku, Iowa State University; Lenis Saweda Liverpool, International Food Policy Research Institute
**High Calorie Food Policies**

**Plaza Building, Concourse Level, Plaza Court 8**

**AAEA Selected Paper Session**

The papers in this session examine different approaches, including taxes and restrictions on availability, and influencing food choices.

**Moderator:** Keith Coble, Mississippi State University

**Presentations:**

- Effects of a Sugar-sweetened Beverage Tax: Beverage Consumption, Food Energy, Obesity, and Burden by Income Status
  - Biing-Hwan Lin and Travis A. Smith, USDA-Economic Research Service; Jong-Ying Lee, University of Florida

- On Taxing Sugar-sweetened Beverages to Combat the Obesity Problem
  - Senarath Dharmasena and Oral Capps Jr., Texas A&M University

- The Distributional Consequences of a Fiscal Food Policy: Evidence from the UK
  - Matthew Salois and Richard Tiffin, University of Reading

- Does Limited Access at School Result in Compensation at Home?—The Effect of Soft Drink Bans in Schools on Purchase Patterns outside of Schools
  - Rui Huang, University of Connecticut; Kristin Kiesel, California State University, Sacramento

---

**COSBAE’s Role and Legacy of Achievements within AAEA**

**Plaza Building, Concourse Level, Governor’s Square 10**

**AAEA Organized Symposium**

This proposed session is a part of COSBAE’s planned set of activities commemorating AAEA centennial. For the past 30 years, COSBAE has prospered in its mission to "promote the welfare of black agricultural economists by representing their interests within the association and by engaging in activities which have encouraged their professional advancement." COSBAE continues to play a vital role in research and outreach at AAEA and other professional meetings.

**Organizer:** Duncan M. Chembezi, Alabama A&M University; Christopher Davis and Doris Newton, USDA-Economic Research Service; Blondel A. Brinkman, USDA-Animal and Plant Health Inspection Service

**Moderator:** Christopher Davis, USDA-Economic Research Service; Blondel A. Brinkman, USDA-Animal and Plant Health Inspection Service

**Panelist:** Otto Doering III, Purdue University; Alfred Parks, Prairie View A&M University; Ntam Baharanyi, Tuskegee University; Handy Williamson Jr., University of Missouri; Doris Newton, USDA-Economic Research Service

---

**Fifty Years of Choice Modeling**

**Plaza Building, Concourse Level, Governor’s Square 12**

**Econometrics Section Track Session**

Qualitative choice models have been used extensively in economics to quantify individual and organizational choices. This session will review the literature on choice modeling over the past fifty years, with an emphasis on recent developments in modeling ordered choices. The audience will acquire a condensed literature on the subject and be introduced to some developments of applied research potential. The review of literature will cover applications in agricultural and resource economics over recent decades and a guide to existing software packages will be provided through simulations.

**Moderator:** Hector O. Zapata, Louisiana State University

**Presentations:**

- The Theory and Practice of Modeling Ordered Choices
  - William H. Greene, New York University

- Agricultural and Resource Economics Applications of Discrete Choice Models
  - Joseph Herriges, Iowa State University

- A Guide for Estimating Choice Models with Competing Software Packages
  - Jayson Lusk, Oklahoma State University
**Concurrent Sessions, Tuesday 8:00 AM-9:30 AM**

### 3012 Risk Issues at the Interface of Extension and Research

*Plaza Building, Concourse Level, Governor’s Square 14*

**ARA Section and Extension Section Track Session**

Extension and research often approach the issue of risk from different perspectives. Extension specialists are frequently looking at ways to help minimize risk for farmers. In addition, many extension specialists spend time trying to educate farmers about the consequences of risk. Researchers, by contrast, are often involved with trying to model or explain farmer’s behavior in regard to risk.

**Organizer:** Gregory Ibendahl, Mississippi State University

**Presentations:**
- Marketing Risk
  - John Anderson, American Farm Bureau Federation
- Production Risk
  - Steven Klose, Texas A&M University
- Financial Risk
  - Brent Gloy, Cornell University

*Plaza Building, Concourse Level, Governor’s Square 15*

**AAEA Invited Paper Session**

This session is designed to underline the rapidly growing interest in the interaction between international trade and the environment, and recent developments in related trade and climate change policies in the United States. Thus, this session aims to offer attendees updated knowledge of the impact of trade liberalization on the environment, the consequences of proposed U.S. climate policy on trade, and the current challenges of utilizing climate and trade policies to balance competitiveness and environmental benefits in the U.S. economy.

**Organizer:** Tun-Hsiang Yu, University of Tennessee; Man-Keun Kim, University of Nevada at Reno

**Moderator:** Bruce McCarl, Texas A&M University

**Discussant:** Bruce McCarl, Texas A&M University

**Presentations:**
- Assessment of Environmental Impacts Embodied in Trade and Related Climate Change Policies: The Case of the United States and China
  - Xiaodong Du, Fengxia Dong, Dermot J. Hayes, and Tristan Brown, Iowa State University
- Does Trade Liberalization Induce More Greenhouse Gas Emissions? The Case of Mexico and the United States under NAFTA
  - Tun-Hsiang Yu, University of Tennessee; Man-Keun Kim, University of Nevada at Reno; Seong-Hoon Cho, University of Tennessee
- Is There Anything New about Border Tax Adjustments and Climate Policy?
  - Ian Sheldon, The Ohio State University

### 3014 Green, Blue, and Brown: Assessing the State of the Economics of Forests, Water, and Grass in Rural China

*Plaza Building, Concourse Level, Governor’s Square 16*

**China Section Track Session**

This session includes three papers, each of which looks at the economics of one of the three different resources in the rural sector: the management of the forest for energy (the green); the management of water for irrigation (the blue); and the impact of road on the grasslands (the brown). All papers are based on primary data or unique sets of data that will give the session a rich empirical focus. They all apply state of the art analytical approaches, and all focus on policy.

**Organizer:** Scott Rozelle, Stanford University

**Moderator:** Jikun Huang, Center for Chinese Agricultural Policy

**Presentations:**
- Impact of Forest Land Tenure Reform on Energy Choice: Empirical Evidence from Fujian, China
  - Emi Uchida, University of Rhode Island
- Do Roads Lead to Grassland Degradation or Restoration? A Case Study in Inner Mongolia, China
  - Xiangzheng Deng, Center for Chinese Agricultural Policy; Scott Rozelle, Stanford University
- Surface Water Irrigation Management in Northern China in the Past Decade: Development and Assessment
  - Qiuqiong Huang, University of Minnesota

### 3015 Behavioral Economics Research Approaches: Innovative Applications in Nutrition and Food Safety

*Plaza Building, Concourse Level, Governor’s Square 17*

**FSN Section and IBES Track Session**

This session presents findings from current research using distinct methodologies applied to consumption choice problems that affect nutrition and health status. Household economic modeling, economic experiments, and conjoint analysis in a survey setting will be demonstrated and the findings reported in this session.

**Organizer:** Jebaraj Asirvatham, University of Illinois at Urbana-Champaign

**Moderator:** Jebaraj Asirvatham, University of Illinois at Urbana-Champaign

**Presentations:**
- Impact of Age-varying Child Time Allocations on Child Development and Nutrition Status
  - Mark Agee, Pennsylvania State University
- Using Mother’s Hyperbolic Time Preferences and Loss-aversion Measurements to Explain Household Weight
  - Mariah D. Ehmke, University of Wyoming
- Who Is Most Responsible for Ensuring the Meat We Eat Is Safe?
  - Seda Erdem, Grada Wossink, and Dan Rigby, University of Manchester

AAEA, CAES, & WAEA Joint Annual Meeting
Denver, CO • July 25–27, 2010
3016 Renewable Fuels/Biofuels and Trade
Tower Building, Terrace Level, Beverly Room

AAEA Selected Paper Session
The four presentations in this session investigate the trade of biofuel. The first two presentation focus on effects of the tariffs imposed by the United States on the imports of ethanol, which affects Brazil exports in particular. The third presentation challenges the findings by the EU that the recent changes in U.S. blender’s tax credit lead to the dumping of U.S. biofuel. Finally, the fourth presentation analyzes the impact of biofuel on the fuel market, assuming that the oil market is dominated by a cartel of oil-rich countries.

Moderator: Harry de Gorter, Cornell University

Presentations:
The Effects of Alternative Energy Sources on the International Oil Market
Gal Hochman and David Zilberman, University of California, Berkeley

Spatial Equilibrium in the Biofuel Economy: A Multi-market Analysis of Trade Distortions in the U.S. and Brazilian Ethanol Sector
William H. Bowser II, Madhu Khanna, and Hayri Onal, University of Illinois at Urbana-Champaign

On the EU–U.S. Biodiesel “Splash and Dash” Battle: Causes, Consequences, and Policy Recommendations
Harry de Gorter, Dusan Drabik, and David R. Just, Cornell University

Ethanol Trade between Brazil and the United States
Martin Kuffel, Hochschule für Technik und Wirtschaft Berlin; Stephen Devadoss, University of Idaho

3017 Spatial Analysis of Land Use and the Environment
Tower Building, Mezzanine Level, Century Room

AAEA Selected Paper Session
The papers in this session analyze water use, conservation, and pricing at high levels of spatial or temporal resolution. Policy implications of heterogeneous land and groundwater characteristics, crop and irrigation decisions, water availability within a growing season, and water users are discussed. Methods include positive mathematical programming, integrated hydro-economic models, and econometric methods.

Moderator: Kristiana Hansen, University of Wyoming

Presentations:
The Impact of Spatial Variation in Land Use Patterns and Aquifer Characteristics on the Agricultural Cost of Groundwater Conservation for the Southern Ogallala Aquifer
David B. Willis, Clemson University; Jeff Stovall, Espey Consultants, Inc.; Jeffrey Johnson, Erin Wheeler-Cook, and Ken Rainwater, Texas Tech University

Disaggregated Spatial Modeling of Irrigated Land and Water Use
Pedro V. Garay, Jeffrey M. Peterson, and Craig M. Smith, Kansas State University

Monitoring of Compliance in Western Australian Conservation Contracts
Bronwyn Croke, Ben White, and David Pannell, The University of Western Australia

3018 Childhood Nutrition and Health
Tower Building, Mezzanine Level, Colorado Room

AAEA Selected Paper Session
Nutritional outcomes for children can have lasting impacts on human capital accumulation and welfare. Yet, because of children’s reliance on caregivers, these outcomes can be heavily shaped by other forces, including social norms and political processes—especially as they affect women. The papers in this session provide empirical perspectives on this crucial intersection of children, women, and nutrition.

Moderator: Christopher B. Barrett, Cornell University

Presentations:
Socioeconomic Distance as a Determinant of Female Autonomy and Child Welfare
Kathy Baylis and Eeshani Kandpal, University of Illinois at Urbana-Champaign

Unpacking the Links Between Women’s Empowerment and Child Nutrition: Evidence Using Nationally Representative Data from Bangladesh
Priya Bhagowalia, TERI University; Purnima Menon and Agnes R. Quisumbing, International Food Policy Research Institute; Vidhya Soundararajan, Independent Consultant

The Impact of Decentralization on Child Nutritional Status in Arid and Semi-Arid Kenya
Felix Naschold and Christopher B. Barrett, Cornell University; Nancy Johnson, International Livestock Research Institute

3019 Contracts
Tower Building, Mezzanine Level, Denver Room

AAEA Selected Paper Session
This session presents new developments in contracts and supply chain.

Moderator: Brent Hueth, University of Wisconsin

Presentations:
Production Contracts and the Spot Market Price of Hogs
Nigel Key, USDA-Economic Research Service

Managing Quantity, Quality, and Timing in Cane Sugar Production: Ex-post Marketing Permits or Ex-ante Production Contracts?
Sandhyarani Patlolla, University of California, Davis

Does Government’s Biofuel Incentive Payment Program Work in the Presence of Asymmetric Information?
Thein Maung, North Dakota State University; Yan Yuan, Southwestern University of Finance and Economics

Optimal Contracting for Cattle Feeding: An Assessment of Climatic Conditions
Shaikh M. Rahman, Texas Tech University
The papers in this session address the details of production function estimation. The topics are varied, including advanced regression techniques, pest damage function estimation, aggregate agricultural supply estimation, and identifying technical change in the industrial sector.

**Moderator:** Catherine Morrison Paul, University of California, Davis

**Presentations:**
- Distinguishing Different Industry Technologies and Localized Technical Change
  Johannes Sauer, University of Manchester; Catherine Morrison Paul, University of California, Davis
- A Fully Calibrated Generalized CES Programming Model of Agricultural Supply
  Pierre Merel, University of California, Davis; Leo Simon, University of California, Berkeley; Fujin Yi, University of California, Davis
- An Unbalanced Nested Error Component Model for Estimating Pest Damage Functions
  Paul Mitchell and Zhe Dun, University of Wisconsin
- Analyzing the Determinants of Technical Efficiency among Traditional Dairy Farms in Wisconsin: A Quantile Regression Approach
  Benaissa Chidmi, Texas Tech University; Daniel Solis, Rosenstiel School of Marine and Atmospheric Science; Madhiha Zaffou and Margit Funtanilla, Texas Tech University

The papers in this session provide new insights into modeling and responding to risks inherent in ecological and biological systems. New approaches are developed to examine plant and animal disease spread. Also, responses are examined for agents facing wildfire risk and disease forecasts.

**Moderator:** Travis Lybbert, University of California, Davis

**Presentations:**
- Spatio-temporal Model for Agricultural Yield Prediction
  Oleksiy Tokovenko, Jeffrey Dorfman, and Lewell F. Gunter, University of Georgia
- Embedding a Field Experiment in Contingent Valuation to Measure Context-dependent Risk Preferences: An Application to Wildfire Risk
  Kimberly Rollins and Mimako Kobayashi, University of Nevada at Reno
- Economics of Robust Surveillance of New and Exotic Animal Diseases: The Case of Bluetongue
  L. Roman Carrasco, National University of Singapore; Diogo M. Souza Monteiro, University of Kent; L. Joe Moffitt, University of Massachusetts Amherst; Alasdair J. C. Cook, Veterinary Laboratories Agency
- Powdery Mildew Risk and Forecasting in Wine Grapes: Do Growers Change Risk Management Strategies in Response to Disease Forecasts?
  Travis Lybbert, W. Douglas Gubler, and Nicholas Magnan, University of California, Davis
This session empirically examines financial factors that have an effect on basis risk, participation in crop insurance, and the general economic performance of the agricultural sector.

Moderator: Danny LeRoy, University of Lethbridge

Presentations:
- Acreage Response for Processing Vegetables in the Great Lakes Region
  Bradley Rickard, Cornell University; Joseph V. Balagtas, Purdue University
- Whole Farm Income Insurance in a Canadian Context
  Calum Turvey, Cornell University
- Factors Affecting Discontinuous Participation in Crop Insurance
  Bharat M. Upadhyay, Agriculture Financial Services Corporation; Elwin G. Smith, Agriculture and Agri-Food Canada
- Impact of Preferential Tax Measures in the Performance of Canadian Agriculture
  Fabrice Nimpagariste, Government of Canada

This session focuses on the farm-level economic performance of biofuel production and genetically engineered crop varieties.

Moderator: Alison J. Eagle, Duke University

Presentations:
- Farm-level Impacts of Genetically Engineered Crops: The Case of Grain Corn and Soybeans in Quebec and Ontario
  Bishnu P. Saha and Verna M. Mitura, Statistics Canada; Rakhal Sarker, University of Guelph
- Economic Performance of Bt Cotton Varieties in Pakistan
  Hina Nazli, Rakhal Sarker, and Karl Meilke, University of Guelph; David Orden, International Food Policy Research Institute
- Assessing Shifts in Marginal Agricultural Land Use for Second-generation Biofuel Production—An Analysis Using Agent-based Simulation
  Leigh Anderson, Richard Schoney, and James Nolan, University of Saskatchewan
- The Economic Feasibility of Bioenergy Production from Miscanthus on the Ontario Greenhouse Industry
  Tasneem Virani, Richard Vyn, and Bill Deen, University of Guelph

The past decade has seen important structural changes in the Canadian meat sector as a response to long term trends, like the concentration of market power, increased food and feed prices, and trade liberalization, but also in reaction to more recent external shocks, such as diseases, bacterial contaminations, and labor conflicts. This session will examine varying aspects of the meat sector, assessing the economic impacts of important changes and shocks on producers and processors, how they have translated into changes in the sector, and proposing new solutions. The discussion will elaborate on these issues and explore the broader policy implications.

Organizer: Bruno Larue, Université Laval

Moderator: Bruno Larue, Université Laval

Presentations:
- Market Power and Instability in the Canadian Livestock Industry
  J. Stephen Clark, Nova Scotia Agricultural College
- The Economics of Hog Marketing Reforms in Quebec
  Jean-Philippe Gervais, North Carolina State University; Remy Lambert, Université Laval
- Vertical Coordination and Trade Liberalization in Canada’s Poultry’s Industry
  Sébastien Pouliot, Iowa State University; Bruno Larue, Université Laval
- The Economics of Livestock Disease: Supply Chain Competitiveness and Policy Implications
  Jill Hobbs, University of Saskatchewan

Industry professionals with graduate degrees will discuss a current policy topic and how it applies to their respective firm. Speakers from the beef and energy industries will address policy issues.

Moderator: Michael Boland, Kansas State University

Panelist: Greg Doud, National Cattlemen’s Beef Association; Troy Thompson, Chevon Services Company

Industry professionals with graduate degrees will discuss a current policy topic and how it applies to their respective firm. Speakers from the financial services industry, an international development center, and a policy advocate will address policy issues.

Moderator: Gulnara R. Zaynutdinova, Washington State University

Panelist: Kevin Hoelscher, American Express; Dustin Clevenger, Gavilon Group
3030  Graduate Student Competition in Extension—
Winners’ Presentations
Plaza Building, Concourse Level, Plaza Court 1

Extension Section and GSS Track Session
This session allows the three winners of the Graduate Student Extension Competition to make their competitive presentations to all meeting registrants. These new professionals will be selected for their ability to develop an extension or outreach program for their thesis research. The criteria for selection includes identification of the target audience, development of an educational program for that audience including the implications of the research for the audience, explanation of how the proposed program could be delivered, and how its effectiveness would be evaluated. The winners will be selected in a competition held on site prior to the session.

Organizer: Frayne Olson, North Dakota State University; Margaretha Rudstrom, University of Minnesota
Moderator: Margaretha Rudstrom, University of Minnesota; Frayne Olson, North Dakota State University
Panelist: Frayne Olson, North Dakota State University

3031  The Contribution of Agricultural Economics to the Understanding of International Economic Development
Plaza Building, Concourse Level, Plaza Court 2

International Section Track Session
This session will combine a presentation of an article that appeared in the Special Centennial Issue of the AJAE on Agricultural Development by co-authors Chris Barrett, Michael Carter, and Peter Timmer, with a panel discussion of these issues by luminaries cited in the paper, including Gershon Feder and Tom Reardon. The objective of the session is to stimulate broad discussion about the evolution of thought on issues of agricultural development and of key areas for future research on this topic.

Moderator: Michael Carter, University of California, Davis
Discussant: Gershon Feder, International Food Policy Research Institute; Thomas Reardon, Michigan State University

Presentations:
A Century-long Perspective on Agricultural Development
Michael Carter, University of California, Davis; Peter Timmer, Harvard University; Christopher B. Barrett, Cornell University

3032  Food, Fuel, and Forest: Climate Change and Land Use Issues in the 21st Century
Plaza Building, Concourse Level, Plaza Court 3

International Section Track Session
Different countries have differing starting conditions and differing philosophies that lead to different approaches to climate change mitigation policies which have different implications for agriculture and rural areas. This session will explore climate change policy approaches that are evolving in Europe, United States, Brazil, and China and how they could impact and interact with food, fuel, and land markets. Comparison and discussion of perspectives from four quite different regions and the global context of these differences will contribute to better understanding of the policy differences and how economists have contributed or could contribute to framing and clarifying policy choices.

Moderator: William Meyers, University of Missouri
Panelist: Eustaquio Reis, Institute for Applied Economics Research; Jikun Huang, Center for Chinese Agricultural Policy; Patrick Westhoff, University of Missouri; Jadwiga Ziółkowska, University of California, Berkeley
Discussant: Suchada Langley, USDA-Economic Research Service; Vincent Smith, Montana State University

3033  Biofuel and Alternative Energy
Plaza Building, Concourse Level, Plaza Court 4

AAEA Selected Paper Session
The papers in this session address issues related to biofuel production. One paper examines how the biofuel industry has changed drivers of producer land allocation decisions and explores how the passage of the 1996 Farm Act impacted crop allocations in the Southern United States. The other paper evaluates environmental efficiencies among a sample of corn ethanol plants in the Midwest. It examines differences across decision-making units (DMUs) in life-cycle CO2-equivalent emissions per gallon of ethanol produced and measures shadow prices for reducing GHGs by reallocating among inputs and outputs.

Moderator: Charles Moss, University of Florida

Presentations:
Environmental Efficiency among Corn Ethanol Plants
Juan P. Sesmero, Richard Perrin, and Lilyan Fulginiti, University of Nebraska

The Effect of U.S. Energy Policy and Farm Program Payments on the Biofuel Sector: A Regime-switching Approach
Charles Moss, University of Florida; Ashok Mishra and Tyler Mark, Louisiana State University
Increasing concerns about the link between public health and diet related diseases help identify a number of unresolved questions about the determinants of healthy food behaviors. In this session, the links between diet quality and food costs, food store location, individual nutrition knowledge and health motivation, and nutrition labeling are each examined. Methods range from the use of designed surveys to analysis of existing ongoing data collected (NHANES, CSFII), all aimed at the determinants of individual behavior.

**Moderator:** Seda Erdem, University of Manchester

**Presentations:**
- Consumer Demand for Healthy Diet: New Evidence from Healthy Eating Index
  Zhifeng Gao and Jong-Ying Lee, University of Florida; Xiaohua Yu, Georg-August-Universität Göttingen
- Adult Obesity and Food Stores’ Density—Evidence from State-level Data
  Alessandro Bonanno and Stephan Goetz, Pennsylvania State University
- The Effects of Educational Campaign Efforts and Standardization of Nutritional Labels of the Nutrition Labeling and Education Act (NLEA) on Diet Quality
  Jebaraj Asirvatham and Paul McNamara, University of Illinois at Urbana-Champaign

New product developments, product pricing, and firms’ positioning strategies are major factors in firms’ growth and profitability. This session focuses on these factors as well as the characteristics of farm market managers that influence success.

**Moderator:** Leigh Maynard, University of Kentucky

**Presentations:**
- Willingness-to-Pay for New Products in a University Foodservice Setting
  Ronald Childress, Lucas Goodman, Xiao He, Sam Kaninda Tshikala, Marie Pelton, Devie Poerwanto, Chinh Tran, Michele Volland, Zijuan Zheng, Guzhen Zhou, and Leigh Maynard, University of Kentucky
- Farmers Markets: Characteristics of Market Managers and Other Factors Influencing Market Organization
  Arbindra Rimal, Jessica E. Bailey, and Benjamin Onyango, Missouri State University
  Eric Micheels, University of Illinois at Urbana-Champaign; Hamish Gow, Massey University

The papers in this session address a variety of input use issues including pesticide use, refuge policies with GM crops, labor issues, and land use projects.

**Moderator:** Elizabeth Yeager, Kansas State University

**Presentations:**
- Efficient Refuge Policies for Bt Cotton in India
  Rohit Singla, Phillip Johnson, and Sukant Misra, Texas Tech University
- Impact of Land Readjustment Projects on Farmland Use and Structural Adjustment: The Case of Niigata Prefecture
  Yutaka Arimoto, University of Tokyo
- Agricultural Employment Patterns of Migrant Workers in the United States
  Jennifer E. Cairns and Francis C. Smart, Michigan State University; Steven Zahniser, USDA-Economic Research Service; William Kandel, Michigan State University
- Benefits to Regional Pest Management: Estimating the Spatial Externalities of Conventional Pesticide Use on Beneficial Insects in the California Citrus Industry
  Kelly A. Grogan, University of California, Davis

Topics in this session include the roles of exchange rates and income, and the implications of U.S. renewable fuel policies and the Special Safeguard Mechanism (SMS) in agriculture.

**Moderator:** Koichi Yamaura, Kansas State University

**Presentations:**
- Long-term Effects of the U.S. Renewable Fuel Standard on World Hunger
  Henry Bryant, Jiamin Lu, James Richardson, and Joe Outlaw, Texas A&M University
- Potential Implications of the Special Safeguard Mechanism (SSM) in Agriculture
  Thomas W. Hertel, Purdue University; William Martin, World Bank; Amanda Leister, Purdue University
- Food Consumption for the Poor: A Supply or An Income Issue? Evidence from Less-favored Regions in Rural China
  Jing Zhu, Nanjing Agricultural University; Denise Hare, Reed College; Funing Zhong, Nanjing Agricultural University
- The Role of Exchange Rates and Domestic Policies on Global Rice Food Security
  Nelissa Jamora, Michigan State University; Harold Glenn Valera, Mary Joanne Matriz, Imelda Molina, and Samarendra Mohanty, International Rice Research Institute;
CONCURRENT SESSIONS, TUESDAY 9:45 AM-11:15 AM

3038 Issues in Climate Change and Biofuels
Plaza Building, Concourse Level, Governor’s Square 9

AERE Session
This session will address issues in climate change with emphasis on the interaction with agriculture and biofuels. The first paper explores the effects of biofuels on food prices using general equilibrium. The second paper examines how capacity constraints affect the price path of oil when the availability of renewable fuel sources implies that a larger share should be extracted immediately. The third paper examines the link between carbon prices, conversion of cropland into forests, and crop prices in a rational expectations framework. The fourth paper tests whether Nigerian families use migration to hedge against income shocks from weather-induced agricultural profit variability.

Moderator: David Zilberman, University of California, Berkeley
Discussant: Marc Gronwald, Ifo Institute for Economic Research; Jerome Dumortier, Iowa State University; Valerie Mueller, International Food Policy Research Institute; JunJie Wu, Oregon State University

Presentations:
Interactions between Food Prices, Energy Markets, and Biofuel Policies: A General Equilibrium Analysis
Christian A. Langpap and JunJie Wu, Oregon State University
The Green Paradox and the Capacity Building Decision
Marc Gronwald and Markus Zimmer, Ifo Institute for Economic Research
Agricultural Production in the Context of Rational Expectations and Greenhouse Gas Policies
Jerome Dumortier, Iowa State University
Migratory Responses to Climate Change in Northern Nigeria
Valerie Mueller, Andrew Dillon, and Sheu Salau, International Food Policy Research Institute

3039 Genetically Modified Food and Welfare—II
Plaza Building, Concourse Level, Governor’s Square 10

AAEA Organized Symposium
An edited book, Genetically Modified Food and Global Welfare consisting of commissioned chapters, is currently being put together by Giancarlo Moschini, Colin Carter, and Ian Sheldon. Due to the fact that this project is still in its early stages, the objective of this symposium is to bring together several of the book’s authors in order to generate and facilitate an informal discussion of the status of research in this area. Authors of chapters on analytical perspectives, empirical findings, and regulatory issues will give a very brief synopsis of the early drafts of their chapters, followed by informal discussion.

Organizer: GianCarlo Moschini, Iowa State University; Ian Sheldon, The Ohio State University; Colin Carter, University of California, Davis

Presentations:
Consumers Willingness-to-Pay for GM and Non-GM Foods
Jayson Lusk, Oklahoma State University
Coexistence: Are the Two Main Property Rights Regimes Symmetric?
Volkert Beckerman, Humboldt University
Global Welfare and Trade-related Regulations of GM Food: Bio-safety, Markets, and Politics
Guillaume Gruere, International Food Policy Research Institute
Innovation, Risk, Precaution, and the Regulation of GM Products
Alan Randall, The Ohio State University

3040 Production Costs for Energy Crops and Crop Residues
Plaza Building, Concourse Level, Governor’s Square 11

AAEA Organized Symposium
The purpose of this session is to exchange information on production costs and break-even prices for crops and crop residues that are being considered as feedstocks for ethanol and other advanced biofuels. The budgets will consider recent harvesting equipment developments and the latest information on production inputs and yields. Ideas on budget formats and software available for managing energy crop budget data will also be discussed.

Organizer: William Lazarus, University of Minnesota

Presentations:
Extending the Duration of Switchgrass to Minimize Delivered Cost in Oklahoma
Francis M. Epplin, Oklahoma State University
Comparison of Switchgrass, Short-Rotation Woody Crops, Corn Stover, and Corn Cob Budgets for Minnesota
William Lazarus, University of Minnesota
Break-even Biomass Price and Yield for Conversion from Corn to Cellulosic Energy Crops in Michigan
Scott Swinton, Michigan State University
Cross-state Comparison of Extension Budgets for Switchgrass
Burton English, University of Tennessee

3041 A Century of Research on Rural Development and Regional Issues
Plaza Building, Concourse Level, Governor’s Square 12

CENET Track Session
Rural North America has undergone a major economic transformation over the past century due to labor-saving technological progress, reductions in transport costs, and rising household incomes. The results are greater rural economic diversity, selected rural population decline, increased rural-urban interdependence, emergent exurban areas, and amenity-led rural growth. This session summarizes key research advances over the past 100 years with a focus on this economic transformation of rural places, its implications for rural communities, policies, and key modeling innovations and applications. The many important contributions by agricultural economists are highlighted.

Organizer: Elena Irwin, The Ohio State University
Moderator: Daniel Monchuk, University of Southern Mississippi

Presentations:
A Century of Research on Rural Development and Regional Issues
Elena Irwin, The Ohio State University
A Century of Research on Rural Development and Regional Issues
Maureen Kilkenny, University of Nevada at Reno
A Century of Research on Rural Development and Regional Issues
Mark Partridge, The Ohio State University

Plaza Building, Concourse Level, Governor’s Square 14

IBES Track Session

The 2009 Nobel Prize in Economic Sciences cited Elinor Ostrom for “her analysis of economic governance, especially the commons” and the work of Oliver Williamson for “his analysis of economic governance, especially the boundaries of the firm.” This emphasis on governance, and the role of institutions in economic governance, elevates the importance of the economics of institutions as a factor requiring examination in economics. This session examines the work of Ostrom and Williamson by exploring 1) common elements and methodology of their work, 2) common intellectual foundations of their work, and 3) future opportunities that their work provides for economists.

Organizer: David Schweikhardt, Michigan State University; Brady Deaton, University of Guelph
Moderator: Laura McCann, University of Missouri
Discussant: David Schweikhardt, Michigan State University

Presentations:
The Foundations, Elements, and Methodology of Elinor Ostrom
Brady Deaton, University of Guelph
The Foundations, Elements, and Methodology of Oliver Williamson
James Stems, University of Florida

Invited Paper Session Featuring Selected Case Studies

Plaza Building, Concourse Level, Governor’s Square 15

AAEA Invited Paper Session

This session is comprised of several case studies that demonstrate how the application of economic principles to decision making in the public and private sectors leads to better decisions.

Moderator: Thomas Sporleder, The Ohio State University
Discussant: Christopher Peterson, Michigan State University

Presentations:
Natural Selection: 2006 E. Coli Recall
Jean Kinsey, Jeff Rush, and Xudong Ma, University of Minnesota; Jon Seltzer, University of St. Thomas
Rembrandt Foods, Broken Eggs
Kevin Kimle, Iowa State University
The Acquisition of IBP by Tyson Foods in 2001: Pre- and Post-merger Financial Performance
Michelle Wolfe and Scott Stressman, Apollo Group; Mark Manfredo, Arizona State University

Women in Agricultural Economics: A Centennial Celebration

Plaza Building, Concourse Level, Governor’s Square 16

CWAE Track Session

Women have made great strides in the profession. We will have a panel of extraordinary women in the profession discuss their perceptions of how far women have come and how far they still have to go.

Organizer: Maria Marshall, Purdue University
Moderator: Catherine Kling, Iowa State University
Panelist: Kathleen Segerson, University of Connecticut; Damona Doye, Oklahoma State University; Julie Caswell, University of Massachusetts Amherst; Sarahelen Thompson, USDA-Economic Research Service

New Advances in the Cooperative Life Cycle Framework

Plaza Building, Concourse Level, Governor’s Square 17

AEM Section Track Session

Multiple, often conflicting, theories regarding success and failure of cooperatives exist. Numerous cooperative scholars have posited the existence of a cooperative life cycle. In this track session, we present and discuss theoretical advances informing a cooperative life cycle framework—a systematic method of deciding when to selectively apply relevant theories of collective action. In addition, practitioners will discuss the use of the life cycle framework as a diagnostic tool.

Organizer: Fabio Chaddad, University of Missouri
Discussant: Vincent Amanor-Boadu, Kansas State University; Candace Roper, CoBank

Presentations:
A Cooperative Life Cycle Framework
Michael Cook and Molly Burress, University of Missouri
The Life Cycle Framework as a Diagnostic Tool: Regenerative Options in the Indian Cooperative Dairy Sector
Molly Burress and Michael Cook, University of Missouri
Cooperative Degeneration: A Primer
Fabio Chaddad, University of Missouri

Agricultural Trade and International Development

Tower Building, Terrace Level, Beverly Room

AAEA Selected Paper Session

In this session, four papers examine the impacts of trade on low-income countries. These presentations offer new insight on the effects of trade agreements and the effects of import restrictions or export promotions on developing countries’ wealth. Emphasis is not only put on the Doha Development Round but also on regional trade agreement and country-specific programs.

Moderator: Norbert Wilson, Auburn University

Presentations:
Special Safeguard Mechanisms for Developing Countries in the Doha Development Agenda
Heather A. Weeks and Jason Grant, Virginia Tech; Karl Maimke, University of Guelph; Michael McConnell, USDA-Economic Research Service
Economic Significance of Selective Export Promotion on Poverty Reduction and Inter-sectoral Growth in Ethiopia
Zelalem Chala, Jason Grant, and George Norton, Virginia Tech
How NAFTA Affected Poverty in Mexico
Rafael Garduno-Rivera and Kathy Baylis, University of Illinois at Urbana-Champaign
Does WTO Increase Trade? The Case of U.S. Cocoa Imports from Predominantly WTO-member Producing Countries
Osei-Agyeman Yeboah, North Carolina A&T State University; Saleem Shaik, North Dakota State University; Albert Allen, Mississippi State University; Shawn Wozniak, North Carolina A&T State University
**Price Risk Management in Agribusiness**

**Tower Building, Mezzanine Level, Century Room**

**AAEA Selected Paper Session**

The papers in this session provide new insights into risk management strategies for agribusiness firms that include hedging across multiple commodities; comparing theoretical models of risk to actual performance; and estimating backward bending investment demand.

**Moderator:** Gabriel Power, Texas A&M University

**Presentations:**

- Reconciling Theoretical Hedging Models with the Experience of Cotton Merchants in March 2008 Joseph P. Janzen, University of California, Davis
- Structural Estimation of a Backward Bending Investment Demand Function for Agribusiness Firms Jaclyn Kropp, Clemson University; Gabriel Power, Texas A&M University
- Multi-product Optimal Hedging by Time-varying Correlations in a State Dependent Model of Regime-switching Hernan A. Tejeda and Barry Goodwin, North Carolina State University
- Do Elevators Need a Bigger Umbrella? The Economic Value to Agribusiness Firms of Improved Multi-commodity Risk Management Dmitry Vedenov and Gabriel Power, Texas A&M University

---

**Climate Policy**

**Tower Building, Mezzanine Level, Colorado Room**

**AAEA Selected Paper Session**

This session includes a range of policy and management topics relating to climate change. Presentations include examinations of the interaction between energy policies and climate policies, as well as agricultural income effects of climate policy and low-carbon energy demand characteristics.

**Moderator:** Denis Nadolnyak, Auburn University

**Presentations:**

- Carbon Abatement in the Fuel Market with Biofuel: Implications for Second-best Fuel Taxes Christine Lasco and Madhu Khanna, University of Illinois at Urbana-Champaign
- Modeling the Effects of Cap and Trade and a Carbon Offset Policy on Crop Allocations and Farm Income Lawton Laniir Nally, Michael Popp, and Corey Fortin, University of Arkansas; Aaron Smith, University of California, Davis
- Global Interactions between Bioenergy and Climate Policies Alla Golub and Thomas W. Hertel, Purdue University; Steven Rose, Electric Power Research Institute; Brent L. Sohngen, The Ohio State University

---

**Credit, Insurance, and Economic Development**

**Tower Building, Mezzanine Level, Gold Room**

**AAEA Selected Paper Session**

Microfinance has revolutionized the economic development field in recent decades and has sparked a flurry of empirical research on financial services among the poor. This work has broad policy relevance and has also broadly raised the methodological rigor of research in applied economics. These papers highlight recent advances in our understanding of credit, insurance, and empirical research methods in this area.

**Moderator:** Christine Moser, Western Michigan University

**Presentations:**

- Ethnic Networks and Enterprise Credit: The Serahules of the Gambia Ousman Gajigo, World Bank; Jeremy Foltz, University of Wisconsin
- How High Is Too High? Soaring Interest Rates and the Elasticity of Demand for Credit in Microfinance Gabriela Salazar, Calum Turvey, and Vicki Bogan, Cornell University
- Formal and Informal Credit Markets and Rural Credit Demand in China Sai Tang, Harbin Institute of Technology; Zhengfei Guan and Songqing Jin, Michigan State University
**Private Provision of Ecosystem Services**

*AAEA Selected Paper Session*

This session explores agricultural producers and private landowners’ incentives for providing ecosystem services. Methods include bioeconomic modeling and preference elicitation. The role of green payments, landowner characteristics, alternative payment vehicles, and honey bee “wages” are considered.

**Moderator:** Matthew Salois, University of Reading

**Presentations:**
- The Dynamics of Pollination Markets
  *Antoine Champetier de Ribes, University of California, Davis*
- The Supply of Private Acreage for Public Recreational Use in Southern and Central Appalachia
  *Zheng Liu, Angelos Pagoulatos, and Wuyang Hu, University of Kentucky*
- Marketed and Non-marketed Outputs: The Marginal Cost of Producing Ecosystem Services
  *Johannes Sauer and Grada Wossink, University of Manchester*
- Do Stated Preference Values Predict Revealed Behavior in “New” Markets for Ecosystem Services? A Comparison of Experiments Addressing Establishing a Market for Farmland Ecosystem Services
  *Julie I. Santos, Emi Uchida, Christopher M. Anderson, and Stephen Swallow, University of Rhode Island*

**Household Decision-making**

*AAEA Selected Paper Session*

This session provides an international perspective on a variety of household decisions in areas such as breastfeeding and formal employment, household savings, and migration.

**Moderator:** Oluyemisi Kuku, Iowa State University

**Presentations:**
- Intra-household Bargaining under Asymmetric Information: Modeling Income Hiding within the Household
  *Carolina Castilla, The Ohio State University*
- Sex-induced Savings: Are India’s Gender Imbalances Inducing Higher Pre-marital Savings and Investment?
  *Alice Chiu, Derek Headley, and Xiaobo Zhang, International Food Policy Research Institute*
- Intra-household Time Allocation and Labor Migration Decisions in Rural South China
  *Lin Zhang and Jill Findeis, Pennsylvania State University*

**Market and Price Analysis of Agricultural Products in Asian Pacific Countries**

*AAEA Selected Paper Session*

This session highlights the market and price analysis of a variety of agricultural products in several Asian-Pacific countries; consumers’ willingness-to-pay for modified food in Republic of Korea and consumers’ willingness-to-pay for wine in China; and the cotton market in India and the rice market in Bangladesh.

**Moderator:** Carola Grebitus, University of Bonn

**Presentations:**
- Effects of Information and Country of Origin on Chinese Consumer Preferences for Wine
  *Hainan Wang, Washington State University*
- Determinants of Decision to Pay a Price Premium for Modified Food by Consumers of the Republic of Korea
  *Ozgur Kaya and Wojciech J. Florkowski, University of Georgia; Dong-Kyun Suh, Rural Development Administration*
- Markets, Institutions, and the Quality of Agricultural Products: Cotton Quality in India
  *Stephen MacDonald, USDA-Economic Research Service; Gopal Naik, India Institute of Management; Maurice Landes, USDA-Economic Research Service*
- Testing Asymmetric Price Transmission in the Deregulated Rice Markets in Bangladesh
  *Mohammad J. Alam, Ghent University; Ismat A. Begum, Bangladesh Agricultural University; Jeroen Buyssse, Ghent University; Andrew M. McKenzie and Eric J. Wailes, University of Arkansas; Guido Van Huylenbroeck, Ghent University*

**The Economics of Functional Foods**

*CAES Selected Presentation Session*

This session examines the factors affecting the research and development of functional foods and consumer preferences and acceptance of associated health claims.

**Moderator:** Claudia Schmidt, George Morris Centre

**Presentations:**
- Functional Foods and Incentives to Innovate
  *Stavroula Malla, University of Lethbridge; Richard Gray, University of Saskatchewan*
- “Full Labeling” or “Partial Labeling” in Canadian Consumer’s Functional Food Choices
  *Ningning Zou, University of Saskatchewan*
- Economic Effects of the Consumer-oriented GM Products in Markets with a Labeling Regime
  *Rim Lassoued, University of Saskatchewan; Konstantinos Giannakas, University of Nebraska*
- Niche Markets and Willingness-to-Pay for Disease-specific Functional Juices
  *Gale E. West, Université Laval; Patrick Verreault, Agriculture and Agri-Food Canada; Bruno Larue, Université Laval*
CONCURRENT SESSIONS, TUESDAY 9:45 AM-11:15 AM

3055 Natural Resource Economics
Tower Building, Second Level, Tower Court B

CAES Selected Presentation Session
This session presents papers that examine the effects of green economic policies and climate change on agricultural land use, and look at the economics of Canada’s natural resource sector.

Moderator: Alfons Weersink, University of Guelph

Presentations:
The Impact of Climate and Price Changes on the Economics of Prairies Agriculture: Climate vs. Price
Afshin Amiraslany and Richard Gray, University of Saskatchewan
Economic and Environmental Impacts of Land Use Change from Green Economic Policies
Aaron V. De Laporte and Alfons Weersink, University of Guelph; Dan McKenney and Denys Yemshanov, Natural Resources Canada
Modeling Changes in Agricultural Land Use in the Canadian Prairies with Climate Change
Susan Robertson, University of Alberta
Has Canada Caught Dutch Disease?
Mohammad Shakeri and Richard Gray, University of Saskatchewan

3056 International Trade
Tower Building, Second Level, Tower Court C

CAES Selected Presentation Session
This session theoretically and empirically explores issues involving interpersonal trade across geopolitical boundaries.

Moderator: David Orden, International Food Policy Research Institute

Presentations:
A Reexamination of Factors Affecting United States Softwood Lumber Imports from Canada
Jungho Baek, University of Alaska
Food Aid, Gravity, Political Convergence, and Good Governance
Francis Langlois, Bruno Larue, and Erick Duchesne, Université Laval
Comparative Advantage: From an Individual to the Economy
Predrag Rajsic, University of Guelph
Trade Barriers in the Presence of Changing Firm Behavior: The Case of the Canadian Hog and Pork Industry
Yingchun Dai and Ellen Goddard, University of Alberta

3057 Long-term Agricultural Structural Change in the United States, Canada, and Brazil
Tower Building, Second Level, Tower Court D

CAES Organized Symposium
This session will compare and contrast the structural changes of the agriculture sector of three major producing nations, Canada, Brazil, and the United States. Changes in the agricultural structure in these countries have had implications for agricultural trade, farm income, farm safety nets, and environmental policies. The three papers presentations will evaluate the impacts of structural change, making use of recently released data from these countries, and a subsequent discussion will consider the various drivers of structural change in each country and examine how they will contribute to meeting world demand and reducing hunger.

Organizer: David Culver, Agriculture and Agri-Food Canada; Mary Ahearn, USDA-Economic Research Service
Moderator: Mary Ahearn, USDA-Economic Research Service
Discussant: Krijn Poppe, Wageningen University

Presentations:
Past Trends and Drivers of Structural Changes in U.S. Agriculture
Erik O’Donoghue and Robert Hoppe, USDA-Economic Research Service
Structural Change in Canadian Agriculture and the Impacts on Canadian Farm Income and Farm Households
David Culver and Cally Dhaliwal, Agriculture and Agri-Food Canada
Brazilian Agriculture: A Changing Structure
Flavio Bolliger and Octavio Costa de Oliveira, Brazilian Institute of Geography and Statistics

3058 Current Agribusiness Policy Issues
Plaza Building, Street Level, Director’s Row E

AEM Section Track Session/WAEA Organized Symposium
Industry professional with graduate degrees will discuss a current policy topic and how it applies to their respective firm. Speakers from the transportation, confectionary, lending, and sugar industries will address policy issues.

Moderator: Lee Schulz, Kansas State University
Panelist: Brad Clow, Union Pacific; Christian Freberg, The Wrigley Company; Samarendu Mohanty, International Rice Research Institute; Terry Barr, CoBank

3059 Teaching and Learning in the Work Place
Plaza Building, Street Level, Director’s Row H

TLC Section Track Session/WAEA Organized Symposium
Industry professional with graduate degrees will discuss how education, teaching, and learning occur in their firm. Speakers from the fruit and vegetable, dairy, and financial services industries will address this topic.

Panelist: Dennis Conley, University of Idaho; Karla Chambers, Stahlbush Island Farms; Robert Yonkers, International Dairy Foods Association; Mark Teague, Toyota Financial Services
Discussant: Linda D. Burbidge, Kansas State University
Tuesday, July 27, 2010

1:30 PM-3:00 PM

3060 New Curricular Initiatives: The Case of Undergraduate Programs in Resource/Environmental Economics

Plaza Building, Concourse Level, Plaza Court 1

TLC Section Track Session

This session focuses upon the experience of agricultural/resource/applied economics departments with recent curricular initiatives in the form of majors, concentrations, or specializations in the area of resource/environmental economics. At least 27 departments had such curricular options as of 2009. Questions related to the following topics are to be explored: 1) assessment of demand/need, 2) design of curricular requirements, 3) recruitment strategies, 4) enrollment trends, 5) placement experience, and 6) unique opportunities and challenges. Findings from a survey of departments are to be presented, followed by remarks by a set of panelists and open discussion.

Organizer: William Park, University of Tennessee
Panelist: John C. Bergstrom, University of Georgia; John Braden, University of Illinois at Urbana-Champaign; Susan Capalbo, Oregon State University; John Halstead, University of New Hampshire; William Park, University of Tennessee

3061 Exchange Rates, Prices, and Agricultural Trade: What Have We Learned?

Plaza Building, Concourse Level, Plaza Court 2

International Section Track Session

Recent economic events remind us of the sector-level effects of key macroeconomic variables. In this context, the objective of this track session is to assess agricultural economists’ contributions to analyzing the impact of exchange rates on agricultural prices and trade flows. Presentations in the session will focus on the importance of the early research on the impact of exchange rates on agricultural trade flows, as well as crucially assessing the extent to which recent research contributions have extended understanding of the role of exchange rates in determining commodity prices and agricultural trade.

Moderator: David Orden, International Food Policy Research Institute
Discussant: Munisamy Gopinath, Oregon State University

Presentations:
Ed Schuh: His Contributions to Exchange Rate Analysis
Terry Roe, University of Minnesota
Agricultural Trade, Prices, and Exchange Rates
Philip Abbott, Purdue University
Agricultural Trade: Exchange Rate Volatility vs. Uncertainty
Ian Sheldon, The Ohio State University

AAEA Selected Paper Session

This session includes four studies on the demand for milk and beverages.

Moderator: Chen Zhen, RTI International

Presentations:
Micro-demand Systems Analysis of Non-alcoholic Beverages in the United States: An Application of Econometric Techniques Dealing with Censoring
Pedro Alviola IV, University of Arkansas; Oral Capps Jr. and Ximing Wu, Texas A&M University
The Welfare Effect of Organic Milk
Hee-Jung Choi, Michael Wohlgenant, and Xiaoyong Zheng, North Carolina State University
Advertising in the U.S. Non-alcoholic Beverage Industry: Are Spillover Effects Negative or Positive?
Senarath Dharmasena and Oral Capps Jr., Texas A&M University
Are Beverage Categories Separable?
Erika K. Styles, Fort Valley State University; Jong-Ying Lee, University of Florida

3063 Price Transmission

Plaza Building, Concourse Level, Plaza Court 4

AAEA Selected Paper Session

This session includes four papers analyzing how price shocks are transmitted to related markets.

Moderator: Edward Roeger, USDA-Economic Research Service

Presentations:
The Impact of Market Volatility on the Fertilizer Price Transmission Process
Craig M. Galbraith, Agriculture and Agri-Food Canada
Pass-through of Commodity and Input Costs to Retail Food Prices
Ephraim Leibtag and Edward Roeger, USDA-Economic Research Service
Semiparametric Evidence on the Nature of Price Transmission in Tanzanian Maize Markets
Rico Ihle and Stephan von Cramon-Taubadel, Georg-August-Universität Göttingen
Dynamic and Asymmetric Adjustment in Beef and Pork Prices
William F. Hahn, USDA-Economic Research Service
CONCURRENT SESSIONS, TUESDAY 1:30 PM-3:00 PM

3064  Land Use and the Conservation Reserve Program
   Plaza Building, Concourse Level, Plaza Court 5

AAEA Selected Paper Session
Land use and land use change is affected by myriad public policy suites at all levels of government. This session examines the effect of various land use policies on land use, conservation, and development.

Moderator: Hayley Chouinard, Washington State University

Presentations:
Slippage Effects of the Conservation Reserve Program: New Evidence from Satellite Imagery
   David A. Fleming, Pennsylvania State University

A Race to Develop: A Competing Risk Examination of the Pattern and Timing of Land Development in an Exurban County
   Douglas Wrenn, The Ohio State University

Alternative Land Use Policies: Real Options with Costly Reversibility
   Feng Song, Jinhua Zhao, and Scott Swinton, Michigan State University

Using Enrollment Discontinuities to Estimate the Effect of Voluntary Conservation on Local Land Values
   Jacob N. Brimlow, California State University, Chico; Michael Roberts, North Carolina State University

3065  Subsidy Incidence
   Plaza Building, Concourse Level, Plaza Court 6

AAEA Selected Paper Session
This session addresses the questions of who really benefits, by how much, and what are some of the other effects of agricultural subsidies.

Moderator: Dana L. Hoag, Colorado State University

Presentations:
Environmental Impacts of U.S. Agriculture Decoupled Direct Payments
   Janet Peckham, Jaclyn Kropp, and Julia Sharp, Clemson University

The Incidence of Agricultural Subsidies on Farmland Rental Rates: Overcoming Bias from Inertia, Expectations, and Tenancy Arrangements
   Nathan P. Hendricks and Joseph P. Janzen, University of California, Davis; Kevin Dhuyvetter, Kansas State University

An Empirical Investigation of the Impacts of Government Program Payments on Farmland Rental Rates
   Feng Qiu, Jean-Philippe Gervais, and Barry Goodwin, North Carolina State University

Who Really Benefits from Agricultural Subsidies? Evidence from Field-level Data
   Michael Roberts, North Carolina State University; Barrett Kirwan, University of Maryland

3066  Firms and Food Safety
   Plaza Building, Concourse Level, Plaza Court 7

AAEA Selected Paper Session
Food safety incidents have the potential to affect both consumers and firms. The papers in this session are focused on a number of different firm impacts: the relationship between mandatory traceability and firms in the context of firm heterogeneity, the impact of a food safety outbreak in a supply chain with market power present, the links between food safety recalls and firm stock prices, and the role of public policy in the application of food safety vaccines.

Moderator: Zhifeng Gao, University of Florida

Presentations:
Welfare Effects of Mandatory Traceability When Firms Are Heterogeneous
   Sebastien Pouliot, Iowa State University

Food Product Recalls, Consumer Confidence in the Food System, Media Coverage, and Stock Prices: A Regression and Event Analysis
   Pablo Antonio Garcia, Gustavo F. C. Ferreira, and Robert Wes Harrison, Louisiana State University; Jean Kinsey and Dennis Degeneffe, University of Minnesota

Would Subsidizing a Food Pathogen Vaccine Upset the Food Policy Apple Cart?
   Mariano Teisl, University of Maine; Stephan Marette, Institut National de la Recherche Agronomique; Brian E. Roe, The Ohio State University

3067  Market Power
   Plaza Building, Concourse Level, Plaza Court 8

AAEA Selected Paper Session
This session includes contributions related to market power in the beef industry, in local markets, and the Mexican corn flour production.

Moderator: James Rude, University of Alberta

Presentations:
Local Buyer Market Power and Horizontally Differentiated Manufacturers
   Shinn-Shyr Wang, Christian Rojas, and Nathalie Lavoie, University of Massachusetts Amherst

Dynamic Assessment of Oligopoly, Oligopsony Power, and Cost Efficiency Using the New Empirical Industrial Organization in the U.S. Beef Packing Industry
   Chanjin Chung and In Bae Ji, Oklahoma State University

Market Power after the Transition
   Karen E. Thome and Pierre Merel, University of California, Davis
CONCURRENT SESSIONS, TUESDAY 1:30 PM-3:00 PM

3068 Pollution Control and Voluntary Programs
Plaza Building, Concourse Level, Governor’s Square 9

AERE Session
This session includes papers that focus on pollution control through voluntary programs. Specific topics covered include: environmentally friendly technical change in small and medium sized firms from an innovation systems perspective; mechanisms to promote greater compliance with ambient levels of pollution; participation in and effectiveness of EPA’s 33/50 program to reduce toxics emissions; and the effectiveness of such programs for inducing adoption of environmental technology.

Moderator: Madhu Khanna, University of Illinois at Urbana-Champaign
Discussant: Martina Vidovic, Rollins College; Xiang Bi, University of Illinois at Urbana-Champaign; Bahar Erbas, Duquesne University; Gregory Colson, University of Georgia

Presentations:
Impact of the EPA’s Voluntary Pollution Prevention 33/50 Program on Facility Participation and Emissions
Martina Vidovic and Neha Khanna, Rollins College
From an Innovation System Perspective: Environmentally Friendly Technical Change and Small and Medium Sized Enterprises
Pinar Geylani and Bahar Erbas, Duquesne University
Multiple Receptor Ambient Monitoring and Firm Compliance with Environmental Taxes under Budget and Target Driven Regulatory Emissions
Gregory Colson, University of Georgia; Luisa Menapace, Iowa State University
Spatial Determinants of Pollution Prevention: Role of Mandatory Regulations and Voluntary Program Participation
Xiang Bi and Madhu Khanna, University of Illinois at Urbana-Champaign

3069 Dairy Market Volatility Causes and the Role of Policy
Plaza Building, Concourse Level, Governor’s Square 10

AAEA Organized Symposium
Price variablity in dairy markets has increased dramatically. This session addresses three questions. First, what factors contribute to this increase? Changes to market structure, both supply and demand, that affect supply response and price transmission are among the likely candidates. Second, do existing policies alleviate or exacerbate the problem? Attention focuses on the Milk Marketing Orders, dairy price support programs, and the Milk Income Contract Loss program. Dairy industry initiatives, such as herd buy-outs, are also considered. Third, what options address dairy price variability?

Organizer: Wyatt Thompson, University of Missouri
Moderator: Wyatt Thompson, University of Missouri

Presentations:
Dairy Market Variability Causes and Consequences
Jean-Paul Chavas, University of Wisconsin
Changing Market Structure and Demand: Implications for Price Variability
Richard Stillman, USDA-Economic Research Service
MILC and Herd Buy-out as Cures and Causes of Dairy Price Variability
Scott Brown, University of Missouri

3070 Emerging and Current Issues in Agricultural Biotechnology
Plaza Building, Concourse Level, Governor’s Square 11

COSBAE and CWAE Track Session
The comingling of biotech and organic products raises new challenges, which researchers have just begun to understand. This session is designed to provide a forum to address the various challenges that biotech stakeholders face in the dynamic yet controversial biotech market.

Organizer: Blondel A. Brinkman, USDA-Animal and Plant Health Inspection Service; Duncan M. Chembezi, Alabama A&M University
Discussant: Julie Caswell, University of Massachusetts Amherst

Presentations:
Trend in Biotechnology—Technology Provider’s Perspective
Nicholas Kalaitzandonakes, Alexandre H. Magnier, and Douglas J. Miller, University of Missouri
A Comparison between Perception of Risks and Willingness to Serve GM Foods
William Nganje, Arizona State University
Challenges in Producers’ Adoption of Biotechnology
Corinne Alexander, Purdue University

3071 Exploring the Interface between Local Food Systems and Community Economics
Plaza Building, Concourse Level, Governor’s Square 12

CENET Track Session
Local food systems are seen by advocates as a means of mitigating adverse environmental impacts, reducing nutrition and health risks, and addressing economic development challenges. Three speakers will address different community economic development and policy aspects of local food systems, including unique business practice and demographics of direct marketing producers, marketing behavior in local food systems channels, and the implications of buy local and farm-to-school programs. Discussion will focus on opportunities for researchers to contribute to the understanding of local food system conduct and performance, as well as the barriers to conducting such research given data limitations.

Organizer: Dawn Thilmany McFadden, Colorado State University

Presentations:
Economic Impact of Farm-to-School Programs: A Central Minnesota Example
Robert P. King, Brigid A. Tuck, and Monica R. Haynes, University of Minnesota
Buying Local: The Economics of Import Substitution
Phil Watson and Stephen Cooke, University of Idaho
What We Know about Buyers and Sellers in Farmers Markets in Central North Carolina
Mitchell Renkow, North Carolina State University
Spatial and Contextual Factors Driving Farm Participation in Local Foods
Sarah Low and Steve Vogel, USDA-Economic Research Service
Unique Characteristics of Direct Market Producers
Dawn Thilmany McFadden, Colorado State University
CONCURRENT SESSIONS, TUESDAY 1:30 PM-3:00 PM

3072 Policy Responses to Instability in Agricultural Markets: Retrospect and Prospect
Plaza Building, Concourse Level, Governor’s Square 14

FAMPS Track Session
Market instability has been an elemental justification for government intervention in agricultural markets. Economists have made significant contributions in developing, implementing and analyzing a diverse range of policy options to address this instability. Despite the rapid evolution of the farm sector and elements of the food/fiber supply chains, the role of government policy in addressing this issue engenders ongoing debate. This session will explore contributions of agricultural economists to our knowledge of market instability and policy interventions using examples from futures markets, specialty crops, and dairy, which also reflect different regional concentrations, sources of risk, and histories of government involvement.

Organizer: Charles Nicholson, California Polytechnic State University, San Luis Obispo
Moderator: Charles Nicholson, California Polytechnic State University, San Luis Obispo

Presentations:
- Robert Myers, Michigan State University
- Jay Noel, California Polytechnic State University, San Luis Obispo
- U.S. Dairy Policy: Cause or Cure for Price Variation? Andrew Novakovic, Cornell University

3073 Economic Implications of Imputation in Agricultural Economic Data
Plaza Building, Concourse Level, Governor’s Square 15

AAEA Invited Paper Session
Missing data are a pervasive problem in economic surveys. In this session we present three papers that demonstrate how different methods of imputation for missing data can affect the results of agricultural economic analysis. The first two papers address the impacts of imputation in the Agricultural Resource Management Survey (ARMS), a large survey of farm businesses and their associated households. The third paper uses aggregate state-level data. The goals of the session are 1) to raise awareness of imputation methods in agricultural and applied economics and 2) to show how better imputation methods can improve empirical work in agricultural economics.

Organizer: T. Kirk White, USDA-Economic Research Service
Moderator: T. Kirk White, USDA-Economic Research Service
Discussant: Sujit Ghosh, North Carolina State University

Presentations:
- The Implications of Imputation for Farm-level Total Factor Productivity Estimates from ARMS Data T. Kirk White, USDA-Economic Research Service
- Comparative ARMS Imputation Methods for Farm Household Income Mary Ahearn, Dave Banker, Dawn Marie Clay, and Daniel Milkove, USDA-Economic Research Service
- Estimating Cost and Production Functions Using Multiply Imputed Data Charles Moss, University of Florida; Ashok Mishra, Louisiana State University

3074 How Health Is Changing the Dynamics of Food Innovation
Plaza Building, Concourse Level, Governor’s Square 16

AEM Section and FSN Section Track Session
This session examines how food innovation systems are changing in response to new research on relationships between food and health and the opportunities to create new products and markets for foods with positive health related properties. Consumers have expanded their search criteria for new product attributes, which they perceive to be related to health. These include functional foods and nutraceuticals but can also include elements only loosely linked to health such as organic, local food, and environmental claims. Firms are expanding their product offerings and reshaping their marketing strategies in response to the new opportunities to link food and health.

Organizer: David Sparling, University of Western Ontario
Moderator: David Sparling, University of Western Ontario
Discussant: Ellen Goddard, University of Alberta; Thomas Sporleder, The Ohio State University

Presentations:
- Consumer Acceptance of Functional Foods and Natural Health Products: Case Studies from Canada John Cranfield, University of Guelph
- The Role of Policy and Industry Strategy in Supporting and Capitalizing Healthy Food Innovations: A Case Study Analysis David Sparling, University of Western Ontario
- Translating Nutrition Research into Economic Opportunities—Healthy Food Innovations, Media, and Agri-food Chains Brandon Schaufele and Pamela Laughland, University of Western Ontario

3075 Extension Section Crops Outlook
Plaza Building, Concourse Level, Governor’s Square 17

Extension Section Track Session
This session continues the long history of Extension Section Outlook Track Sessions, and will focus on grain and oilseed situation and outlook and provide insights into the potential impacts of Conservation Reserve Program (CRP) contract renewal on crop production. Presenters will explore the current trends in grain and oilseed production, demand factors influencing crop markets, price outlook, and potential future production adjustments from CRP enrollment decisions.

Organizer: Frayne Olson, North Dakota State University
Moderator: Frayne Olson, North Dakota State University

Presentations:
- Corn and Soybean Situation and Outlook Christopher Hurt, Purdue University
- Wheat Situation and Outlook Frayne Olson, North Dakota State University
- Potential Impacts of CRP Renewal Daniel Hellerstein, USDA-Economic Research Service
- Consensus Forecasts Ronald Plain, University of Missouri

AAEA, CAES, & WAEA Joint Annual Meeting
Denver, CO • July 25–27, 2010
3076 Land Valuation and Capital Structure Issues  
**Tower Building, Terrace Level, Beverly Room**

**AAEA Selected Paper Session**

The papers in this session consider land valuation and capital structure issues: forecasting of land values, a dynamic analysis of land prices, and a spatial analysis of land cash rents.

**Moderator:** Nicholas Paulson, University of Illinois at Urbana-Champaign

**Presentations:**
- Can the Federal Reserve Bank’s Survey of Agricultural Credit Conditions Forecast Land Values?  
  **Christopher Zakrewicz and B. Wade Brorsen, Oklahoma State University; Brian Briggeman, Federal Reserve Bank of Kansas City**
- Dynamic Analysis of Land Prices with Flexible Risk Aversion Coefficients  
  **Jin Xu and David Leatham, Texas A&M University**
- A Spatial Analysis of Illinois Agricultural Cash Rents  
  **Shannon Woodard and Nicholas Paulson, University of Illinois at Urbana-Champaign; Joshua Woodard, Texas A&M University; Kathy Baylis, University of Illinois at Urbana-Champaign**

3077 Spatial Dimensions of Invasive Species: Bioeconomic Modeling Using Cellular Automata  
**Tower Building, Mezzanine Level, Century Room**

**AAEA Selected Paper Session**

This session explores spatial dimensions of invasive species’ impacts and management. These papers use cellular automata models to evaluate the importance of resilience, targeted management, cooperation, and landowner “rules of thumb” in invasive species management.

**Moderator:** Damian C. Adams, Oklahoma State University

**Presentations:**
- Stepping Stones for Biological Invasion: A Bioeconomic Model of Transferable Risk  
  **Travis W. Warziniack, University of Heidelberg; David Finnoff, University of Wyoming; Jonathan Bossenbroek, University of Toledo; Jason Shogren, University of Wyoming; David Lodge, University of Notre Dame**
- Optimal Control of Spatial-dynamic Processes: The Case of Biological Invasions  
  **Rebecca Epanchin-Niell and James Wilen, University of California, Davis**
- Positive Analysis of Invasive Species Control as a Spatial-dynamic Process  
  **George Frisvold, Esra Buyuktahtakin, Aaryn Olson, Ferenc Szidarovszky, and Zhuo Feng, University of Arizona**
- Cooperation, Spatial-dynamic Externalities, and Invasive Species Management  
  **Rebecca Epanchin-Niell and James Wilen, University of California, Davis**

3078 Applications of Experimental Methods  
**Tower Building, Mezzanine Level, Colorado Room**

**AAEA Selected Paper Session**

This session explores risk preferences, insurance demand, residential energy efficiency measures using field experiments. It also explores water quality trading and milk quota exchanges from an experimental perspective.

**Moderator:** Jordan Suter, Oberlin College

**Presentations:**
- Risk Preferences and Demand for Insurance in Peru: A Field Experiment  
  **Francisco B. Galarza, Universidad Francisco Marroquin**
- Auction Experiments to Simulate Milk Quota Exchanges  
  **Jens-Peter Loy, University of Kiel**
- Water Quality Trading in the Presence of Discrete Abatement Costs: An Experimental Analysis of Contract Length and the Timing of Investment  
  **Luke Jones and Christian Vossler, University of Tennessee**
- Estimating Payback to Residential Energy Efficiency Measures: A Field Experiment  
  **Jordan Suter, Oberlin College**

3079 Non-timber Determinants of Forest Management  
**Tower Building, Mezzanine Level, Denver Room**

**AAEA Selected Paper Session**

This session investigates the effects of biofuel policies, carbon sequestration incentives, economic development and strategic behavior on forest management, and conservation around the globe. Analyses draw upon dynamic optimization, simulation, econometrics, and game-theory.

**Moderator:** Gwenlyn Busby, Virginia Tech

**Presentations:**
- Long Term vs. Temporary Certified Emission Reductions in Forest Carbon-sequestration Programs  
  **Gregmar Galinato and Aaron Olanie, Washington State University; Shinsuke Uchida, University of Maryland; Jonathan Yoder, Washington State University**
- Reaching Far into the Woods: Impact of Roads on Forest Structure in China  
  **Karen A. Sullivan and Emi Uchida, University of Rhode Island; Xiangzheng Deng and Jikun Huang, Center for Chinese Agricultural Policy; Scott Rozelle, Stanford University; John Gibson, Waikato Management School**
- The Impact of U.S. and European Biofuel Policies on Forest Carbon  
  **Yoon Hyung Kim, The Ohio State University; Alla Golub, Purdue University; Brent L. Sohngen, The Ohio State University; Thomas W. Hertel, Purdue University; Steven Rose, Electric Power Research Institute**
- Estimating Private Incentives for Wildfire Risk Mitigation: Determinants of Demands for Different Fire-safe Actions  
  **Mimako Kobayashi, Nikolaos Zirogiannis, Kimberly Rollins, and Mariah D.R. Evans, University of Nevada at Reno**
AAEA Selected Paper Session

Production Technology
Tower Building, Mezzanine Level, Gold Room

Moderator: Roderick Rejesus, North Carolina State University

Presentations:
Changes in Producers’ Perceptions of Within-field Yield Variability Following Adoption of Cotton Yield Monitors
Roderick Rejesus and Michele Marra, North Carolina State University; Roland Roberts, Burton English, and James Larson, University of Tennessee; Kenneth Paxton, Louisiana State University

Economics of Pre-Plant, Topdress, and Variable Rate Nitrogen Application in Winter Wheat
Christopher Boyer, B. Wade Brorsen, William R. Raun, D. Brian Arnall, and John B. Solie, Oklahoma State University

Conservation Tillage, Pesticide Use, and Biotech Crops in the United States
Jorge Fernandez-Cornejo, Richard Nehring, and Charlie Hallahan, USDA-Economic Research Service; Arthur Grube, U.S. Environmental Protection Agency

Effect of Nitrogen Fertilization and Liming on Rye-Ryegrass Yield and Soil pH Dynamics
Emmanuel Tumusiime and B. Wade Brorsen, Oklahoma State University; Jagadeesh Mosaali and Jon T. Biermacher, Samuel Roberts Noble Foundation

Ecosystem Services and Resource Conservation
Tower Building, Mezzanine Level, Silver Room

Moderator: Philip Wandschneider, Washington State University

Presentations:
On the Empirics of Ecosystem Services Schemes: Technology, Risk, and Compliance
Johannes Sauer, University of Manchester

Adverse Selection in Conservation Auctions: Theoretical and Experimental Results
Kent Messer, Joshua Duke, and Michael Arnold, University of Delaware

Can Domestication of Wildlife Lead to Conservation? The Economics of Tiger Farming in China
Brant Abbott and G. Cornelis Van Kooten, University of Victoria; Mark E. Eiswerth, University of Northern Colorado

Optimal Allocation of Land for Conservation: A General Equilibrium Analysis
Sahan Dissanayake and Hector Nunez, University of Illinois at Urbana-Champaign

Biomass and Carbon Sequestration
Tower Building, Mezzanine Level, Spruce Room

Moderator: David Archer, USDA-Agricultural Research Service

Presentations:
The Effect of Carbon Payments on Deforestation Rates: Estimates from a Global Forestry and Agricultural Model
Suk-Won Choi, National Center for Atmospheric Research; Brent L. Sohngen, The Ohio State University; Alla Golub and Thomas W. Hertel, Purdue University

Using Cellulosic Ethanol to “Go Green”: What Price for Carbon?
Alicia Rosburg and John Miranowski, Iowa State University

Enhancing Student Learning: Theory and Practice
Tower Building, Terrace Level, Terrace Room

Moderator: Maria Marshall, Purdue University

Presentations:
Identifying Student Success at a Land Grant Institution
Mark Holmgren and Vicki McCracken, Washington State University

Implications of Neuroscience Developments in Understanding Human Behavior for Teaching in Agricultural Economics/Agribusiness
Amanda Bruce and Jared Bruce, University of Missouri at Kansas City; Bryan Schurle and Yacob Zereyesus, Kansas State University

“Academic Coaching” for Enhanced Learning, Higher Levels of Student Responsibility, and Greater Retention
Andrew Barkley, Kansas State University

How Graduate School Prepared Me for a Career in Industry
Plaza Building, Street Level, Director’s Row E

Moderator: Witsanu Attavanich, Texas A&M University

Panelist:
Karen Taylor, Farm Credit Canada; Richard Fritz, Global Agri Trends; Sterling Liddell, Iowa Farm Bureau Federation
CONCURRENT SESSIONS, TUESDAY 1:30 PM-3:00 PM

3085 Policy Issues Affecting Food and Agribusinesses  
Plaza Building, Street Level, Director’s Row H  

FAMPS Track Session/WAEA Organized Symposium  
Industry professional with graduate degrees will discuss a current policy topic and how it applies to their respective firm. Speakers from the food safety, agricultural consulting, and fruit and vegetable industries and a public policy education firm will discuss policy issues.  
Panelist: Neilson Conklin, Farm Foundation; Craig Marotz, Sensitech; Tim Watts, Watts & Associates, Inc; Bill Chambers, Stahlbush Island Farms  
Discussant: Jeff Luckstead, Washington State University  

Tuesday, July 27, 2010  
4:00 PM-5:30 PM

3086 Outstanding Intellectual Contributions by Agricultural Economists  
Plaza Building, Concourse Level, Plaza Court 1  

Senior Section Track Session  
Agricultural and applied economists have made many outstanding contributions to our understanding of the economic and policy issues impacting the agricultural sector and other parts of the economy over the past 100 years. What have been the most outstanding contributions and who have been the contributors? After considering the various sub-disciplines in the profession, each of the four speakers and the discussant will highlight and document three to five of these outstanding contributions, and note the major contributors to each. Then the audience will be given an opportunity to add their choices.  
Organizer: Vernon Eidman, University of Minnesota  
Moderator: Vernon Eidman, University of Minnesota  
Discussant: Bernard Stanton, Cornell University  

Presentations:  
Outstanding Contributions in Policy, Trade, and International Development  
Alex McCalla, University of California, Davis  
Outstanding Contributions in Production Economics, Risk and Expectations, Futures Prices, and Productivity Analysis  
Jean-Paul Chavas, University of Wisconsin  
Outstanding Contributions in Resource, Environmental, and Regional Economics  
Catherine Kling, Iowa State University  
Outstanding Contributions in Food and Consumer Economics  
Jean Kinsey, University of Minnesota

3087 Climate Change and Agriculture: Impacts, Adaptation, and Mitigation  
Plaza Building, Concourse Level, Plaza Court 2  

International Section Track Session  
The December 2009 Copenhagen climate change negotiations have come and gone, with limited results. It is likely that discussions will continue throughout 2010 about appropriate roles for developed and developing countries in greenhouse gas mitigation, the need for better monitoring, reporting, and verification for all countries, and the urgency of rapid action. The presentations in this session include reports on the impacts of climate change on agriculture world-wide and the costs of adaptation, likely U.S. climate change legislation and consequences for U.S. agriculture, and synergies between climate change adaptation and mitigation.  
Moderator: Kitty Smith, USDA-Economic Research Service  
Panelist: Gerald Nelson, International Food Policy Research Institute; Nancy McCarthy, Food and Agriculture Organization of the United Nations; Bruce McCarl, Texas A&M University

3088 Climate Change Legislation: Food Sector Impacts  
Plaza Building, Concourse Level, Plaza Court 3  

FAMPS Track Session  
The U.S. Congress is currently considering climate change legislation. If passed, the legislation could have far-reaching impacts on the U.S. and world economies. Depending on the form of the final legislation, the costs of energy-related inputs may increase, which could substantially raise the costs of growing crops, raising livestock, processing food, transporting products around the world, and getting food to final consumers. This panel discussion tries to make sense of these disparate potential effects on the food sector. The discussion focuses on the state of climate change debate and examines possible impacts on all the players in the food supply chain.  
Organizer: Patrick Westhoff, University of Missouri; Duncan M. Chembezi, Alabama A&M University  
Moderator: Blondel A. Brinkman, USDA-Animal and Plant Health Inspection Service; Duncan M. Chembezi, Alabama A&M University  
Panelist: Patrick Westhoff, University of Missouri; Joe Outlaw, Texas A&M University; Susan Capalbo, Oregon State University; Craig Jagger, House Agriculture Committee; Hayden Milberg, Senate Agriculture Committee

3089 Investment, Trade, and R&D In International Development  
Plaza Building, Concourse Level, Plaza Court 4  

AAEA Selected Paper Session  
Policies that directly affect investment and trade decisions often have important indirect effects on the economic development process. These indirect linkages are nuanced and often overlooked, but can also be of first-order importance. This session brings together three papers that explore these important policy linkages from three distinct perspectives.  
Moderator: Abdoul Sam, The Ohio State University  

Presentations:  
Third-party Facilitation of Investments in Private Enforcement Capital: Evidence from Armenian Dairy Industry  
Aleksan Shanoyan, Michigan State University; Hamish Gow, Massey University; R. Ross and Christopher Peterson, Michigan State University  

Are the Poverty Effects of Trade Policies Invisible?  
Monika Verma and Thomas W. Hertel, Purdue University; Ernesto Valenzuela, University of Adelaide  

Effects of Pension Privatization on Foreign Direct Investments: Empirical Evidence from Latin America  
Chris Reece, University of Pennsylvania; Abdoul Sam, The Ohio State University
CONCURRENT SESSIONS, TUESDAY 4:00 PM-5:30 PM

3090  Trade Policy
Plaza Building, Concourse Level, Plaza Court 5

AAEA Selected Paper Session
The papers in this session address the important and unavoidable topic of the distributional impacts of liberalized trade policies—from a non-U.S. perspective.

Moderator: Robert Dismukes, USDA-Economic Research Service

Presentations:
- Impacts of Export Controls on Wheat Markets During the Food Crisis 2007–2008 in Russia and Ukraine
  Linde Goetz and Thomas Glauben, Leibniz-Institute of Agricultural Development in Central and Eastern Europe; Bernhard Brümmer, Georg-August-Universität Göttingen
- Effect of NAFTA on Mexico’s Agricultural Producers
  Kathy Baylis and Joanne R. Henderson, University of Illinois at Urbana-Champaign
- Global Inequality Impacts of Multilateral Liberalization
  Roman Keeney and Amanda Leister, Purdue University

3091  Land Markets
Plaza Building, Concourse Level, Plaza Court 6

AAEA Selected Paper Session
Successes and failures in rural agricultural development often directly reflect the efficiency or flaws in underlying factor markets. Land markets, as arguably the most important such factor market, are often subject to important rigidities, constraints, and limitations. The papers in this session will address the implications of specific features of local land markets for rural agricultural development.

Moderator: Klaus Deininger, World Bank

Presentations:
- Do Limitations in Land Rights Transferability Influence Low Mobility Rates in Ethiopia?
  Valerie Mueller and Alan De Brauw, International Food Policy Research Institute
- Going Digital: Computerized Land Registration and Credit Access in India
  Klaus Deininger and Aparajita Goyal, World Bank
- Large Scale Land Acquisition for Agribusiness Investment: Extent and Determinants of the “Global Land Grab”
  Rabah Arezki, International Monetary Fund; Klaus Deininger and Harris Sedol, World Bank
- Does Land Fragmentation Reduce Efficiency? Micro-evidence from India
  Daniel Monchuk, University of Southern Mississippi; Klaus Deininger, World Bank; Hari Nagarajan, National Council of Applied Economic Research

3092  Consumer Preference for Quality Information and Labeling Information
Plaza Building, Concourse Level, Plaza Court 7

AAEA Selected Paper Session
This session highlights the relative importance and consumers’ willingness-to-pay for product quality information and labeled information; binary labels and index labels are compared; the potential of using visual presentation of attributes; and how product labeling interacts with tasting experience.

Moderator: William Nganje, Arizona State University

Presentations:
- Is Presentation Everything? Using Visual Presentation of Attributes in a Discrete Choice Experiment to Measure the Relative Importance of Intrinsic and Extrinsic Beef Attributes
  Wendy J. Umberger, University of Adelaide; Simone C. Mueller, University of South Australia
- Do Taste Buds Trump Labels and Information? A Sensory Test and Economic Experiment on Organic and Local Apples
  Marisa Bunning, Marco Costanigro, Stephan Kroll, and Dawn Thillmany McFadden, Colorado State University
- The Role of Taste Perception for the Success of Country of Origin Labeling in the Case of Organic Pepper
  Heike Kloeckner, Nina Langen, and Monika Hartmann, University of Bonn

3093  Weather Risk and Insurance Derivatives
Plaza Building, Concourse Level, Plaza Court 8

AAEA Selected Paper Session
The papers in this session examine issues related to modeling and pricing weather-based insurance products. Topics include new advances in the modeling of weather risk and the potential implications on yield predictions.

Moderator: Eric J. Belasco, Texas Tech University

Presentations:
- The Impacts of Thresholds on Risk Behavior: What’s Wrong with Index Insurance?
  Daniel Osgood, Columbia University
- Dependence Structure and Spatial Contagion among Agricultural Insurance Indices
  Pu Liu and Mario Miranda, The Ohio State University
- Pricing Spatial Basis Risk for Weather Index Insurance
  Michael Norton, Columbia University; Calum Turvey, Cornell University; Daniel Osgood, Columbia University
- The Value of Long-term Climate Forecast Information in Weather Index Insurance
  Denis Nadolnyak, Auburn University

3094  Working with the New NIFA
Plaza Building, Concourse Level, Governor’s Square 9

AAEA Organized Symposium
The National Institute for Food and Agriculture (NIFA) came into existence in October 2009 replacing CSREES. The session will outline opportunities to work with the new leadership in order to increase funding for agricultural economics. Information will be offered on how to apply for grants in NIFA, how to be the lead investigator on a multi-disciplinary team, and how to provide NIFA with information regarding the cutting edge economics research.

Organizer: Tamara Wagester, C-FARE
Moderator: Jon Brandt, North Carolina State University
Panelist: Franklin Boteler, USDA-National Institute of Food and Agriculture; Craig Beyrouty, Colorado State University; James Shortle, Pennsylvania State University

AAEA, CAES, & WAEA Joint Annual Meeting
Denver, CO • July 25–27, 2010
AAEA Organized Symposium
Using recent research, the presenters in this session have evaluated the implications of the crisis on U.S. and global agriculture. They follow with an analysis of the causes and evolution of the crisis: global imbalances in savings and trade, increasing global integration, policies to sterilize excess dollar flows, and weak international institutions to modify global imbalances. The session then assess the impacts of the crisis: reduced agricultural trade, commodity prices, and declines in farm income and land values globally. It will also evaluate what the longer term impacts of the global recession are likely to be for agriculture and the broader world economy.
Organizer: Mathew Shane, USDA-Economic Research Service
Moderator: Janet Perry, USDA-Economic Research Service
Presentations:
What the 2008–09 Global Economic Crisis Means for U.S. Agriculture
Mathew Shane, USDA-Economic Research Service
What the 2008–09 Global Economic Crisis Means for U.S. Farm Income and Real Estate Values
Mitch Morehart, USDA-Economic Research Service; Andrew Morton, U.S. Commodity Futures Trading Commission
The 2008–09 Economic Crisis, Global Imbalances, and Agriculture
Terry Roe, University of Minnesota
The Global Economic Crisis and Agricultural Prices
Munisamy Gopinath, Oregon State University

Econometric Developments in Agricultural Economics: The First 100 Years
This session reviews the major contributions of agricultural and resource economists in the area of econometrics over the past 100 years. Early on, a number of agricultural economists were in on the ground floor in terms of developing new econometric methods. Over time as the economics profession became more empirically oriented, agricultural and resource economists increasingly assumed the role of early adopters of new econometric methods. Even so agricultural and resource economists continue to make useful modifications to econometric techniques in order to adapt the methods to the unique nature of the problems and applications that we study.
Moderator: Jeffrey LaFrance, Washington State University
Discussant: David Bessler, Texas A&M University
Presentations:
Econometric Developments in Agricultural and Resource Economics: The First 100 Years
Jeffrey Dorfman, University of Georgia

ARAA Section Track Session
The purpose of this session is to address recent developments within the federal crop insurance program and its relationship to other farm programs.
Moderator: Keith Collins, USDA-Office of the Chief Economist
Presentations: The Perspective from RMA
Kert Lanclos, USDA-Risk Management Agency
The Academic Perspective
Barry Barnett, Mississippi State University
Industry Perspective
Thomas Zacharias, National Crop Insurance Services

Promoting Food Choice and Health for Children: Political, Economic, and Behavioral Aspects
This session presents research on the political, economic, and societal determinants of childhood obesity. Scientific evidence shows that a balanced diet comprising healthy and diverse foods is essential for lowering the risk of chronic conditions—cardiovascular diseases, obesity, and diabetes. In many industrial countries, children and adolescents in particular fail to meet public health guidelines. Dietary patterns adopted in early childhood shape future food choice, as early familiarity with healthy food or a lack thereof provides lasting “food roots.” Thus, to increase healthy food choices of children promises a high return on investment. The roles of individual behavior as well as political and societal determinants are considered in the researchers’ presentations.
Organizer: Carola Grebitus, University of Bonn; Larissa Drescher, Technische Universität München
Moderator: Allen Wysocki, University of Florida
Discussant: Jayson Lusk, Oklahoma State University
Presentations:
Addressing Childhood Obesity: An Economic and Policy Challenge
Sean B. Cash, University of Wisconsin; Larissa Drescher, Technische Universität München
Determinants of Parents’ Purchase Patterns of Foods for Children—Evidence From Germany
Carola Grebitus, Gesa Maschkowski, and Johannes Simons, Universität Bonn
Fruit and Vegetable Consumption of Children: The Role of Advertisement
Monika Hartmann, University of Bonn; Lisa House, University of Florida
Children’s Consumption of Fruits and Vegetables: School Meals vs. Home Meals
Ariun Ishdorj, Texas A&M University; Helen Jensen, Iowa State University
CONCURRENT SESSIONS, TUESDAY 4:00 PM-5:30 PM

3099  Farmer Response to Catastrophic Natural Disasters in the Developing World  
Plaza Building, Concourse Level, Governor’s Square 15  

AAEA Invited Paper Session  
Severe weather events and livestock disease outbreaks threaten the livelihood poor farmers worldwide. The session will present diverse empirical studies from developing countries that estimate key parameters affecting producer response and adaptation to various kinds of catastrophic risks. These results will allow for prediction of future changes in behavior as the likelihood of catastrophic risks is increasing and provide important insights on the role and impacts of policies in addressing these risks. The discussant will address the methods, modeling, and analysis of responses to catastrophic risks in these papers, and assess the findings within the context of the literature.  
Organizer: Jennifer Ifft, University of California, Berkeley  
Moderator: David Zilberman, University of California, Berkeley  
Discussant: Christopher B. Barrett, Cornell University  

Presentations:  
Production and Risk Prevention Response of Free Range Chicken Producers in Vietnam to Highly Pathogenic Avian Influenza Outbreaks  
Jennifer Ifft, David Zilberman, and David Roland-Holst, University of California, Berkeley  
No-tillage Systems and Catastrophic Drought Risk Mitigation in Mediterranean Agriculture: The Option Value of Delayed Input Use  
Nicholas Magnan, University of California, Davis; Aziz Fadlaoui, National Institute of Agronomic Research, Morocco; Travis Lybbert, University of California, Davis; Rachid Mrabet, National Institute of Agronomic Research, Morocco  
Weather Indexed Insurance in Mexico: The Case of the Program for Attention to Climatic Contingencies (PACC) and Its Effects On Productivity, Risk Diversification, and Financial Access  
Alan Fuchs, University of California, Berkeley; Hendrik Wolff, University of Washington

3100  Alerting All Entrepreneurs! Research on Ethical Awareness and Entrepreneurial Behavior  
Plaza Building, Concourse Level, Governor’s Square 16  

AEM Section and IBES Track Session  
This session explores the intersection of cognitive awareness and entrepreneurial behavior. One paper presents a framework building on social psychology and new institutional economics, and uses data from the World Values Survey, to resolve the observation within the literature that entrepreneurs tend to be better able to identify ethical courses of action, but also less likely to pursue these courses. The second paper explores farmer’s entrepreneurial responses to change in the U.S. Farm Bill to assess the extent to which farm programs are exploited or discovered. The discussants will facilitate discussion on the nature and appropriateness of entrepreneurial behavior.  
Organizer: Desmond Ng, Texas A&M University  
Moderator: Harvey James, University of Missouri  
Discussant: Christopher Peterson, Michigan State University; Glenn Fox, University of Guelph  

Presentations:  
The Cognitive Connection between Ethics and Entrepreneurship  
Peter Klein, University of Missouri; Desmond Ng, Texas A&M University; Harvey James, University of Missouri  
Farming the Farm Programs: An Entrepreneurial Perspective  
Michael Sykuta, University of Missouri; Andrea Woolverton, USDA-Economic Research Service

3101  Livestock Outlook  
Plaza Building, Concourse Level, Governor’s Square 17  

Extension Section Track Session  
This session continues the tradition of Extension Section Livestock Track Sessions and will focus on livestock situation and outlook. The presenters will discuss the trends in domestic and global livestock production, trade, supplies, demand and prices as well as the prospects for profitability for the coming year.  
Organizer: Ross Pruitt, Louisiana State University  
Moderator: Ross Pruitt, Louisiana State University  
Discussant: Ross Pruitt, Louisiana State University  

Presentations:  
Cattle and Beef  
John Wiley, Mississippi State University  
Hogs and Pork  
Glynn Tonsor, Kansas State University  
Dairy  
Scott Brown, University of Missouri  
Consensus Forecasts  
Ronald Plain, University of Missouri

3102  How Behavioral Economics Can Inform Policymakers  
Tower Building, Terrace Level, Beverly Room  

AAEA Organized Symposium  
Interest in experimental and behavioral economics has risen dramatically over the last few decades. Still many agricultural economists perceive this area as “fashionable,” but not very useful for applied economics. To truly influence policy, behavioral economists have to take upon themselves the responsibility for deriving explicit policy recommendations based on their findings. This session attempts to build a bridge between the results of the cutting-edge behavioral research and explicit recommendations for the policymakers. The unifying theme of the three presentations included in the session is intertemporal choice. The session’s discussant will represent the policymakers’ viewpoint.  
Organizer: Helen Pushkarskaya, University of Kentucky  
Moderator: Helen Pushkarskaya, University of Kentucky  
Discussant: Brian Briggeman, Federal Reserve Bank of Kansas City  

Presentations:  
How Biases toward the Default Option Affect Estimation of the Personal Discount Rate  
Helen Pushkarskaya, University of Kentucky; Maria Marshall, Purdue University  
Naughty or Nice? The Role of Punishment in Long-term Contractual Relationships  
John Schieffer, University of Kentucky; Steven Wu, Purdue University  
Fully Characterizing the Set of Time Consistent Discount Functions  
Zachary Brown, Duke University
**Price Interdependence**  
*Tower Building, Mezzanine Level, Denver Room*

**AAEA Selected Paper Session**  
This session includes four papers analyzing how prices in related markets depend on one another.

**Moderator:** Ardian Harri, Mississippi State University  

**Presentations:**
- The Pattern of Integration between Fossil Fuel and Vegetable Oil Markets: The Case of Biodiesel in Germany  
  *Stefan Busse, Bernhard Brümmer, and Rico Ihle, Georg-August-Universität Göttingen*
  *d’Artis Kancs and Pavel Ciaian, European Commission*
- Market Integration for Shrimp and the Effect of Catastrophic Events  
  *Ardian Harri, Mississippi State University; Andrew Muhammad and Keithly Jones, USDA-Economic Research Service*
- Price Dynamics and Their Causes: An Exploration in Futures and Spot Market Interactions  
  *Teddy Wong and Aaron Smith, University of California, Davis*

---

**Valuing Recreation**  
*Tower Building, Mezzanine Level, Spruce Room*

**AAEA Selected Paper Session**  
This session explores contemporary issues in the modeling of recreation demand. A diverse set of papers address issues related to construct validity, choice set definitions, and stratification. By examining a range of recreation settings, the set of papers serves as an interesting catalyst for discussions of applied welfare analysis and recreation demand.

**Moderator:** Kathleen Bell, University of Maine  

**Presentations:**
- Testing Construct Validity of River Recreation Use Values: A Comparison of Direct Elicitation of Use Values to Use Values Inferred Indirectly from WTP for Total Economic Value  
  *John B. Loomis, Colorado State University*
- Modeling Demand for Outdoor Recreation Settings with Choice Based Data Accounting for Endogenous and Exogenous Stratification  
  *Kavita Sardana, University of Georgia; James M. Bowker, U.S. Forest Service; John C. Bergstrom, University of Georgia*
- The Welfare Effects of Restricting Off-highway Vehicle Access to Public Lands  
  *Paul Jakus, John Keith, and Lu Liu, Utah State University; Dale Blahna, U.S. Forest Service*
- Valuing Public Access to Great Lake Beaches  
  *Feng Song, Frank Lupi, and Michael Kaplowitz, Michigan State University*

      | Tuesday, 1:30 pm–3:00 pm |

### FSN Section Track Sessions

| 1003 | Evaluation—Measuring the Impact of Food Safety and Nutrition Policy  
      | Sunday, 3:00 pm–4:30 pm |
| 2001 | Healthy Food or Healthy People? How Do Food and Nutrition Assistance Programs Contribute to the Health of Low Income Americans?  
      | Monday, 10:15 am–11:45 am |
| 2061 | The Second Century of Food and Consumer Economics: What Will Be Remembered in 2110?  
      | Monday, 4:00 pm–5:30 pm |
| 3015 | Behavioral Economics Research Approaches: Innovative Applications in Nutrition and Food Safety  
      | Tuesday, 8:00 am–9:30 am |
| 3074 | How Health Is Changing the Dynamics of Food Innovation  
      | Tuesday, 1:30 pm–3:00 pm |
| 3098 | Promoting Food Choice and Health for Children: Political, Economic, and Behavioral Aspects  
      | Tuesday, 4:00 pm–5:30 pm |

### GSS Track Sessions

| 2030 | Navigating Article Writing and the Publishing Process  
      | Monday, 10:15 am–11:45 am |
| 2031 | How to Give a Presentation: Research, Extension, and Teaching  
      | Monday, 1:30 pm–3:00 pm |
| 2059 | How to Survive Graduate School  
      | Monday, 4:00 pm–5:30 pm |
| 3030 | Graduate Student Competition in Extension—Winners’ Presentations  
      | Tuesday, 9:45 am–11:15 am |
| 3084 | How Graduate School Prepared Me for a Career in Industry  
      | Tuesday, 1:30 pm–3:00 pm |

### Household & Labor Economics

**Posters: T2–T10**

| 2035 | Agricultural Labor  
      | Monday, 1:30 pm–3:00 pm |
| 3007 | Food, Health, and Households  
      | Tuesday, 8:00 am–9:30 am |
| 3052 | Household Decision-making  
      | Tuesday, 9:45 am–11:15 am |

### IBES Track Sessions

| 2004 | Advances in Transaction Cost Measurement for Environmental and Natural Resources Policy  
      | Tuesday, 9:45 am–11:15 am |
| 2073 | Moving Beyond Self-interest in Economic Choice: Further Tests of Social Capital and Dual Interests Theory  
      | Tuesday, 4:00 pm–5:30 pm |
| 3015 | Behavioral Economics Research Approaches: Innovative Applications in Nutrition and Food Safety  
      | Tuesday, 8:00 am–9:30 am |
      | Tuesday, 9:45 am–11:15 am |
| 3100 | Alerting All Entrepreneurs! Research on Ethical Awareness and Entrepreneurial Behavior  
      | Tuesday, 4:00 pm–5:30 pm |

Zubchenko, Anna; University of British Columbia; 2029

CAES Posters begin with a C; AAEA Posters begin with an M or T; and all session numbers begin with a 10, 20, or 30.
Applied Economic Perspectives and Policy:
Lessons Learned in the First Year and a Forecast for the Future

AAEA is giving attendees an update on and review of AAEA’s new journal Applied Economic Perspectives and Policy (AEPP) in this session. This session was created specifically for those interested in publishing in the new journal and will give members the opportunity to interact with a representative from Oxford University Press, as well as the editors of AEPP.

Sunday, 3:00–4:30 pm
Plaza Building, Concourse Level, Governor’s Square 16

For more information about AEPP, visit www.aepp.oxfordjournals.org.
